journey through the jungle without ever leaving your bed With Your Bedroom is a Rainforest kids can transform an ordinary room into a habitat for some of Earth s most amazing creatures with reusable wall safe and BPA free glow in the dark

stickers everything from blue morpho butterflies to Bengal tigers to poison dart frogs What s your favorite animal The answer to this question much like one s favorite color can say a lot about a kid Maybe they re into gorillas because they

admire their nobility maybe the colors of a toucan capture their imagination maybe they like crocodiles because they take to water While there are countless possible answers to this question one thing is almost certain they probably aren t going to

say squirrel No the favorite animal of a child tends to be exotic dangerous fast and maybe even endangered In the past a long and expensive trip to the zoo was required for kids to pay a visit to their beast of choice Well not anymore Your Bedroom is a

Rainforest brings the incredible ecosystems of Central America northern South America western Africa Southeast Asia and beyond right to the walls of your child s bedroom Within this keepsake worthy hardcover book you will find more than 60

reusable stickers of jaguars capybara scarlet macaws monkeys forest elephants anacondas and many more adorable and sometimes ferocious animals glow in the dark and bring your environment to life Along with the stickers kids can look

forward to pages packed with illustrations of their favorite animals accompanied by fascinating and often hard to believe facts such as Most pandas spend half the day eating Toxic poison dart frogs have neon colors to warn predators Tiger urine smells like buttered popcorn Without sloths there would be no avocados Lions may be called the kings of the jungle but they don't live anywhere near them Much of the life in the rainforest is found in the trees Unlike many other cats jaguars do not avoid water in fact they are excellent swimmers The high quality glow in the dark stickers might be what gets kids interested but the amazing facts are sure to be what keeps them around And the best part You're never too old to appreciate amazing jungle animals About the Author Hannah Sheldon Dean is a writer editor and educator specializing in publications for children and young adults She has written several licensed activity books and gift books with Penguin Young Readers and she writes and edits fiction nonfiction and educational materials for a variety of outlets She is currently a writing consultant at the Columbia University School of Social Work and a volunteer mentor with Girls Write Now Hannah received a Master's of Social Work from New York University and a BA in Literary Arts and Education Policy from Brown University and she loves to work on projects that fall at the intersection of those fields She lives in Brooklyn but grew up in Vermont so you might see her wandering the city in search of pine trees mourning doves caterpillars or whatever other bits of nature she can find She also loves singing with Khorikos choir baking bread and dreaming about the animal sanctuary she'll open someday

Yujin Robert M. Adams, 2022-02-13 Yujin is a young woman in a fantasy world with real life issues She knows she is different from other students and has difficulty making friends Her older overprotective sister is the rock of her life Difficult trials help her gain self confidence and set her on a collision course with

evil Yujin is a powerful fighter but her main weapons are love hope and joy She befriends giants orcs and trolls in her transformation into a young adult The dark powers of her world are threatened by her unique gift of bringing beings together and try to do away with her Yujin meets someone that brings joy to her life in away she didn t think possible and vows to protect her Together they must save themselves and possibly all the lands **The Pygmy Hippo Story** Phillip T. Robinson,Gabriella L. Flacke,Knut M. Hentschel,2017-03-01

Though the pygmy hippopotamus has been designated as a flagship species of West African forests meaning that by raising conservation efforts for a single species an entire ecological region could benefit very little research has been published on the animal They are solitary nocturnal and highly evasive and until recent developments in camera trap technology they were considered the least photographed large mammal species in the world The information currently available on this endangered species is scattered limited redundant and often inaccurate and no major volume exists as a resource for those interested in the conservation effort for the species until now Phillip Robinson and his coauthors provide a treatment of the natural history biology and ecology of the pygmy hippo along with a discussion of the rare animal s taxonomic niche and a summary of the research initiatives involving it up to this point The authors show the ways in which the pygmy hippo has come into contact with people in West African countries both in terms of ecological and cultural impact This creature has been the subject of local folktales and is treated as almost mythic in some regions Information on issues related to captivity breeding and zoos is provided The book is heavily illustrated with original photographs and anatomic drawings The project should be of use to conservation biologists zoologists and natural history readers and will be the definitive single volume account of an animal that the scientific community has designated to be ecologically significant to West Africa Snakes Harry W. Greene,1997 In clear engaging prose Snakes provides an up to date summary of every facet of the natural history of snakes their diversity evolution and conservation and at the same time makes a personal statement about why these animals are so compelling 215 color photos 3 tables
