**The Faces of the Goddess** Lotte Motz, 1997-08-21 The belief that the earliest humans worshipped a sovereign nurturing maternal earth goddess is a popular one It has been taken up as fact by the media who routinely depict modern goddess worshippers as reviving the ancient religions of our ancestors Feminist scholars contend that in the primordial religions the Great Mother was honored as the primary creative force giving birth to the world granting fertility to both crops and humans and ruling supreme over her family pantheon The peaceful

matriarchal farming societies that worshipped her were eventually wiped out or subjugated by nomadic patriarchal warrior tribes such as the early Hebrews who brought their male God to overthrow the Great Mother the first step in the creation and perpetuation of a brutal male dominated society and its attendant oppression and degradation of women In *The Faces of the Goddess* Lotte Motz sets out to test this hypothesis by examining the real female deities of early human cultures She finds no trace of the Great Mother in their myths or in their worship From the Eskimos of the arctic wasteland whose harsh life even today most closely mirrors the earliest hunter gatherers to the rich cultures of the sunny Fertile Crescent and the islands of Japan Motz looks at a wide range of goddesses who are called Mother or who give birth in their myths She finds that these goddesses have varying origins as ancestor deities animal protectors and other divinities rather than stemming from a common Mother Goddess archetype For instance Sedna the powerful goddess whose chopped off fingers became the seals and fish that were the Eskimos chief source of food had nothing to do with human fertility Indeed human motherhood was held in such low esteem that Eskimo women were forced to give birth completely alone with no human companionship and no helpful deities of childbirth Likewise while various Mexican goddesses ruled over healing women s crafts motherhood and childbirth and functioned as tribal protectors or divine ancestors none of them either embodied the earth itself or granted fertility to the crops for that the Mexicans looked to the male gods of maize and of rain Nor were the rituals of these goddesses nurturing or peaceful The goddess Cihuacoatl who nurtured the creator god Quetzalcoatl and helped him create humanity was worshipped with human sacrifices who were pushed into a fire removed while still alive and their hearts were cut out And Motz closely examines the Anatolian goddess Cybele the Magna Mater most often cited as an example of a powerful mother goddess Hers were the last of the great pagan mysteries of the Mediterranean civilizations to fall before Christianity But Cybele herself never gives birth nor does she concern herself with aiding women in childbirth or childrearing She is not herself a mother and the male character figuring most prominently in her myths is Attis her chaste companion Tellingly Cybele s priests dedicate themselves to her by castrating themselves thus mimicking Attis s death a very odd way to venerate a goddess of fertility To depict these earlier goddesses as peaceful and nurturing mothers as is often done is to deny them their own complex and sophisticated nature as beings who were often violent and vengeful delighting in sacrifice or who reveled in their eroticism and were worshipped as harlots The idea of a nurturing Mother Goddess is very powerful In this challenging book however Motz shows that She is a product of our own age not of earlier ones By discarding this simplistic and worn out paradigm we can open the door to a new way of thinking about feminine spirituality and religious experience

**The Many Faces of the Goddess** Izak Cornelius,2004 There are a multitude of female figures represented in the art of the ancient Near East and it has often been proved difficult to differentiate them This study presents a collection of visual source material on goddesses from Egypt Ugarit Syria and Palestine from c 1500 to 1000 BC *Faces of Deception* Troy Denning,2012-01-10 Guided by the goddess of beauty an ugly nobleman ventures to the Utter East in search of a cure

for his facial deformities Atreus of Erlikazar has always been hidden from his powerful family's enemies concealed behind the hideous mask of his own face The result of a wayward spell that distorted his features Atreus' ugliness is a curse he has borne since he was just a child and one he has spent his entire life trying to break He is driven to find a way past his own flesh into a soul torn between destiny and love In an ironic twist of fate he becomes an acolyte of Sune the goddess of beauty Under her command he embarks on an impossible mission to the mysterious country of Langdarma where the magical waters of the Fountain of Infinite Grace await him Deep in these ancient valleys of the enigmatic Utter East Atreus will finally look into the faces of deception

Shimkhada, 2009-03-26 The Constant and Changing Faces of the Goddess Goddess Traditions of Asia contains essays written by established scholars in the field that trace the multiplicity of Asian goddesses their continuities discontinuities and importance as symbols of wisdom power transformation compassion destruction and creation The essays demonstrate that while treatments of the goddess may vary regionally culturally and historically it is possible to note some consistencies in the overall picture of the goddess in Asia The book provides a comprehensive treatment of the goddess culminating in the selections that draw from research on Indian Nepali Chinese Japanese and Vietnamese traditions seldom found in other works of similar subject The volume will be useful for students in religious studies gender studies Asian studies and women's studies With the intent of making the volume truly broad in scope an effort has been made to include works written by art historians sociologists anthropologists and religious studies scholars Culture cannot be separated from religion they are intertwined as an organic whole and variations manifest themselves in the rituals and daily lives of the people In this sense all the essays are interconnected the goddess manifests in many forms and appeals to differing aspects of a particular culture as a paradigm of the divine feminine
