Literature Mapping And The Politics Of Space In Early Modern Britain:

Literature, Mapping, and the Politics of Space in Early Modern Britain Andrew Gordon, Bernhard Klein, 2001-08-16 In this timely collection an international team of Renaissance scholars analyzes the material practice behind the concept of mapping a particular cognitive mode of gaining control over the world Ranging widely across visual and textual artifacts implicated in the culture of mapping from the literature of Shakespeare Spenser Marlowe and Jonson to representations of body city nation and empire Literature Mapping and the Politics of Space in Early Modern Britain argues for a thorough reevaluation of the impact of cartography on the shaping of social and political identities in early modern Britain

Maps and the Writing of Space in Early Modern England and Ireland B. Klein, 2001-01-11 Maps make the world visible but they also obscure distort idealize This wide ranging study traces the impact of cartography on the changing cultural meanings of space offering a fresh analysis of the mental and material mapping of early modern England and Ireland Combining cartographic history with critical cultural studies and literary analysis it examines the construction of social and political space in maps in cosmography and geography in historical and political writing and in the literary works of Marlowe Shakespeare Spenser and Drayton

The Cartographic Imagination in Early Modern England D.K. Smith, 2016-04-01 Working from a cultural studies perspective author D K Smith here examines a broad range of medieval and Renaissance maps and literary texts to explore the effects of geography on Tudor Stuart cultural perceptions He argues that the literary representation of cartographically related material from the late fifteenth to the early seventeenth century demonstrates a new strain not just of geographical understanding but of cartographic manipulation which he terms the cartographic imagination Rather than considering the effects of maps themselves on early modern epistemologies Smith considers the effects of the activity of mapping the new techniques the new expectations of accuracy and precision which developed in the sixteenth century on the ways people thought and wrote Looking at works by Spenser Marlowe Raleigh and Marvell among other authors he analyzes how the growing ability to represent physical space accurately brought with it not just a wealth of new maps but a new array of rhetorical techniques metaphors and associations which allowed the manipulation of texts and ideas in ways never before possible

Early Modern English Literature and the Poetics of Cartographic Anxiety Chris Barrett, 2018-03-23 The Cartographic Revolution in the Renaissance made maps newly precise newly affordable and newly ubiquitous In sixteenth century Britain cartographic materials went from rarity to household d cor within a single lifetime and they delighted inspired and fascinated people across the socioeconomic spectrum At the same time they also unsettled upset disturbed and sometimes angered their early modern readers Early Modern English Literature and the Poetics of Cartographic Anxiety is the first monograph dedicated to recovering the shadow history of the many anxieties provoked by early modern maps and mapping in the sixteenth and seventeenth centuries A product of a military arms race often deployed for security and surveillance purposes and fundamentally distortive of their subjects maps provoked suspicion unease and even hostility in

early modern Britain in ways not dissimilar from the anxieties provoked by global positioning enabled digital mapping in the twenty first century At the same time writers saw in the resistance to cartographic logics and strategies the opportunity to rethink the way literature represents space and everything else This volume explores three major poems of the period Edmund Spenser s *The Faerie Queene* 1590 1596 Michael Drayton s *Poly Olbion* 1612 1622 and John Milton s *Paradise Lost* 1667 1674 in terms of their vexed and vexing relationships with cartographic materials and shows how the productive protest staged by these texts redefined concepts of allegory description personification bibliographic materiality narrative temporality analogy and other elemental components of literary representations **A Handbook of English Renaissance**

approach the letter from a variety of disciplinary perspectives to uncover the habits forms and secrets of letter writing Where material features of the letter have often been ignored by past generations fixated on the text alone contributors to this volume examine how such elements as handwriting seals ink and the arrangement of words on the manuscript page were significant carriers of meaning alongside epistolary rhetorics The chapters here also explore the travels of the letter uncovering the many means through which correspondence reached a reader and the ways in which the delivery of letters preoccupied contemporaries At the same time they reveal how other practices such as the use of cipher and the designs of forgery threatened to subvert the surveillance and reading of letters The anxiety of early modern letter writers over the vulnerability of correspondence is testament to the deep dependence of the culture on the letter Beyond the letter as a material object Cultures of Correspondence sheds light on textual habits Individual chapters study the language of letter writers to reveal that what appears to be a personal and unvarnished expression of the writer s thought is in fact a deliberate skillful exercise in managing the conventions and expectations of the form If letters were a prominent and ingrained part of the cultural life of the early modern period they also enjoyed textual and archival afterlives whose stories are rarely told Too often studied only in the case of figures already celebrated for their historical or literary significance the letter in Cultures of Correspondence emerges as the most vital and wide ranging material textual form of the early modern period Contributors Nadine Akkerman Mark Brayshay Christopher Burlinson James Daybell Jonathan Gibson Andrew Gordon Arnold Hunt Lynne Magnusson Michelle O Callaghan Alan Stewart Andrew Zurcher **England's Insular Imagining** Lorna

Cultural Representations of Piracy in England, Spain, and the Caribbean

Mariana-Cecilia Velázquez, 2023-03-07 This book examines the concept of piracy as an instrument for the advancement of legal economic and political agendas associated with early modern imperial conflicts in the Caribbean Drawing on historical accounts literary texts legal treatises and maps the book traces the visual and narrative representations of Sir Francis Drake who serves as a case study to understand the various usages of the terms pirate and corsair Through a comparative analysis the book considers the connotations of the categories related to maritime predation pirate corsair buccaneer and filibuster and nationalistic and religious denominations Lutheran Catholic heretic Spaniard English and Creole to argue that the flexible usage of these terms corresponds to unequal colonial and imperial relations and ideological struggles The book chronologically records the process by which piracy changed from an unregulated phenomenon to becoming legally defined after the Treaty of London 1604 and the Treaty of Westphalia 1648 The research demonstrates that as piracy grew less ambiguous through legal and linguistic standardization the concept of piracy lost its polemical utility This interdisciplinary volume is ideal for researchers working in piracy studies early modern history and imperial history Shakespeare and the Classics

Bodies and Their Spaces

Russell West-Pavlov, 2006 Bodies and their Spaces System Crisis and Transformation in Early Modern Theatre explores the emergence of the distinctively modern gender system at the close of the early modern period The book investigates shifts in the gendered spaces assigned to men and women in the public and private domains and their changing modes of interconnection in concert with these social spaces it examines the emergence of biologically based notions of sex and a novel sense of individual subjectivity These parallel and linked transformations converged in the development of a new gender system which more efficiently enforced the requirements of patriarchy under the evolving economic conditions of merchant capitalism These changes can be seen to be rehearsed contested and debated in literary artefacts of the early modern period in particular the drama This book suggests that until the closure of the English theatres in 1642 the drama not only reflected but also exacerbated the turbulence surrounding gender configurations in transition in early modern society The book reads a wide range of dramatic and non dramatic texts

and interprets them with the aid of the systems theory developed by the German sociologist Niklas Luhmann Essex Annaliese Connolly, Lisa Hopkins, 2016-05-16 This collection of new essays about the earl of Essex one of the most important figures of the Elizabethan court resituates his life and career within the richly diverse contours of his cultural and political milieu It identifies the ways in which his biography has been variously interpreted both during his own lifetime and since his death in 1601 Collectively the essays examine a wealth of diverse visual and textual manifestations of Essex poems portraits films texts produced by Essex himself including private letters prose tracts poems and entertainments and the transmission and circulation of these as a means of disseminating his political views As well as prising open long held assumptions about the earl's life the authors provide a diachronic approach to the earl's career identifying crucial events such as the Irish campaign and the uprising and re-evaluating their significance and critical reception Collectively the essays illuminate the reach and significance of the many roles played by the earl and the impact of his brief dazzling life on his contemporaries and on those who came after making this the first volume to offer a comprehensive critical overview of the Earl's life and influence Writing Early Modern London A. Gordon, 2013-05-07 Writing Early Modern London explores how urban community in London was experienced imagined and translated into textual form Ranging from previously unstudied manuscripts to major works by Middleton Stow and Whitney it examines how memory became a key cultural battleground as rites of community were appropriated in creative ways *Cartographies of Culture* Damian Walford Davies, 2012-06-15 This pioneering study offers dynamic new answers to Christian Jacob's question What are the links that bind the map to writing
