Little Green Men Christopher Buckley, 2011-07-20 In 1994 Christopher Buckley published one of the most acclaimed and successful comic novels of the decade *Thank You for Smoking*. Now Buckley returns to the strange land of Washington D C in *Little Green Men* a millennial comedy of manners about aliens and pundits and how much they have in common. The reluctant hero of this hilarious novel is John Oliver Banion a stuffy Washington talk show host whose privileged life is thrown into upheaval when aliens abduct him from his exclusive country club golf course. But were his gray skinned captors aliens or something far more sinister? After Banion is abducted again this time in Palm Springs he believes he has been chosen by the extraterrestrials to champion the most important cause of the millennium and he embarks on a crusade appearing before a convention of UFO believers and demanding that Congress and the White House seriously investigate UFOs. His friends and family suspect that Banion is having some kind of manic depressive midlife crisis and urge him to seek therapy before his credibility as a pillar of the punditocracy is ruined. So John Oliver Banion must choose keep his establishment status or become the leader of millions of impassioned and somewhat scruffy new friends who want to expose the government's secret alien agenda. *Little Green Men* proves once and for all that the truth is out there. Way out there. And it reaffirms Christopher Buckley's status as the funniest humanoid writer in the universe. Coming soon from Christopher Buckley *One of Our Whales Is Missing*

Aliens Joalda Morancy, Neon Squid, 2022-10-18 Do aliens exist? Are UFOs real? The race is on to discover alien life in this perfect gift for kids who love space. This book will sort myth from fact to bring you the real science behind the search for alien lifeforms. Space expert Joalda Morancy will take readers on a tour of the solar system and beyond on board new NASA missions searching for the most likely alien hiding places from icy moons of Jupiter to the clouds of Venus. Along the way kids will find out about the robots sent to Mars to look for Martians. What really goes on at Area 51? Ways to spot an advanced alien civilization? Hint: look for dim stars. In this book beautifully illustrated by Amy Grimes readers will explore a comet race futuristic spaceships and discuss what we would say to aliens when we finally meet them after hello. They may seem as fanciful as wizards and monsters but this book will show that scientists not only believe that aliens exist but that it's only a matter of time before we find them.

Toktok Talkie Henschel, Joh R., 2015-12-01 With his penchant for nature science writing and photography the desert ecologist Dr Joh R Henschel could not help but document the conversations about the natural world with his friend Zophosis Moralesi a Toktokkie as beetly as can be. The *Toktok Talkie* articles were first published as weekly newspaper columns between 2011 and 2013 and these are now collated in this book. In it Joh reveals some of his musings about nature and his observations of people's relationships to it. He deftly interweaves the human defiance of nature symbolised by the Ancient

Mariner with nature's many values and ultimate power of having the last word presented by a humble messenger the Toktokkie beetle *Zophosis moralesi* His first experience of the Namib in 1977 became love at first sight Since then he has been conducting research in the Namib and several deserts world wide reported in numerous scientific papers and technical documents After spending over three decades in Namibia Joh and his wife Theresa moved to Kimberley in South Africa in 2013 where he joined the National Research Foundation to continue arid land research through the South African Environmental Observation Network SAEON

Rutkowski, 2008-09-29 UFOs are a truly global phenomenon Although many of the best known cases have taken place in North America amazing stories of witnesses encounters with strange disc shaped objects and their occupants have come from every corner of the globe From a floating platform watched by dozens in Indonesia to a Saturn shaped object that flew over a ship off the coast of Brazil to a landing Down Under UFOs have been baffling witnesses and making headlines around the world What are some of the most interesting cases Which ones seem most mysterious And what can one of the world's most active UFO researchers and investigators tell us about UFOs from A to Z Join Chris Rutkowski as he takes us on a tour of *A World of UFOs*

Imperial Matter Lori Khatchadourian, 2016-03-18 A free ebook version of this title is available through Luminos University of California Press's new open access publishing program Visit www.luminosoa.org to learn more What is the role of the material world in shaping the tensions and paradoxes of imperial sovereignty Scholars have long shed light on the complex processes of conquest extraction and colonialism under imperial rule But imperialism has usually been cast as an exclusively human drama one in which the world of matter does not play an active role Lori Khatchadourian argues instead that things from everyday objects

to monumental buildings profoundly shape social and political life under empire Out of the archaeology of ancient Persia and the South Caucasus Imperial Matter advances powerful new analytical approaches to the study of imperialism writ large and should be read by scholars working on empire across the humanities and social sciences *Alien Legacy* Geraldine Sutton Stith,2007-05-31 August 21 1955 Just another hot summer night like so many others in the small community of Kelly Kentucky Lucky Sutton along with his family and friends were enjoying a quiet peaceful evening The family not knowing that all around them strange things were happening Things that no one would come forward and talk about too afraid to bring up what they had witnessed But Lucky and his family were about to find out what could lurk in the darkness The visitors were not from this earth Were they possibly from the depths of hell The gunshots and the screams could be heard by neighbors but nobody came to help Lucky and his family could only live as they could after the events of that night fearing the unknown and wondering for the rest of their lives Would they come back *Border Politics* Cengiz Günay,Nina Witjes,2016-12-09 In the light of mass migration the rise of nationalism and the resurgence of global terrorism this timely volume brings the debate on border protection security and control to the centre stage of international relations research Rather than analysing borders as mere lines of territorial demarcation in a geopolitical sense it sheds new light on their changing role in defining and negotiating identity authority security and social and economic differences Bringing together innovative and interdisciplinary perspectives the book examines the nexus of authority society technology and culture while also providing in depth analyses of current international conflicts Regional case studies comprise the Ukraine crisis Nagorno Karabakh the emergence of new territorial entities such as ISIS and maritime disputes in the South China Sea as well as the contestation and re construction of borders in the context of transnational movements Bringing together theoretical empirical and conceptual contributions by international scholars this Yearbook of the Austrian Institute for International Affairs offers novel perspectives on hotly debated issues in contemporary politics and will be of interest to researchers graduate students and political decision makers alike [Catalog of Copyright Entries](#) Library of Congress.
