The history and rapid development of minor planet discovery. In addition to citing the bibliographic source of the names, coveries constitute a fascinating story and one with a long history. In addition, we also provide the source of numbering. A special rather breathtaking evolution. By October 2005 the official concordance list will enable the evaluation of the total of numbered planets exceeded the remarkable corresponding publication dates. The complete work is a cornerstone of 100 000 objects and only three years later of course a thoroughly revised and considerably enhanced. In November 2008 we are even faced with minor planet large data collection and every effort has been made. 200 000. This dramatic evolution must be compared to check and correct each single piece of information with the huge time span of two centuries. 1801-2000 again. For even more detailed information on the discovery that was necessary to detect and to refine the orbits of discovery circumstances of numbered but unnamed planets only the first 20 000 minor planets. Nowadays we need less. The reader is referred to the extensive data files even less than 13 months for the same quantity. At the time compiled by the Minor Planet Center end of 2005 we had achieved a total of 12 804 named. According to a resolution of IAU Division III 2000 minor planets a fraction of less than 11 per cent of Manchester IAU General Assembly DMPN attained all numbered minor planets.
