Facing the Death Penalty Michael Radelet, 1989 These essays show us the human and inhuman realities of capital punishment through the eyes of the condemned and those who work with them By focusing on those awaiting death they present the awful truth behind the statistics in concrete personal terms William J Bowers author of Legal Homicide Between 1930 and 1967 there were 3 859 executions carried out under state and civil authority in the United States Since the ten year moratorium on capital punishment ended in 1977 more than one hundred prisoners have been executed There are more than two thousand men and women now living on death row awaiting their executions Facing the Death Penalty offers an in depth examination of what life under a sentence of death is like for condemned inmates and their families how and why various professionals assist them in their struggle for life and what these personal experiences with capital punishment tell us about the wisdom of this penal policy The contributors include historians attorneys sociologists anthropologists criminologists a minister a philosopher and three prisoners One of the prisoner contributors is Willie Jasper Darden Jr whose case and recent execution after fourteen years on death row drew international attention The interdisciplinary perspectives offered in this book will not solve the death penalty debate but they offer important and unique insights on the full effects of American capital punishment provisions While the book does not set out to generate sympathy for those convicted of horrible crimes taken together the essays build a case for abolition of the death penalty This work stands with the best of what s been written It represents the best of those who have seen the worst Colman McCarthy The Washington Post Book World

encompassing activities of the United Nations and its enduring efforts to deal with the world's pressing concerns particularly matters of international peace and security disarmament human rights the settlement of regional conflicts economic and social development the preservation of the environment control of drugs and narcotic substance abuse crime prevention adequate shelter youth and the ageing and humanitarian assistance for refugees as well as disaster relief Prisoner Voices from Death Row Reena Mary George, 2016-03-03 Death penalty has produced endless discourses not only in the context of prisons prisoners and punishment but also in various legal aspects concerning the validity of death penalty the right to life and torture Death penalty is embedded in Indian law however very little is known about the people who are on death row barring a few media reports on them The main objective of this book is to enquire whether the dignity of prisoners is upheld while they confront the criminal justice system and whilst surviving on death row Additionally it explores the lived experiences and perceptions of prisoners on death row as they create meaning out of their world With this rationale 111 prisoners on death row in India and some of their family members were interviewed The theoretical underpinnings of phenomenology and symbolic interactionism coupled with data analysis lead to an understanding of the prisoners on death row with special reference to their demographic profile and the impact of death sentence on their families George's research highlights three salient features namely poverty social exclusion and marginalisation are antecedent to death penalty death penalty is a constructed account by the state machinery and prisoners on death row situate dignity higher in the juxtaposition of death and dignity Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes *The Death Penalty* Roger Hood, Carolyn Hoyle, 2015-01-08 The fifth edition of this highly praised study charts and explains the progress that continues to be made towards the goal of worldwide

abolition of the death penalty The majority of nations have now abolished the death penalty and the number of executions has dropped in almost all countries where abolition has not yet taken place Emphasising the impact of international human rights principles and evidence of abuse the authors examine how this has fuelled challenges to the death penalty and they analyse and appraise the likely obstacles political and cultural to further abolition They discuss the cruel realities of the death penalty and the failure of international standards always to ensure fair trials and to avoid arbitrariness discrimination and conviction of the innocent all violations of the right to life They provide further evidence of the lack of a general deterrent effect shed new light on the influence and limits of public opinion and argue that substituting for the death penalty life imprisonment without parole raises many similar human rights concerns This edition provides a strong intellectual and evidential basis for regarding capital punishment as undeniably cruel inhuman and degrading Widely relied upon and fully updated to reflect the current state of affairs worldwide this is an invaluable resource for all those who study the death penalty and work towards its removal as an international goal

Sharp, 2005 Annotation In the US murderers particularly those sentenced to death are usually considered as entirely different from the rest of us Sociologist Susan F Sharp challenges perspective by reminding us that those facing a death sentence in addition to being murderers are brothers or sisters mothers or fathers daughters or sons

The Death Penalty Roger Hood CBE QC (Hon) DCL FBA, Carolyn Hoyle, 2008-03-27 The 4th edition of this authoritative study of the death penalty now written jointly with Carolyn Hoyle brings up to date developments in the movement to abolish the death penalty worldwide It draws on Roger Hood's experience as consultant to the United Nations for the UN Secretary General's five yearly surveys of capital punishment and on the latest information from non governmental organizations and the academic literature Not only have many more countries abolished capital punishment but even amongst those that retain it the majority have been carrying out fewer executions Legal challenges to the mandatory capital punishment have been successful as has the pressure to abolish the death penalty for those who commit a capital crime when under the age of 18 This edition has more to say about the prospects that China will restrict and control the number of executions on the road to abolition Yet despite such advances this book reveals many human rights abuses where the death penalty still exists In some countries a wide range of crimes are still subject to capital punishment and the authorities too often fail to meet the safeguards embodied in international human rights treaties to safeguard those facing the death penalty There is evidence of police abuse unfair trials lack of access to competent defence counsel excessive periods of time spent on in horrible conditions on death row and public painful forms of execution The authors engage with the latest debates on the realities of capital punishment especially its justification as a uniquely effective deterrent whether it can ever be administered equitably without discrimination or error and what influence relatives of victims should have in sentencing and on the public debate For the first time it also discusses the problem of devising an alternative to capital punishment especially life imprisonment without the possibility of parole

Representing Individuals Facing the Death Penalty Death Penalty Worldwide, Northwestern University (Evanston, Ill.). School of Law, Fredrikson & Byron, 2013 *State of Illinois V. Kaczmarek*, 2001 *The Elgar Companion to Capital Punishment and Society* Benjamin Fleury-Steiner, Austin D. Sarat, 2024-09-06 The Elgar Companion to Capital Punishment and Society presents a multidisciplinary overview of capital punishment's influences, processes and outcomes across society. A global range of philosophers, social scientists, legal experts, political theorists and historians critically analyse the trajectory of the death penalty in both retentionist and abolitionist countries, underscoring how state killing remains a crucial issue worldwide. *People of the State of Illinois V. Swift*, 2001 **Slavery and the Death Penalty** Bharat Malkani, 2018-05-16 It has long been acknowledged that the death penalty in the United States of America has been shaped by the country's history of slavery and racial violence, but this book considers the lesser explored relationship between the two practices' respective abolitionist movements. The book explains how the historical and conceptual links between slavery and capital punishment have both helped and hindered efforts to end capital punishment. The comparative study also sheds light on the nature of such efforts and offers lessons for how death penalty abolitionism should proceed in future. Using the history of slavery and abolition, it is argued that anti-death penalty efforts should be premised on the ideologies of the radical slavery abolitionists. Encyclopedia of Capital Punishment in the United States, 2d ed. Louis J. Palmer, Jr., 2008-07-23 This updated encyclopedia provides ready information on all aspects of capital punishment in America. It details virtually every capital punishment decision rendered by the United States Supreme Court through 2006, including more than 40 cases decided since publication of the first edition. Entries are also provided for each Supreme Court Justice who has ever rendered a capital punishment opinion. Entries on jurisdictions cite present-day death penalty laws and judicial structure, state by state, with synopses of common and unique features. Also included are entries on significant U.S. capital prosecutions, legal principles and procedures in capital cases, organizations that support and oppose capital punishment, capital punishment's impact on persons of African, Asian, Hispanic and Native American descent, on women and on foreign nationals, and the methods of execution. Essential facts are also provided on capital punishment in more than 200 other nations. A wealth of statistical data is found throughout. The Death Penalty's Denial of Fundamental Human Rights John Bessler, 2022-12-15 The Death Penalty's Denial of Fundamental Human Rights details how capital punishment violates universal human rights: to life, to be free from torture and other forms of cruelty, to be treated in a non-arbitrary, non-discriminatory manner, and to dignity. In tracing the evolution of the world's understanding of torture, which now absolutely prohibits physical and psychological torture, the book argues that an immutable characteristic of capital punishment, already outlawed in many countries and American states, is that it makes use of death threats. Mock executions and other credible death threats, in fact, have long been treated as torturous acts. When crime victims are threatened with death and are helpless to prevent their deaths, for example, courts routinely find such threats inflict psychological torture. With simulated executions and non-lethal corporal punishments,

already prohibited as torturous acts death sentences and real executions the book contends must be classified as torturous acts too
