Headache Relief Today:

Headache Relief Alan Rapoport, 1991-12-15 Presents information on the latest diagnostic tests and cures for headaches and discusses types of headaches biofeedback relaxation techniques and diet and exercise **HEADACHE RELIEF** Robert Zemeck, 2021 Sinuses are eight hollow air filled pockets that are located in your forehead cheekbones and behind the bridge of your nose These sinuses make thin mucus that drains out the channels of the nose What is a sinus headache Some neurologists believe that when people think that they are having sinus headaches they are actually having migraines Sinus headaches almost never recur so if you notice that your sinus headaches seem to be occurring again and again that is your first clue that you may be experiencing migraines instead Being able to diagnose whether you have a sinus headache or a migraine can get rather confusing because people with migraines seem to see an increase in headaches depending on humidity and other environmental conditions Sinus headaches are generally associated with deep and constant pain in the cheekbones forehead or bridge of the nose The pain usually intensifies with sudden head movement Sinus headaches are usually accompanied by other sinus symptoms including nasal discharge a feeling of fullness in the ears fever or facial swelling When sinuses become inflamed usually because of an allergic reaction a tumor or an infection the inflammation will prevent the outflow of mucus This causes an intense pain similar to that of a headache Below is a list of some of the various characteristics of sinus headaches 1 The pain is usually deep and constant and is located around the cheekbones forehead or bridge of the nose 2 The pain usually intensifies when you move your head suddenly or when you strain yourself 3 Sinus headaches usually occur with other sinus symptoms such as nasal discharge a feeling of fullness in the ears fever and facial swelling Treating a sinus headache is generally focused on treating the infection in the sinuses using an antibiotic Over the counter antihistamines such as Benadryl or decongestants such as Sudafed may also be used for a short period of time to help clear up the symptoms Decongestants are often used to relieve headaches associated with sinus infections because they work by constricting blood vessels that cause headache pain However decongestants should only be used as directed as they can be habit forming Allergies do not necessarily cause headaches but allergies can cause sinus congestion and the congestion can lead to headache pain Keep in mind that treating your allergies will generally not relieve your headache pain and the two must be treated individually *Stop Headaches Now* Jerry M. Simon, 2001 **Stop Your Neck Pain and Headache Now** Rowlin L. Lichter, 2011-10-26 Stress is the leading cause of neck pain and popping a pill is not the answer Using the tools and techniques taught here you can prevent neck pain and headaches in just minutes a day Author Rowlin L. Lichter M D is a board certified orthopedic surgeon who shares step by step instructions on how you can stop your neck pain and headaches simply quickly and easily Dr Lichter has created a system of easy exercises that have provided permanent relief to 85 percent of the patients who tried them Now this cure is yours without a prescription These techniques have been developed with the help of physical therapists at CHART Rehabilitation in Hawaii with continuing success Knowledgeable

doctors and therapists worldwide have adopted these methods Dr Lichter also explores complementary and alternative medicine CAM therapies like acupuncture and many kinds of massage and shiatsu which can give temporary relief Since most neck pains are transient that may be all the help you need He also offers his professional opinion on which treatments products and miracle solutions to avoid These exercises offer permanent relief from more serious neck pain and can be an important upgrade to any healthy lifestyle
