The Turn of the Screw was originally published as a serialized novel in Collier's Weekly. Robert J. Collier, whose father had founded the magazine, had just become editor. At the time, James was already a well-known author having already published *The Europeans*, *Daisy Miller*, *Washington Square*, and *The Bostonians*. Collier was hoping to increase his magazine's circulation and revenue and to improve its reputation by publishing the works of a serious well-known author like James. James himself had just signed a long-term lease on a house in Sussex and needed the extra income to facilitate moving from his residence in London. Thus, James agreed to Collier's proposal that he write a twelve-part ghost story. In 1897, James finished *The Turn of the Screw* in November 1897, and the story was published in Collier's between January and April of 1898. The text of the story consisted of a prologue and twelve chapters in both the serialized publication and later book versions. In Collier's, the story was further divided into five parts and published in twelve installments.
