**Little Me Can Live a Big Life** Peter Allman, 2009-04-30 One of the authors favorite New Yorker cartoons depicts Charles Dickens discussing his manuscript with an editor The editor is saying I wish you would make up your mind Mr Dickens Was it the best of times or the worst of times It could scarcely have been both This humorous message captures the concrete either or thinking that can cause a person to get stuck while on his or her journey towards living a bigger life Peter Allman has written a unique compelling yet simple collection of paradoxes that invite the reader to unlock the mystery of living a bigger life that includes the both and thinking of paradoxes This book helps the reader to integrate paradoxical truths Each chapter is drawn from the authors personal experiences as a psychotherapist adjunct professor of undergraduate and graduate psychology classes sought after public speaker co founder and president of a non profit after school center for disadvantaged adolescents husband and father The Western mind and the left brain have ignored much of the depth of true spirituality by ignoring its invariably paradoxical character Peter Allman does an immense service by holding and yet revealing great paradoxes in a very creative tension This book could change the way you hear spiritual texts and teachers and the way you will grow from now on Richard Rohr O F M author of Everything Belongs The Gift of Contemplative Prayer

**Drawing Life** Thomas J. Cottle, 2013-11-21 In *Drawing Life* Thomas J. Cottle examines the ways people interpret their life experiences and construct meanings for the events they have encountered. In this manner they discover their various identities and the essence of what we call the self. In reading the sixteen life studies contained in this volume we encounter both inner reflections as well as the power of culture to shape the meanings people give to their circumstances and the events that befall them. The stories also reflect the role of human relationships and social institutions in defining our personal identities and sense of justice. What makes us unique therefore is the personal story we tell as it reveals our constructions of the world and of ourselves. The stories recounted in *Drawing Life* illuminate not only our past but also our perceptions of the present and our imaginings of the future. In this way they become anthologies of our life experiences. *LIFE*, 1971-09-03

**The Cultural Life of Images** Brian Leigh Molyneux, 2013-10-18 Pictures are often admired for their aesthetic merits but they are rarely treated as if they had as much to offer as the written word. They are often overlooked as objects of analysis themselves and tend to be seen simply as adjuncts to the text. Images, however, are not passive and have a direct impact that engages attention in ways independent of any specific text. Advertising, entertainment, and propaganda have realised the extent of this power to shape ideas, but the scientific community has hitherto neglected the ways in which visual material conditions the ways in which we think. With subjects including prehistoric artworks, excavation illustrations, artists' impressions of ancient sites and peoples, and contemporary landscapes, photographs and drawings, this study explores how pictures shape our perceptions and our expectations of the past. This volume is not concerned with the accuracy of pictures from the past or directly about the past itself, but is interested instead in why certain subjects are selected, why they are depicted the way they are, and what effects such images have on our idea of the past. This collection constitutes a ground-breaking study in historiography which radically reassesses the ways that history can be written.

**Daily Life in the American West** Jason E. Pierce, 2022-07-08 *Daily Life in the American West* details the lives of American Indians, miners, cowboys, immigrants, and settlers who together populated the unique region that is the American West. *Daily Life in the American West* combines the credibility and coverage of a history textbook with a close and nuanced view of the amazing peoples who struggled to make a home for themselves in a beautiful and evocative but harsh and unforgiving region. Included here are close descriptions of how a variety of peoples lived their daily lives, from nomadic Indian tribes to Chinese immigrants and from cowboys to city dwellers. It also conveys how those individual lives are reflected in the sweeping changes that occurred in a century that saw the West become the most modern and diverse of all the nation's regions. Readers will also find the expected cast of characters: gunfighters, American Indian leaders, cowboys, and so on, that have long captured the imagination of people around the world, covered with

an academic focus that tries to tell an accurate story of the West and its role in the United States The book provides the scale of a textbook but in a more engaging format that should appeal to students and the general public **The Biography Book**
