Gerald J. Bender, 1980-01-01 The book is the first comprehensive study of race relations in Angola It covers the entire five
century long relationship between the peoples of Angola and Portugal Portuguese imperial thinkers asserted that they were
unique among European colonizers in their ability to establish and maintain egalitarian and non discriminatory relationships
with tropical peoples This concept was elevated to a philosophical plateau and given the name Lusotropicalism Propagated
with fervor by Portuguese colonial thinkers Lusotropical doctrines were widely accepted as being valid by twentieth century
diplomats and political thinkers in both Europe and the United States many of whom believed that Portuguese colonialism in
Africa would continue indefinitely The evidence presented in this work indicates that Portuguese rule in Angola was deeply
racist This conclusion is based on a considerable body of data gleaned from archival sources personal collections and
systematic interviewing of racially diverse Angolans and Portuguese functionaries in the colonial administration and the
private sector Special emphasis is placed on devices that the Portuguese used to delude themselves and others about the
realities of their attitudes and behavior as ruling elites The study concludes with an assessment of the impact of Lusotropical
myths on independent Angola *U.S. Relations With South Africa* Y. G-m. Lulat, 2019-05-30 Relations between the United
