Bryson,2022-02-07 The religious belief in personal immortality depends on the evidence for the existence of God an immaterial soul or mind and human nature We also need to support the view that God will always want to maintain relationships with us in the afterlife So immortality is a hard sell The suffering of innocent victims suggests that the existence of a loving God is not self evident Furthermore the soul s separation from the body at death raises the troublesome problem of personal identity How can that be me in the afterlife without my body The tradition from Plato to Descartes plants the seed of personal immortality in our rational nature But the deconstruction of human nature suggests that our species is not special Yet the belief in immortality lingers The first step in the reconstruction of personal immortality is found in systems theory or belief that the whole individuates the part This view suggests that we are the outcome of relationships rather than eternal natures entering into relationships We are the product of relationships taking place at three basic levels 1 In psyche where being human is the result of a tendency toward good and evil 2 As social entities where the existence of other human beings individuates us 3 In being s unconcealment where the intelligibility of things provides a foundation for epistemic life Heidegger s view of the nothing or horizon surrounding being allows us to identify God as creator entering into personal relationships with us a view supported by contemporary science That will be me in the afterlife if the relationships that individuate me in my pre mortem state continue into my post mortem existence The reversal in being s unconcealment suggests that human death continues the cycle of personal existence *The Metaphysics of Cooperation* Steven Schroeder,1999 This book takes up the philosophical task described by Samuel Taylor Coleridge and F D Maurice as digging toward the common humanity that is the ground of value The book is an essay in philosophy defined by time its focal point is the nineteenth century space its focal point is Britain and persons it is concerned especially with Maurice s contribution to social theory The first chapter explores the Victorian Age as historical context and

background for Maurice's work The second explores Coleridge's thought as philosophical context and background The third explores a range of Maurice's theological works that spans his entire career The fourth turns finally as Maurice did to the practice of adult education as the place of social transformation and more particularly the contested terrain where human nature and human souls are turned to work in the world as persons not hands *Spiritual and Political Dimensions of Nonviolence and Peace*, 2006-01-01 This book is a collection of philosophical papers that explores theoretical and practical aspects and implications of nonviolence as a means of establishing peace The papers range from spiritual and political dimensions of nonviolence to issues of justice and values and proposals for action and change **Africa's Quest for a Philosophy of Decolonization** Messay Kebede, 2004 Preliminary Material Western Discourses on Africa Between Evolutionism and Pluralism Tempels's Path to Human Sameness The Holy Grail of Otherness Sameness Versus Otherness Particularism Versus Otherness The Future as Forward Movement into the Past The Constructedness of Identity Colonization Without Colonizers The Phenomenon of African Elitism Ethnicity and State Formation The Mystical Root of Nationhood Harnessing Myth to Rationality Notes Bibliography About the Author Index Value Inquiry Book Series **Problems for Democracy**, 2022-03-28 This book based on the premise that democracy promotes peace and justice explores theoretical and practical problems that can arise or that have arisen in democratic polities Contributors address with clarifying analyses such theoretical issues as the relationship between recursivist metaphysics and democracy the relationship between the economic and political orders and the nature of justice Contributors offer as well enlightening resolutions of practical problems resulting from a history of social political or economic injustice Richard Rorty Richard Rumana, 2021-12-13 Demonstrating Richard Rorty's breadth of scholarship and his influence on diverse issues across the social sciences and humanities this comprehensive bibliography contains 1 165 citations A unique reference work on neo pragmatism this bibliography is essential for anyone researching Rorty's work and its impact on philosophy literature the arts religion the social sciences politics and education **Masquerade of the Dream Walkers** Peter A. Redpath, 2021-11-01 Through extensive textual analysis this book concludes that the prevailing opinion about the nature of modern and contemporary philosophy is wrong It maintains that almost all modern and contemporary philosophy is deconstructed secularized Augustinian theology not philosophy The work is divided into eight chapters a guest Foreword by Herbert I London President of the Hudson Institute and Olin Professor of Humanities at New York University notes bibliography and an index Chapter 1 Protagoras Sees the Ghost of Hippo considers Cartesian thought Hobbes and Newton Chapter 2 I Feel the Spirit Move Me examines Locke Berkeley and Hume Chapter 3 The Urge to Emerge investigates Lessing and Rousseau Chapters 4 To Dream the Impossible Dream and 5 Wake Up Wake Up You Sleepyhead treat Kant Chapters 6 I Am Music and 7 Looking for God in All The Wrong Places deal with Hegel Chapter 8 Dirty Dancing Higher Education as Enlightened Swindling concludes that a lack of philosophical and historical experience coupled with a widespread inability to read philosophical texts according to
