The Worlds of Herman Kahn Sharon Ghamari-Tabrizi,2009-06-30 Herman Kahn was the only nuclear strategist in America who might have made a living as a standup comedian Indeed galumphing around stages across the country joking his way through one grotesque thermonuclear scenario after another he came frighteningly close In telling the story of Herman Kahn whose 1960 book On Thermonuclear War catapulted him into celebrity Sharon Ghamari Tabrizi captures an era that is still very much with us a time whose innocence gruesome nuclear humor and outrageous but deadly serious visions of annihilation have their echoes in the known unknowns and unknown unknowns that guide policymakers in our own embattled world Portraying a life that combined aspects of Lenny Bruce Hitchcock and Kubrick Ghamari Tabrizi presents not one Herman Kahn but many one who spoke the suffocatingly dry argot of the nuclear experts another whose buffoonery conveyed the ingenious absurdity of it all and countless others who capered before the public ambiguous baffling always open to interpretation This then is a story of one thoroughly strange and captivating man as well as a cultural history of our moment In Herman Kahn s world is a critical lesson about how Cold War analysts learned to fill in the ciphers of strategic uncertainty and thus how we as a nation learned to live with the peculiarly inventive quality of strategy in which uncertainty generates extravagant threat scenarios Revealing the metaphysical behind the dryly deliberate apparently practical discussion of nuclear strategy this book depicts the creation of a world where clever men fashion Something out of Nothing and establishes Herman Kahn as our first virtuoso of the unknown unknowns

Revel with a Cause Stephen E.

Kercher,2010-06-15 We live in a time much like the postwar era A time of arch political conservatism and vast social conformity A time in which our nation s leaders question and challenge the patriotism of those who oppose their policies But before there was Jon Stewart Al Franken or Bill Maher there were Mort Sahl Stan Freberg and Lenny Bruce liberal satirists who through their wry and scabrous comedic routines waged war against the political ironies contradictions and hypocrisies of their times *Revel with a Cause* is their story Stephen Kercher here provides the first comprehensive look at the satiric humor that flourished in the United States during the 1950s and early 1960s Focusing on an impressive range of comedy not just standup comedians of the day but also satirical publications like MAD magazine improvisational theater groups such as Second City the motion picture *Dr Strangelove* and TV shows like *That Was the Week That Was* Kercher reminds us that the postwar era saw varieties of comic expression that were more challenging and nonconformist than we commonly remember His history of these comedic luminaries shows that for a sizeable audience of educated middle class Americans who shared such liberal views the period s satire was a crucial mode of cultural dissent For such individuals satire was a vehicle through which concerns over the suppression of civil liberties Cold War foreign policies blind social conformity and our heated racial crisis could be productively addressed A vibrant and probing look at some of the most influential comedy of mid twentieth century America *Revel with a Cause* belongs on the short list of essential books for anyone interested in the relationship between American politics and popular culture **Princeton Alumni Weekly** ,1966 *Encyclopaedia of Twentieth Century Journalists* William H. Taft,2015-07-16 Originally published in 1986 This book is a unique compilation of biographical sketches which covers editors publishers photographers bureau chiefs columnists commentators cartoonists and artists Alphabetical entries provide overviews of the lives and personalities of a good cross section of important people There is also a short essay on awards and prize winners Everything is efficiently indexed This is a supremely useful reference tool for those in mass media and popular culture fields **Schooling America** Patricia Albjerg Graham,2007 In this informative volume one of America s most esteemed historians of education offers a vibrant history of American education in the last century Drawing on an array of sources Graham offers an insightful look at what the public has sought from its educational institutions what educators have delivered and what remains to be done
