**The Oxford Handbook of Latin American Christianity** David Thomas Orique, Susan Fitzpatrick-Behrens, Virginia Garrard, 2020-01-10 By 2025 Latin America's population of observant Christians will be the largest in the world Nonetheless studies examining the exponential growth of global Christianity tend to overlook this region focusing instead on Africa and Asia Research on Christianity in Latin America provides a core point of departure for understanding the growth and development of Christianity in the Global South In The Oxford Handbook of Latin American Christianity an interdisciplinary contingent of scholars examines Latin American Christianity in all of its manifestations from the colonial to the contemporary period The essays here provide an accessible background to understanding Christianity in Latin America Spanning the era from indigenous and African descendant people's conversion to and transformation of Catholicism during the colonial period through the advent of Liberation Theology in the 1960s and conversion to Pentecostalism and Charismatic Catholicism The Oxford Handbook of Latin American Christianity is the most complete introduction to the history and trajectory of this important area of modern Christianity

**Interconnectivity, Subversion, and Healing in World Christianity** Afe Adogame, Aminta Arrington, 2023-07-13 The rise of Christianity around the world has been the impetus for much religious and social change The interconnectivity of religious centers has resulted in theological dialogue and innovation The subversion of long held categories of culture gender race spirituality theology and politics has naturally occurred along with the transgressing of borders and boundaries Yet at the same time there has been occasion for healing through intercultural experiences of forgiveness peacemaking and reconciliation Stimulated by the work and mentorship of Joel Carpenter who has done much to expand the study of world Christianity less through focusing on his own research and writing and more through amplifying the voices of others the international contributors to this volume from all six continents promote a deeper understanding of World Christianity through the exploration of such related themes Whether discussing primal spirituality in northeast India white supremacy in South Africa evangelical women and civic engagement in Kenya or Calvinism in Mexico the contributors draw upon ethnographic case studies to more deeply understand interconnectivity subversion and healing in World Christianity Their essays provoke a reorientation of Christian thought within the study of World Christianity enriching the current discourse and promoting vistas for further interdisciplinary studies

**The Histories of the Latin American Church** Joel Morales Cruz, 2014 Part one provides an overview of Christianity the Bible and theology in Latin America Part two provides information for each country including demographics timeline church and state autonomous churches major religious festivals popular devotions saints and blessed

and biographies      World Christianity Lalsangkima Pachuau, 2018-07-17 Christianity is vibrant and growing in the non western majority world and Christianity is changing as a result Pachuau surveys the current trending approaches to recognizing and investigating world Christianity and explores the salient features of the demographic changes that mark a measurable shift in the center of gravity from the northwest part of the globe to the southern continents This shift is not just geographical World Christianity is ultimately about the changing and diversifying character of Christianity and a renewed recognition of the dynamic universality of Christian faith itself Christianity is a shared religion in that people of different cultures and societies make it their own while being transformed by it Christianity is translatable and adaptable to all cultures while challenging each with its transformative power Pachuau also charts the theological reestablishment of the missionary enterprise founded on understandings of God's mission in the world mission Dei a mission of cross cultural gospel diffusion for missionary advocates in the majority world but one of near neighbor missional engagement for the contagious Charismatic Christianity of the majority world This book is both a descriptive study and a thoughtful analysis of world Christianity's demographics life representation and thought The book also gives an account of the historical emergence of World Christianity and its theological characteristics using a methodology that stresses the productive tension between the universal and particular in understanding a fundamentally adaptable Christian faith      **Los Protestantes** Juan Francisco Martínez Jr., 2011-10-20 Contradicting the widely held but false belief that all Latinos are Catholic this book offers a concise one volume introduction to America's Latino Protestants the fastest growing segment of U S Protestantism today Los Protestantes An Introduction to Latino Protestantism in the United States the first to provide a broad introduction to this rapidly growing population At its core is an exploration of the group's demographics denominational tendencies and potential for continued growth Current information is supported by a survey of the history of Latino Protestants in the United States which dates back to the efforts of missionaries in the mid 19th century Los Protestantes brings together data from formerly disparate studies of various aspects of the community to create an insightful overview The work presents brief descriptions of principal denominations and organizations among Latino Protestants It notes marked differences that separate Latino Protestants from other U S Protestants and it examines an evolving Protestant Latino ethno religious identity Readers will come away from this study more clearly understanding the current state of Latino Protestantism in the United States as well as where Latino Protestants fit in the overall picture of U S religion      **Latin American Evangelical Theology in the 1970's** Daniel Salinas, 2009 The story of Latin American evangelicals doing theology is mostly unknown In the 1970s there was an important development with the formation of the Latin American Theological Fraternity FTL This group spearheaded the theological production in Latin America marking the beginning of a critical stage in the history of evangelicals in the region This book deals with the reception history in North America of the FTL and its program Interamerican theological dialogue is documented and analysed      Brazilian Evangelical Missions in the Arab World Edward L. Smither, 2012-07-20

From a mission field to a missions sender These words capture the story of the Brazilian evangelical church which has gone from receiving missionaries in the nineteenth and twentieth centuries to becoming a movement that presently sends out more global laborers than the churches of England or Canada do After narrating Brazil's missional shift in this volume Smither addresses one fascinating element of the story Brazilian evangelical efforts in the Arab world How have Brazilians adapted culturally among Arabs how have they approached ministry and how have they cultivated a theology of mission in the process Brazilian Evangelical Missions in the Arab World gives the reader insights from one emerging missions movement with an eye toward a more comprehensive view of the global church

*Mission Partnership in Creative Tension* Samuel Cueva, 2015-04-14 Samuel Cueva has refined his concept of partnership in mission by advocating the use of reciprocal contextual collaboration in this important contribution to scholarly reflection on contemporary missiology Referencing historical theological and functional aspects of how mission has been carried out as well as analyzing its impact on the evangelical movement the author identifies that mission always develops with positive and negative tensions Emphasizing an understanding of current missions which include traditional networking and emergent models and how they can be combined interconnected and interchanged the author proposes a fresh model that ensures the suitability for every mission context

*The Embattled but Empowered Community* Wilma Wells Davies, 2010-04-27 The global phenomenon of Pentecostal growth continues to interest scholars particularly its local manifestations Although previous explanations may have noted the connections between the cultural substrata and local Pentecostal practices this book concentrates on seeking out the connections Using both extensive field research and reflection on Latin American scholarship the author proposes that a major link exists at the level of worldview assumptions particularly in understandings of spiritual power The book concludes with a reflection on the implications a conversion based on the search for spiritual power has for the future of the evangelical church in Latin America

**Emerging Theologies from the Global South** Mitri Raheb, Mark A. Lamport, 2023-03-29 In recent decades there has been a seismic shift in world Christianity Whereas formerly Christianity existed as a Caucasian Euro American phenomenon the majority of Christians today reside in the Southern Hemisphere or the Global South And what is true for the demographics of Christianity has followed lockstep for its theological developments The era of German theologians setting the tone for global church are gone Today some of the loudest and most creative voices in theology speak from the emerging contingencies of the Global South for example promoting Latinx Black Caribbean and Asian theologies and their influence often influences the conversation in the United States and Europe In addition just as the center of Christianity has moved geographically from north to south so with theological seminaries in the west which have declined as training centers for clergy These events coincide with new theological centers are opening in Asia Africa Oceania and Latin America The bottom line is contemporary Christianity today looks significantly different than it did a century ago and publications have been slow to acknowledge let alone describe and elaborate upon this major shift to the

largest religion in the world These shifts guide our intentions in this book Such a reference book which could also be used as a textbook therefore is very much needed In fact there is nothing like the contents of this single volume book in the publishing market which allows for high quality interdisciplinary and international dialogue

**Scripting Pentecost** Mark J. Cartledge, A.J. Swoboda, 2016-07-07 Scripting Pentecost explores and develops an analysis of worship and liturgy in Pentecostal and Charismatic traditions Organized into three main sections history theology and contemporary practice the first section quarries the historical trajectories of classic Pentecostalism the Charismatic movement Third Wave and Oneness Pentecostalism Particular attention is given to the liturgical approaches of some of the earliest leaders including William J Seymour Alexander Boddy and Aimee Semple McPherson The second section constructive theology offers theological approaches to liturgical studies from Pentecostal and Charismatic perspectives In this section the Pentecostal and Charismatic tradition is advanced and extended by an interaction with ecumenical sources The third section case studies in contemporary worship theology and practice examines the actual performance of liturgy through selected global case studies chosen to reflect a diversity of ecclesial practice in Africa Asia Europe North America Latin America and Oceania

Considers the interaction of Protestantism with different areas of modern life including the arts politics the law and science Debates the future of Protestantism in both Western and non Western settings Streams of Latin American Protestant Theology Ryan R. Gladwin,2020-01-13 Although church historians often call the 19th century the Great Century of Protestant mission for Latin America it was the 20th century that was the great century of Protestant growth and expansion The 20th century witnessed vast societal changes and the realization of systemic poverty and injustice as well as the exponential growth pentecostalization and diversification of Latin American Protestantism Latin American Protestant Theology emerged during this century of change This text provides an introduction to Latin American Protestant Theology by engaging its dominant theological streams Liberal Evangelical and Pentecostal and how they understand themselves through the lens of mission The text offers both a critique of the Christendom cartography that is dominant in Latin American Protestant Theology as well as suggestions for how to move towards a transformative theology of mission The primary intention of this text is to offer an informed outline and analysis of the theological landscape of Latin American Protestantism The secondary intention of this book is to note the contributions as well as deficiencies of the streams of LAPT in the hope to signal a possible path towards the development of an integral transformative contextual and decolonial theological voice Atando Cabos Elizabeth Conde-Frazier,2021-08-31 Decolonizing theological education and restoring agency to the people Latinx Protestantism is a rapidly growing element of American Christianity How should institutions of theological education in the United States welcome and incorporate the gifts of these populations into their work This is an especially difficult question considering the painful history of colonization in Latin America and the Caribbean an agenda in which theological education was long complicit In this book Elizabeth Conde Frazier takes stock of the cabos sueltos loose ends left over from the history of Latinx Christianity including the ways the rise of Pentecostalism disrupted existing power structures and opened up new ways for Latinx people to assert agency Then atando cabos tying these loose ends together she reflects on how a new paradigm centered on the work of the Holy Spirit can serve to decolonize theological education going forward bringing about an in breaking of the kingdom of God Conde Frazier illustrates how this in breaking would bring changes in epistemology curriculum pedagogy and models for financial sustainability Atando Cabos explores each of these topics and proposes a collaborative ecology that stresses the connections between theological education and wider communities of faith and practice Far from taking a position of insularity Atando Cabos works from the particularities of the Latinx Protestant context outward to other communities that are wrestling with similar issues so that by the end it is a call for transformation a new reformation for the entire Christian church **The Cambridge Companion to Evangelical Theology** Timothy Larsen,Daniel J. Treier,2007-04-12 Evangelicalism a vibrant and growing expression of historic Christian orthodoxy is already one of the largest and most geographically diverse global religious movements This Companion first published in 2007 offers an articulation of evangelical theology that is both faithful to historic evangelical convictions and in dialogue with

contemporary intellectual contexts and concerns In addition to original and creative essays on central Christian doctrines such as Christ the Trinity and Justification it breaks new ground by offering evangelical reflections on issues such as gender race culture and world religions This volume also moves beyond the confines of Anglo American perspectives to offer separate essays exploring evangelical theology in African Asian and Latin American contexts The contributors to this volume form an unrivalled list of many of today s most eminent evangelical theologians and important emerging voices
