Ufford, 2007-07-30 With striking parallels to recent confrontations in Iraq this is the story of the first Western international coalition to suppress an aggressive Middle Eastern ruler The challenger was Mehemet Ali Pasha called the founder of modern Egypt Convinced that the Europeans would never be able to unite against him he sought with charm brilliance and bravado to create a powerful Muslim counterweight to the encroaching West Drawing on research on three continents this timely book takes the reader into the heart of a crisis as France Great Britain the Ottoman government and the Pasha of Egypt maneuver to defend their interests in the Eastern Mediterranean Here are the passionate debates among French and British politicians as they struggle to control the Pasha without provoking a European war Here are the battlefields from the Euphrates to Beirut on which Mehemet Ali's modernizing forces created the facts that fed the crisis Here are the Sultan's ministers at Istanbul buffeted by the threats of European ambassadors And here in confrontation is the fascinating Mehemet Ali Pasha in constant conversation with those seeking to deflect him from his dangerous ambition As France began the fortification of Paris as Prussia contemplated the French threat of a war on the Rhine and as British warships flooded the Mediterranean Mehemet Ali sat cross legged on his sumptuous divan looking from his palace out over his beautiful fleet at anchor in the bay of Alexandria and challenged the western world **Ethiopian Scribal Practice 1** Steve Delamarter, Melaku Terefe, 2011-04-28 The series Ethiopic Manuscripts Texts and Studies offers in the first place

B. Parkinson,2009-02-17 In Reading Ancient Egyptian Poetry Richard Parkinson explores how ancient Egyptian poems have been read and perceived across the ages Presents an innovative and theoretically informed account of how the most famous ancient Egyptian poems have been read over 4 000 years From a leading expert in the interpretation of ancient Egyptian literature Explores the original experience of ordinary Egyptians enjoying the poems as well as their interpretation during the Middle Kingdom and up to modern times Draws on recent discoveries in the British Museum archives to reconstruct the contexts of the poems Wonderful Things: A History of Egyptology, Volume 1 Jason Thompson,2015-03-01 The discovery of ancient Egypt and the development of Egyptology are momentous events in intellectual and cultural history The history of Egyptology is the story of the people famous and obscure who constructed the picture of ancient Egypt that we have today recovered the Egyptian past while inventing it anew and made a lost civilization comprehensible to generations of enchanted readers and viewers thousands of years later This the first of a three volume survey of the history of Egyptology follows the fascination with ancient Egypt from antiquity until 1881 tracing the recovery of ancient Egypt and its impact on the human imagination in a saga filled with intriguing mysteries great discoveries and scholarly creativity Wonderful Things affirms that the history of ancient Egypt has proved continually fascinating but it also demonstrates that the history of Egyptology is no less so Only by understanding how Egyptology has developed can we truly understand the Egyptian past *Rameses III, King of Egypt* Aidan Dodson,2019-11-19 Master story teller and renowned Egyptologist Aidan Dodson reveals the secrets of Rameses III in this fully illustrated accessible history the first to exclusively cover this last great pharaoh by the author of the bestselling *Sethy I* Rameses III often dubbed the last great pharaoh lived and ruled during the first half of the twelfth century bc a tumultuous time that saw the almost complete overthrow of established order in the eastern Mediterranean and among Rameses s achievements was the preservation of Egypt as a nation state in the face of external assault However his reign also saw economic challenges and increasing dissatisfaction which culminated in the king s own assassination This richly illustrated book is the latest in a series that aims to provide accounts of key figures in ancient Egyptian history that covers not only their life stories but also their rediscovery and reception in modern times Accordingly it follows the king from his birth to his resurrection through modern research describing the key events of the reign his major monuments and the people and events that led to these becoming once again known to the world **Consuls and the Institutions of Global Capitalism, 1783-1914** Ferry de Goey,2015-10-06 The nineteenth century saw the expansion of Western influence across the globe A consular presence in a new territory had numerous advantages for business and trade Using specific case studies de Goey

demonstrates the key role played by consuls in the rise of the global economy Edge of Empire Maya Jasanoff,2007-12-18 In this imaginative book Maya Jasanoff uncovers the extraordinary stories of collectors who lived on the frontiers of the British Empire in India and Egypt tracing their exploits to tell an intimate history of imperialism Jasanoff delves beneath the grand narratives of power exploitation and resistance to look at the British Empire through the eyes of the people caught up in it Written and researched on four continents Edge of Empire enters a world where people lived loved mingled and identified with one another in ways richer and more complex than previous accounts have led us to believe were possible And as this book demonstrates traces of that world remain tangible and topical today An innovative persuasive and provocative work of history Levant Philip Mansel,2011-05-24 Not so long ago in certain cities on the shores of the eastern Mediterranean Muslims Christians and Jews lived and flourished side by side What can the histories of these cities tell us Levant is a book of cities It describes three former centers of great wealth pleasure and freedom Smyrna Alexandria and Beirut cities of the Levant region along the eastern coast of the Mediterranean In these key ports at the crossroads of East and West against all expectations cosmopolitanism and nationalism flourished simultaneously People freely switched identities and languages released from the prisons of religion and nationality Muslims Christians and Jews lived and worshipped as neighbors Distinguished historian Philip Mansel is the first to recount the colorful contradictory histories of Smyrna Alexandria and Beirut in the modern age He begins in the early days of the French alliance with the Ottoman Empire in the sixteenth century and continues through the cities mid twentieth century fates Smyrna burned Alexandria Egyptianized Beirut lacerated by civil war Mansel looks back to discern what these remarkable Levantine cities were like how they differed from other cities why they shone forth as cultural beacons He also embarks on a quest to discover whether as often claimed these cities were truly cosmopolitan possessing the elixir of coexistence between Muslims Christians and Jews for which the world yearns Or below the glittering surface were they volcanoes waiting to erupt as the catastrophes of the twentieth century suggest In the pages of the past Mansel finds important messages for the fractured world of today

Americans at War in the Ottoman Empire Eric Covey,2018-12-13 Americans at War in the Ottoman Empire examines the role of mercenary figures in negotiating relations between the United States and the Ottoman Empire in the nineteenth century Mercenaries are often treated as historical footnotes yet their encounters with the Ottoman world contributed to US culture and the impressions they left behind continue to influence US approaches to Africa and the Middle East The book s analysis of these mercenary encounters and their legacies begins with the Battle of Derna in 1805 in which the US flag was raised above a battlefield for the first time outside of North America with the help of a mercenary army and concludes with the British occupation of Egypt in 1882 which was witnessed and criticized by many of the US Civil War veterans who worked for the Egyptian government in the 1870s and 1880s By focusing these mercenary encounters through the lenses of memory sovereignty literature geography and diplomacy Americans at War in the Ottoman Empire reveals the ways in which

mercenary force while marginal in terms of its frequency and scope produced important knowledge about the Ottoman world and helped to establish the complicated relationship of intimacy and mastery that exists between Americans in the United States and people in Libya Egypt Sudan Uganda South Sudan and Turkey

The Zodiac of Paris Jed Z. Buchwald,Diane Greco Josefowicz,2010-05-09 The clash of faith and science in Napoleonic France The Dendera zodiac an ancient bas relief temple ceiling adorned with mysterious symbols of the stars and planets was first discovered by the French during Napoleon s campaign in Egypt and quickly provoked a controversy between scientists and theologians Brought to Paris in 1821 and ultimately installed in the Louvre where it can still be seen today the zodiac appeared to depict the nighttime sky from a time predating the Biblical creation and therefore cast doubt on religious truth The Zodiac of Paris tells the story of this incredible archeological find and its unlikely role in the fierce disputes over science and faith in Napoleonic and Restoration France The book unfolds against the turbulence of the French Revolution Napoleon s breathtaking rise and fall and the restoration of the Bourbons to the throne Drawing on newspapers journals diaries pamphlets and other documentary evidence Jed Buchwald and Diane Greco Josefowicz show how scientists and intellectuals seized upon the zodiac to discredit Christianity and how this drew furious responses from conservatives and sparked debates about the merits of scientific calculation as a source of knowledge about the past The ideological battles would rage until the thoroughly antireligious Jean Fran ois Champollion unlocked the secrets of Egyptian hieroglyphs and of the zodiac itself Champollion would prove the religious reactionaries right but for all the wrong reasons The Zodiac of Paris brings Napoleonic and Restoration France vividly to life revealing the lengths to which scientists intellectuals theologians and conservatives went to use the ancient past for modern purposes

Dialogues with the Dead David Gange,2013-06-13 Egyptology in British Culture and Religion shows for the first time how Egyptology s development over the century that followed the decipherment of the hieroglyphic script in 1822

can only be understood through its intimate entanglement with the historical scientific and religious contentions which defined the era

Promised Lands Jonathan Parry, 2024-12-10 A major history of the British Empire's early involvement in the Middle East Napoleon's invasion of Egypt in 1798 showed how vulnerable India was to attack by France and Russia It forced the British Empire to try to secure the two routes that a European might use to reach the subcontinent through Egypt and the Red Sea and through Baghdad and the Persian Gulf Promised Lands is a panoramic history of this vibrant and explosive age Charting the development of Britain's political interest in the Middle East from the Napoleonic Wars to the Crimean War in the 1850s Jonathan Parry examines the various strategies employed by British and Indian officials describing how they sought influence with local Arabs Mamluks Kurds Christians and Jews He tells a story of commercial and naval power boosted by the arrival of steamships in the 1830s and discusses how classical and biblical history fed into British visions of what these lands might become The region was subject to the Ottoman Empire yet the sultan's grip on it appeared weak Should Ottoman claims to sovereignty be recognised and exploited or ignored and opposed Could the Sultan's government be made to support British objectives or would it always favour France or Russia Promised Lands shows how what started as a geopolitical contest became a drama about diplomatic competition religion race and the unforeseen consequences of history

The Lost Manuscript of Frédéric Cailliaud Frédéric Cailliaud, 2014 The travel accounts of Frédéric Cailliaud were an important early contribution to the birth of Egyptology in the first half of the nineteenth century But one of his major works was never published For the first time here his exquisite color plates are presented alongside a translation of his original French text Arriving in Egypt in 1815 Cailliaud made copious notes on the flora and fauna people and antiquities and took a collection of over two thousand objects back to France His beautifully rendered watercolors of scenes on ancient Egyptian tombs and temples show animated scenes of ancient daily life

Scriptural Geography Edwin James Aiken, 2009-11-30 For nineteenth century scholars the Holy Land was not just a region of the globe it was an idea an intellectual and moral space charged with the heat of debate between those trying to understand the religious social and scientific upheavals of the time Edwin Aiken explores the various ways in which geographical knowledge was used in these debates In particular he shows how religious writers called upon geographical knowledge to the benefit of their readers The result is an original and stimulating work of scholarship that demonstrates the significance of the geography of the Holy Land in Western thought and argument and makes important contributions to the history of geography the nature of Orientalism and to the evolving relationship between religion and science

possible to decolonize our galleries Must Rhodes fall How to deal with the colonial history of art in museums and monuments in the public realm is a thorny issue that we are only just beginning to address Alice Procter creator of the Uncomfortable Art Tours provides a manual for deconstructing everything you thought you knew about art history and tells the stories that have been left out of the canon The book is divided into four chronological sections named after four different kinds of art space The Palace The Classroom The Memorial and The Playground Each section tackles the fascinating enlightening and often shocking stories of a selection of art pieces including the propaganda painting the East India Company used to justify its rule in India the tattooed Maori skulls collected as art objects by Europeans and works by contemporary artists who are taking on colonial history in their work and activism today The Whole Picture is a much needed provocation to look more critically at the accepted narratives about art and rethink and disrupt the way we interact with the museums and galleries that display it
