Women Physicians and Professional Ethos in Nineteenth-Century America Carolyn Skinner,2014-01-27 Women physicians in nineteenth century America faced a unique challenge in gaining acceptance to the medical field as it began its transformation into a professional institution The profession had begun to increasingly insist on masculine traits as signs of competency Not only were these traits inaccessible to women according to nineteenth century gender ideology but showing competence as a medical professional was not enough Whether women could or should be physicians hinged mostly on maintaining their femininity while displaying the newly established standard traits of successful practitioners of medicine Women Physicians and Professional Ethos provides a unique example of how women influenced both popular and medical discourse This volume is especially notable because it considers the work of African American and American Indian women professionals Drawing on a range of books articles and speeches Carolyn Skinner analyzes the rhetorical practices of nineteenth century American women physicians She redefines ethos in a way that reflects the persuasive efforts of women who claimed the authority and expertise of the physician with great difficulty Descriptions of ethos have traditionally been based on masculine communication and behavior leaving women s rhetorical situations largely unaccounted for Skinner s feminist model considers the constraints imposed by material resources and social position the reciprocity between speaker and audience the effect of one rhetor s choices on the options available to others the connections between ethos and genre the potential for ethos to be developed and used collectively by similarly situated people and the role ethos plays in promoting social change Extending recent theorizations of ethos as a spatial ecological and potentially communal concept Skinner identifies nineteenth century women physicians rhetorical strategies and outlines a feminist model of ethos that gives readers a more nuanced understanding of how this mode of persuasion operates for all speakers and writers *The*

Research Process Myrtle S. Bolner, Gayle A. Poirier, 2004 **A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition** Kate L. Turabian, 2009-08-14 Dewey Bellow Strauss Friedman The University of Chicago has been the home of some of the most important thinkers of the modern age But perhaps no name has been spoken with more respect than Turabian The dissertation secretary at Chicago for decades Kate Turabian literally wrote the book on the successful completion and submission of the student paper Her Manual for Writers of Research Papers Theses and Dissertations created from her years of experience with research projects across all fields has sold more than seven million copies since it was first published in 1937 Now with this seventh edition Turabian's Manual has undergone its most extensive revision ensuring that it will remain the most valuable handbook for writers at every level from first year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles Gregory G Colomb Joseph M Williams and the late Wayne C Booth the gifted team behind *The Craft of Research* and the University of Chicago Press Editorial Staff combined their wide ranging expertise to remake this classic resource They preserve Turabian's clear and practical advice while fully embracing the new modes of research writing and source citation brought about by the age of the Internet Booth Colomb and Williams significantly expand the scope of previous editions by creating a guide generous in length and tone to the art of research and writing Growing out of the authors best selling *Craft of Research* this new section provides students with an overview of every step of the research and writing process from formulating the right questions to reading critically to building arguments and revising drafts This leads naturally to the second part of the Manual for Writers which offers an authoritative overview of citation practices in scholarly writing as well as detailed information on the two main citation styles notes bibliography and author date This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples including guidance on citing electronic sources The final section of the book treats issues of style the details that go into making a strong paper Here writers will find advice on a wide range of topics including punctuation table formatting and use of quotations The appendix draws together everything writers need to know about formatting research papers theses and dissertations and preparing them for submission This material has been thoroughly vetted by dissertation officials at colleges and universities across the country This seventh edition of Turabian's Manual for Writers of Research Papers Theses and Dissertations is a classic reference revised for a new age It is tailored to a new generation of writers using tools its original author could not have imagined while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian **A Manual for Writers of Research Papers, Theses, and Dissertations, Ninth Edition** Kate L. Turabian, 2018-04-27 When Kate L Turabian first put her famous guidelines to paper she could hardly have imagined the world in which today's students would be conducting research Yet while the ways in which we research and compose papers

may have changed the fundamentals remain the same writers need to have a strong research question construct an evidence based argument cite their sources and structure their work in a logical way A Manual for Writers of Research Papers Theses and Dissertations also known as Turabian remains one of the most popular books for writers because of its timeless focus on achieving these goals This new edition filters decades of expertise into modern standards While previous editions incorporated digital forms of research and writing this edition goes even further to build information literacy recognizing that most students will be doing their work largely or entirely online and on screens Chapters include updated advice on finding evaluating and citing a wide range of digital sources and also recognize the evolving use of software for citation management graphics and paper format and submission The ninth edition is fully aligned with the recently released Chicago Manual of Style 17th edition as well as with the latest edition of The Craft of Research Teachers and users of the previous editions will recognize the familiar three part structure Part 1 covers every step of the research and writing process including drafting and revising Part 2 offers a comprehensive guide to Chicago's two methods of source citation notes bibliography and author date Part 3 gets into matters of editorial style and the correct way to present quotations and visual material A Manual for Writers also covers an issue familiar to writers of all levels how to conquer the fear of tackling a major writing project Through eight decades and millions of copies A Manual for Writers has helped generations shape their ideas into compelling research papers This new edition will continue to be the gold standard for college and graduate students in virtually all academic disciplines Bestselling trusted and time tested advice for writing research papers The best interpretation of Chicago style for higher education students and researchers Definitive clear and easy to read with plenty of examples Shows how to compose a strong research question construct an evidence based argument cite sources and structure work in a logical way Essential for anyone interested in learning about research Everything any student or teacher needs to know concerning paper writing
