About two years ago, a letter arrived from a solemn young Vassar lady telling me how much she enjoyed reading my experiment in space mythology, *The Martian Chronicles*.

But, she added, wouldn't it be a good idea, this late in time, to rewrite the book inserting more women's characters and roles?

A few years before that I got a certain amount of mail concerning the same Martian book complaining that the blacks in the book were Uncle Toms and why didn't I "do them over"?

Along about then came a note from a Southern white suggesting that I was prejudiced in favor of the blacks and the entire story should be dropped.

Two weeks ago my mountain of mail delivered forth a pipsqueak mouse of a letter from a well-known publishing house that wanted to reprint my story "The Fog Horn" in a high school reader.

In my story, I had described a lighthouse as having, late at night, an illumination coming from it that was a "God-Light." Looking up at it from the viewpoint of any sea-creature one would have felt that one was in "the Presence."

The editors had deleted "God-Light" and "in the Presence."

Some five years back, the editors of yet another anthology for school readers put together a volume with some 400 (count 'em) short stories in it. How do you cram 400 short stories by Twain, Irving, Poe, Maupassant and Bierce into one book?

Simplicity itself. Skin, debone, demarrow, scarify, melt, render down and destroy. Every adjective that counted, every verb that moved, every metaphor that weighed more than a mosquito—out! Every simile that would

Fahrenheit 451 - Ray Bradbury, New Edition Ray Bradbury, 2008 Presents a collection of critical essays about Fahrenheit 451 by Ray Bradbury A Novel Marketplace Evan Brier, 2012-02-25 As television transformed American culture in the 1950s critics feared the influence of this newly pervasive mass medium on the nation's literature While many studies have addressed the rhetorical response of artists and intellectuals to mid twentieth century mass culture the relationship between the emergence of this culture and the production of novels has gone largely unexamined In A Novel Marketplace Evan Brier illuminates the complex ties between postwar mass culture and the making marketing and reception of American fiction Between 1948 when television began its ascendancy and 1959 when Random House became a publicly owned corporation the way American novels were produced and distributed changed considerably Analyzing a range of mid century novels including Paul Bowles's The Sheltering Sky Ray Bradbury's Fahrenheit 451 Sloan Wilson's The Man in the Gray Flannel Suit and Grace Metalious's Peyton Place Brier reveals the specific strategies used to carve out cultural and economic space for the American novel just as it seemed most under threat During this anxious historical moment the book business underwent an improbable expansion by capitalizing on an economic boom and a rising population of educated consumers and by forming institutional alliances with educators and cold warriors to promote reading as both a cultural and political good A Novel Marketplace tells how the book trade and the novelists themselves successfully positioned their works as embattled holdouts against an oppressive mass culture even as publishers formed partnerships with mass culture institutions that foreshadowed the multimedia mergers to come in the 1960s As a foil for and a partner to literary institutions mass media corporations assisted in fostering the novel's development as both culture and commodity **Censorship** Derek Jones, 2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression **Ray Bradbury** Jonathan R. authors David Seed follows Bradbury's long career from the early short story masterpieces through his work in a wide variety of broadcast and film genres to the influential cultural commentary he spread via essays speeches and interviews Mining Bradbury's classics and hard to find archival literary and cultural materials Seed analyzes how the author's views on technology authoritarianism and censorship affected his art how his Midwest of dream and dread brought his work to life and the ways film and television influenced his creative process and visually oriented prose style The result is a passionate statement on Bradbury's status as an essential literary writer deserving of a place in the cultural history of his time
