Manufacturing Tales Gary Alan Fine, 1992 The mouse in the Coke bottle the promiscuous cheerleader the exploding Pop Rocks candy the Kentucky Fried Rat If the ballad and the fairy tale were the archetypal folklore forms of an earlier age such contemporary legends constitute the preferred narrative genre of the late twentieth century In *Manufacturing Tales* award winning folklorist Gary Alan Fine presents a major new theory of the creation and diffusion of contemporary legends in modern society While ballad and fairy tale arose in folk communities and spread through trade and migration contemporary legends thrive in societies crosscut by varied communication channels and relatively open networks By looking at the social structural background the performance context the personality of the teller and the content of the text we gain insight into the formation dissemination and disappearance of these modern legends Fine identifies sex and money as key themes in contemporary legends reflecting the public's disguised attempts to deal with major contemporary preoccupations From the AIDS crisis to fears of food contamination in restaurants popular anxieties are reflected in folklore As dramatic moving comic and involving texts contemporary legends build relationships among acquaintances and strangers as depictions of the world that we face every day they provide perspective on potential challenges and as shared information they elaborate a consensual understanding of reality

Manufacturing Excellence Kenneth N. McKay, Vincent C.S. Wiers, 2015-09-14 Hello I'm Jake a retired production planner I've been talking to my coffee mate Ben about the factory where I have spent the better part of my life Believe me I have seen things go well and even more go very wrong I'm outside the gate now but the grapevine is keeping me up to date Which is why I know that the factory is heading into oblivion as management does not seem to understand commonsense principles and they are testing the patience of their main customer But wait things look like they might change when new management is brought in This new plant manager might change things around and thanks to my old friends we can keep on top of things Do you want to hear my story The concepts imbedded in the factory's journey capture the leading practices in progressive and proactive management The commonsense concepts embody the philosophy of collaboration shared fate mutual respect and leveraging the intellectual capital that exists in each and every factory This book is for you if you want your factory to survive and thrive

Punching Out Jim Daniels, 1990 Jim Daniels takes readers inside an auto factory to experience the frustrations the dehumanization and the small victories found there Daniels second book of poetry takes

readers inside an auto factory with Digger a young man whose initial reaction of shock and dismay at the difficult working conditions prompts him to find ways to cope with the dehumanization he experiences there The book is a series of tightly woven poems that play off one another so that the book accumulates tension and energy as it progresses Daniels treats his characters and their work with respect giving them a dignity that factory condition deny them Opting for blunt straightforward language Daniels does not try to poeticize the factory but rather injects the factory into his poetry
