Literary Polemics Bataille Sartre Valery Breton:

Literary Polemics Suzanne Guerlac, 2000-02-01 During the 1960 s and 1970 s the eruption of theory was presented as an epistemic break reorganizing the field of questioning both prospectively and retrospectively In the forefront of this new movement was the influential journal *Tel Quel* which both canonized a body of preferred avant garde texts both literary and theoretical and nullified prominent figures from preceding generations In a broad remapping of French modernism this book shows how the milieu of *Tel Quel* transferred myths of the powers of literature inherited from Bataille Sartre Val ry and Breton to theory in the process erasing the traces of these myths and their common ground The author analyzes cultural and theoretical positions pure art automatism engagement and transgression that structured the literary and critical field from the 1920 s to the 1950 s to show their strong impact on the formulation and elaboration of theoretical issues in more recent decades Focusing on the question of relations between poetry and action she reexamines these positions and uncovers proximities between them that significantly displace theoretical issues These proximities emerge when a philosophical subtext of Bergson antiphilosopher and nondialectical thinker is revealed to operate alongside the more obvious subtext of Hegel The discourse of Bergson shifts the category of action central to these literary polemics and revalues the visual register suggesting a reconsideration of Surrealism The book concludes by examining the ideological pressures associated with the eclipse of the discourse of Bergson as well as some of the effects of this erasure on our understanding of the modern as distinct from the postmodern

Blanchot and Literary Criticism Mark Hewson, 2011-09-01 Blanchot s writings on literature have imposed themselves in the canon of modern literary theory and yet have remained a mysterious presence This is in part due to their almost hypnotic literary style

in part due to their distinctive amalgam of a number of philosophical sources Hegel Heidegger Levinas Bataille which although hardly unknown in the Anglophone philosophical world have not yet made themselves fully at home in literary theory This book aims to make visible the coherence of Blanchot's critical project To recognize the challenge that Blanchot represents for literary criticism one has to see that he always has in view the self-interrogation that characterizes modern literature both in its theory and its practice Blanchot's essays study the forms and the paths of this research its solutions and its impasses and increasingly they sketch out the philosophical and historical horizon within which its significance appears The effect is to revise the terms in which we see the genesis of the modern literary concept not least of the manifestations of which is literary criticism itself

Thinking in Time Suzanne Guerlac, 2017-03-15 Under the aegis of time Suzanne Guerlac displaces matter intuition memory and vitalism of the early twentieth century into the wake of poststructuralism and the dilemmas of nature and culture here and now This book is a landmark for anyone working in the currents of philosophy science and literature The force and vision of the work will enthuse and inspire every one of its readers Tom Conley Harvard University In recent years we have grown accustomed to philosophical language that is intensely self-conscious and rhetorically thick often tragic in tone It is enlivening to read Bergson who exerts so little rhetorical pressure while exacting such a substantial effort of thought Bergson's texts teach the reader to let go of entrenched intellectual habits and to begin to think differently to think in time Too much and too little have been said about Bergson Too much because of the various appropriations of his thought Too little because the work itself has not been carefully studied in recent decades from *Thinking in Time* Henri Bergson 1859-1941 whose philosophical works emphasized motion time and change won the Nobel Prize for Literature in 1927 His work remains influential particularly in the realms of philosophy cultural studies and new media studies In *Thinking in Time* Suzanne Guerlac provides readers with the conceptual and contextual tools necessary for informed appreciation of Bergson's work Guerlac's straightforward philosophical expositions of two Bergson texts *Time and Free Will* 1888 and *Matter and Memory* 1896 focus on the notions of duration and memory concepts that are central to the philosopher's work *Thinking in Time* makes plain that it is well worth learning how to read Bergson effectively his era and our own share important concerns Bergson's insistence on the opposition between the automatic and the voluntary and his engagement with the notions of the living affect and embodiment are especially germane to discussions of electronic culture

The Art of Hunger Alys Moody, 2018-10-17 Hunger is one of the governing metaphors for literature in the late nineteenth and twentieth centuries Beginning in the mid nineteenth century writers and critics repeatedly describe writing as a process of starvation as in the familiar type of the starving artist and high art as the rejection of culinary pleasures The Art of Hunger Aesthetic Autonomy and the Afterlives of Modernism argues that this metaphor offers a way of describing the contradictions of aesthetic autonomy in modernist literature and its late twentieth century heirs This book traces the emergence of a tradition of writing it calls the art of hunger from the origins of modernism to the end of the twentieth century It focuses particularly on three authors who redeploy the modernist art of hunger as a response to key moments in the history of modernist aesthetic autonomy s delegitimization Samuel Beckett in post Vichy France Paul Auster in post 1968 Paris and New York and J M Coetzee in late apartheid South Africa Combining historical analysis of these literary fields with close readings of individual texts and drawing extensively on new archival research this book offers a counter history of modernism s post World War II reception and a new theory of aesthetic autonomy as a practice of unfreedom

Understanding Bergson, Understanding Modernism S. E. Gontarski, Paul Ardoyn, Laci Mattison, 2013-01-17 Henri Bergson is frequently cited amongst the holy trinity of major influences on Modernism literary and otherwise alongside Sigmund Freud and William James Gilles Deleuze s Bergsonism has re popularized Bergson for the 21st century so much so that perhaps our Bergson is Deleuze s Bergson Despite renewed interest in Bergson his influence remains understudied and consequently undervalued While books examining the impact of Freud and James on Modernism abound Bergson s impact though widely acknowledged has been closely examined much more rarely Understanding Bergson Understanding Modernism remedies this deficiency in three ways First it offers close readings and critiques of six pivotal texts Second it reassesses Bergson s impact on Modernism while also tracing his continuing importance to literature media and philosophy throughout the twentieth and into the 21st century In its final section it provides an extended glossary of Bergsonian terms complete with extensive examples and citations of their use across his texts The glossary also maps the influence of Bergson s work by including entries on related writers all of whom Bergson either corresponded with or critiqued **Feminist**

Interpretations of Jean-Paul Sartre Julien S. Murphy, 2010-11-01 While Sartre was committed to liberation struggles around the globe his writing never directly addressed the oppression of women Yet there is compatibility between his central ideas feminist beliefs In this first feminist collection on Sartre philosophers reassess the merits of Sartre s radical philosophy of freedom for feminist theory Contributors are Hazel E Barnes Linda A Bell Stuart Z Charme Peter Diers Kate Edward Fullbrook Karen Green Sarah Lucia Hoagland Sonia Kruks Guillermine de Lacoste Thomas Martin Phyllis Sutton Morris Constance Mui Iris Marion Young **J.G. Ballard's Surrealist Imagination** Jeannette Baxter, 2016-12-05 Making the case that J G Ballard s fictional and non fictional writings must be read within the framework of Surrealism Jeannette Baxter argues for a radical revisioning of Ballard that takes account of the political and ethical dimensions of his work Ballard s

appropriation of diverse Surrealist aesthetic forms and political writings Baxter suggests are mobilised to contest official narratives of postwar history and culture and offer a series of counter historical and counter cultural critiques Thus Ballard s work must be understood as an exercise in Surrealist historiography that is politically and ethically engaged Placing Ballard s illustrated texts within this critical framework permits Baxter to explore the effects of photographs drawings and other visual symbols on the reading experience and the production of meaning Ballard s textual spectacles raise a variety of questions about the shifting role of the reader and the function of the written text within a predominantly visual culture while acknowledging the visual contexts of Ballard s Surrealist writings allows a very different historical picture of the author and his work to emerge

Fragment, Image, and Absence in 1960s Japan Ignacio A. Adriasola Muñoz,2022-11-28 This groundbreaking book examines how the notion of the object was transformed in Japanese experimental art during a time of rapid social economic and environmental change Reviving the legacies of the historical avant garde Japanese artists and intellectuals of the 1960s formulated an aesthetics of disaffection through which they sought to address the stalemate of political and aesthetic representation Ignacio A Adriasola Mu oz draws from psychoanalytic theories of melancholia to examine the implications of such an approach tracing a genealogy of disaffection within modernist discourse By examining the discursive practices of artists working across a wide range of media and through a close analysis of artwork philosophical debates artist theories and critical accounts Adriasola Mu oz shows how negativity became an efficacious means of addressing politics as a source for the creative act of undoing In examining ideas of the object advanced by artists and intellectuals both in writing and as part of their artwork this book brings discussions in critical art history to bear on the study of art in Japan It will be of interest to art historians specializing in modernism the international avant garde Japanese art and the history of photography

Flaubert's *Madame Bovary* Rather than building on conventional theoretical approaches to literary studies Stefano Rossoni develops a fresh and engaging approach by looking at these two works not only as narrative texts but most importantly as theories of literature In dialogue with critical contributions that examined men's emotional illiteracy and struggle to develop a language for self reflection the book argues that the narratives of Coetzee Kundera Roth and Vargas Llosa engage with the tradition of the self reflexive novel and its ramifications to reflect on masculinity as a socio cultural construction Ultimately their writing reveals men's novelistic self reflexivity as a site of unintelligibility
