What you need to know

All workers have a right to work in places where risks to their health and safety are properly controlled. Health and safety is about stopping you getting hurt at work or ill through work. Your employer is responsible for health and safety, but you must help.

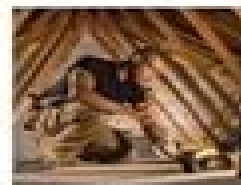

What employers must do for you

- 1 Provide what could harm you in your job and the precautions to stop it. This is part of risk assessment.
- 2 In a way you can understand, explain how risks will be controlled and tell you who is responsible for this.
- 3 Consult and work with you and your health and safety representative in preparing everyone to work safely in the workplace.
- 4 Tell of changes that pose the health and safety risk and you must know your job.
- 5 Tell of changes that pose the health and safety risk and you must know your job.

What you must do

- 6 Provide safety, working facilities and drinking water.
- 7 Provide adequate first aid facilities.
- 8 Report major injuries and fatalities at work to the Health and Safety Executive (HSE) on 0845 300 9000. Report other injuries, diseases and dangerous occurrences on www.hse.gov.uk.
- 9 Have insurance that covers you in case you get hurt or sick or if things go wrong. Display a hard copy or electronic copy of the current Insurance Certificate which you can easily read to.
- 10 Work with any other employees or contractors sharing the workplace in providing employees (made as agreed notices) so that everyone's health and safety is protected.

If there's a problem

- 1 If you are worried about health and safety in your workplace, talk to your employer, supervisor, or health and safety representative.
- 2 You can also look at our website for general information about health and safety at work.
- 3 If, after talking with your employer, you are still worried, you can find the address of your local enforcing authority for health and safety and the Employment Medical Advisers Service (EMAS) website www.emas.gov.uk.
