This book confronts a significant paradox in the development of literary realism the very novels that present themselves as purveyors and celebrants of direct ordinary human experience also manifest an obsession with art that threatens to sabotage their Realist claims Unlike previous studies of the role of visual art or music or theatre in Victorian literature Realism Representation and the Arts in Nineteenth Century Literature examines the juxtaposition of all of these arts in the works of Charlotte Bront William Thackeray George Eliot Thomas Hardy and others Alison Byerly combines close textual analysis with discussion of relevant ancillary topics to illuminate the place of different arts within nineteenth century British culture Her book which also contains sixteen illustrations represents an effort to bridge the growing gap between aesthetics and cultural studies
