Fear and Loathing Worldwide Robert Alexander, Christine Isager, 2018-07-26 For more than 40 years the radically subjective style of participatory journalism known as Gonzo has been inextricably associated with the American writer Hunter S Thompson Around the world however other journalists approach unconventional material in risky ways placing themselves in the middle of off beat stories and relate those accounts in the supercharged rhetoric of Gonzo In some cases Thompson's influence is apparent even explicit in others writers have crafted their journalistic provocations independently only later to have that work labelled Gonzo In either case Gonzo journalism has clearly become an international phenomenon In *Fear and Loathing Worldwide* scholars from fourteen countries discuss writers from Europe the Americas Africa and Australia whose work bears unmistakable traces of the mutant Gonzo gene In each chapter Gonzo emerges as a powerful but unstable signifier read and

practiced with different accents and emphases in the various national cultural political and journalistic contexts in which it has erupted Whether immersed in the Dutch crack scene exploring the Polish version of Route 66 following the trail of the 2014 South African General Election or committing unspeakable acts on the bus to Turku the writers described in this volume are driven by the same fearless disdain for convention and profound commitment to rattling received opinion with which the outlaw journalist Thompson scorched his way into the American consciousness in the 1960s 70s and beyond

Leviathan John Birmingham, 2011-07-01 An electrifying epic history of the city of Sydney as you have never seen her before To peer deeply into this ghost city the one lying beneath the surface is to understand that Sydney has a soul and that it is a very dark place indeed Beneath the shining harbour amid the towers of global greed and deep inside the bad drugs madness of the suburban wastelands lies Sydney's shadow history Terrifying tsunamis corpse robbing morgue staff killer cops neo Nazis power junkies and bumbling SWOS teams electrify this epic tale of a city with a cold vacuum for a moral core Birmingham drills beneath the cover story of a successful multicultural metropolis and melts the boundaries between past and present to reveal a ghost city beneath the surface of concrete and glass In Birmingham's alternative history of Sydney the yawning chasm between the megarich and the lumpen masses is as evident in the insane wealth of the new elites as it was in the head spinning rapacity of the NSW Rum Corps This is a city shattered by the nexus between government big money and the underworld where the glittering prizes go to the strong not the just Combining intensive research with the pace of a techno thriller John Birmingham creates a rich portrait of a city too dazzled by its own gorgeous reflection to care much for what lies at its dark corrupted heart Illuminated by wild flashes of black humour violent ghoulish and utterly compelling Leviathan is history for the Tarantino generation

Gangland: The Revised Edition Mark Davis, 1999-07-01 Panics over the culture wars political correctness and victim feminism rap music ecstasy and body piercings our cultural

landscape is currently peppered with examples of a desperately backward looking stasis and a fearful hanging on. In *Gangland* Mark Davis analyses the dated ideals and assumptions of Australia's cultural establishment and their near monopoly on cultural debate. Who are these people? What do they do? How is their influence affecting public forums and the media? Where does that leave the young people of today? Davis's irreverent prose cuts across the moral panics and anxieties that characterise Australian culture to detect a deep seated fear of change, a fear that is often expressed as hostility towards youth. *Gangland* names names and maps networks laying bare the discrepancies between reality and the images peddled by some of Australia's most popular thinkers, questioning the ideas that have characterised Australia in the nineties. *Deserves to become a manifesto for a disenfranchised generation*. Australian Financial Review. Finally somebody on the side of late teens and twentysomethings in Australia, a brilliant argument of a book. Adrian Smart. *Cream Gangland* has sparked a valuable debate, one which I've been looking forward to for years. Kathy Bail. Australian Book Review.

Cultural Seeds: Essays on the Work of Nick Cave Tanya Dalziel, 2016-05-13 Nick Cave is now widely recognized as a songwriter, musician, novelist, screenwriter, curator, critic, actor, and performer. From the band The Boys Next Door (1976-1980) to the spoken word recording *The Secret Life of the Love Song* (1998) to the recently acclaimed screenplay of *The Proposition* (2005) and the *Grinderman* project (2008), Cave's career spans thirty years and has produced a comprehensive and sometimes controversial body of work that has shaped contemporary alternative culture. Despite intense media interest in Cave, there have been remarkably few comprehensive appraisals of his work, its significance, and its impact on understandings of popular culture. In addressing this absence, the present volume is both timely and necessary. *Cultural Seeds* brings together an international range of scholars and practitioners, each of whom is uniquely placed to comment on an aspect of Cave's career. The essays collected here not only generate new ways of seeing and understanding Cave's contributions to contemporary culture but set up a dialogue between fields all too often separated in the academy and in the media. Topics include Cave and the Presley myth, the aberrant masculinity projected by The Birthday Party, the postcolonial Australian-ness of his humour, his interventions in film, and his erotics of the sacred. These essays offer compelling insights and provocative arguments about the fluidity of contemporary artistic practice.
