# Failing Our Kids

**Kathy Swope, Barbara Miner**

## **Failing Our Kids:**

*Failing Our Kids* Charles S. Ungerleider, 2007      *Failing Our Kids* Charles Ungerleider, 2004-03-16 Our public schools are in danger of collapse and if they do we will all pay the price Healthy public schools are essential for a healthy economy and creating informed citizens But we are neglecting our schools in a perversely malicious way making impossible demands on them strangling them financially creating trivial changes for the sake of ideology avoiding necessary changes and just plain ignoring them In this forcefully argued and convincing book education expert Charles Ungerleider makes our situation plain Canadians have never placed a higher value on education but if we do not do something about public schools now we may lose the benefits that they provide and miss the opportunity to fix them Drawing on the latest research and using examples from across the country Ungerleider describes what's right and what's wrong about our public schools system and provides solutions for making them a lot better He looks at the conflict between traditional and progressive approaches to education He argues that the public school curriculum has become bloated fragmented and mired in trivia He examines the effects of the changing family and the influence on children of television the Internet video games and their peers He discusses the work of teachers and teachers unions the changes in public school finance and governance and the issue of accountability And he takes on the issue of school choice and competition where more than anywhere else rhetoric prevails over reason      **Failing Our Kids** Kathy Swope, Barbara Miner, 2000 Contains over fifty articles in which parents community activists teachers students and researchers discuss the use and misuse of standardized testing in schools providing an overview of the testing craze views from the classroom a look at testing and race and suggested alternatives      **Childhood Lost** Sharna Olfman, 2005-03-30 Experts from across disciplines join forces here to focus attention on current American culture and the devastating effects it is having on its children From children developing surprising physical maturity and sexual awareness at younger and younger ages to those estranged when television and computer screens replace family time and those warped by national junk food fast food habits bringing an explosion of obesity and diabetes among boys and girls this book takes a harsh look at the results of American social norms The damage being done by governmental policies is examined including inadequate parental leave a minimum wage that is not a living wage unregulated day care and a public education system that delivers inferior education to poor children A call to action this is a work from some of the best known child experts nationwide Every person who has or cares about a child will find this of interest Experts from across disciplines join forces here to focus attention on current American culture and the devastating effects it is having on its children From children developing surprising physical maturity and sexual awareness at younger and younger ages to those estranged when television and computer screens replace family time and those warped by national junk food fast food habits bringing an explosion of obesity and diabetes among boys and girls this book takes a harsh look at the results of American social norms It highlights the damage being done by governmental policies including inadequate parental leave a minimum wage

that is not a living wage unregulated day care and a public education system that delivers inferior education to poor children

A call to action this is a work from some of the best known child experts nationwide Every person who has or cares about a child or the future of U S society will find this of interest Most experts writing about childhood address issues from their own particular perspective This work draws together a team of top scholars from across fields They connect the dots in engaging and clear essays Altogether they demonstrate that the problems facing children today come from an underlying crisis of adult values and they suggest that individuals must join forces to turn back this crisis

**Failing Our Future** Joshua R. Eyler, 2024-08-27 This book demonstrates both the harmful effects of our grade obsessed culture and shows how we could do things differently

Dropout Leslie Gavel, 2017-08 One family s story of coping after their teenage daughter drops out of school and an examination of the public school system itself In the fall of 2000 while in Grade 7 Leslie Gavel s daughter Avery began what would be a four year disengagement from school Avery didn t fit the stereotype of the dropout Why would a privileged middle class adolescent choose this path when dropping out was a social stigma and would complicate her personal life and career choices Leslie began to analyze the school system itself but all of her research led not to answers but to further questions Did school its history structure practice play any role in underachievement Was the problem of marginal or failing grades chronic student dissatisfaction and disruptive classroom behaviour always the fault of the student and by extension her parents or could it be the fault of the school system itself And did dropping out an ultimate taboo for teenagers along with pregnancy and drug abuse really have to mean the end of the world for child and parent Told from the deeply personal perspective of a concerned parent Dropout is a memoir about one family s experience in the public school system It also considers the latest research in alternative approaches to school and offers suggestions for students who may not fit the educational mould or society s definition of success Leslie Gavel a former social worker is a Calgary freelance writer Her work has appeared in Reader s Digest Canadian Living More Today s Parent Avenue and several Canadian and American newspapers and has been produced for CBC national radio Born and raised in Regina she has lived in Calgary for decades Advance praise for Dropout In a courageous act of often painful self disclosure Leslie Gavel exposes the secret massive and most crippling bullying that haunts Western educational systems our abandonment and degradation of students who do not fit our perception of school success Like callous physicians who coldly dismiss patients who have illnesses they don t understand our schools treat non achievers as pariahs as lepers confronting us with things we d rather not see This bullying is even more damaging than peer abuse for struggling kids like Gavel s daughter since the devastating rejection comes not from teenaged jerks but from admired and respected adult authorities This brave book should be required reading for anyone who claims the title of educator and will help parents to bind the wounds of these suffering children and nurture them back to life success and happiness Dr Michael J Bradley author of Yes Your Teen Is Crazy Loving Your Kid Without Losing Your Mind Dropout is not only a ruthlessly honest saga of one family s conflict over school it is also a polemic that rails against a

system that cries out for fundamental reform Through research and storytelling Leslie Gavel shows the reader what s wrong with school as it s conducted today which is not unlike how it was conducted one hundred years ago when the goal was to produce workers for factories who d do as they were told Gavel warns something must change or our children will continue to be victims of an oppressive authoritarian institution I wish I d read Dropout before my own kids faced off against our one size fits all educational system Robert W Fuller Ph D former president of Oberlin College     **Dumbing Down Our Kids**

Charles J. Sykes,1995 Sykes concludes with a checklist for parents students and teachers who want to evaluate their schools and a series of recommendations to restore quality learning to America     **Inadequate: The system failing our teachers and your children**

Priya Lakhani,Robert Halfon,2020-11-02 The world of education is in a state of failure Our teachers are quitting in droves their natural passion for education stifled Your children are being let down by a system unfit for our rapidly changing world leaving them wholly unprepared to survive the age of AI and automation Pulling no punches education technologist and entrepreneur Priya Lakhani OBE outlines how badly we have failed and who is to blame With a foreword from Robert Halfon MP Chair of the Education Select Committee Priya charts a course for a brighter future From feeble government reforms to growing mental health crises Priya leaves no stone unturned in exposing the Inadequate state of education     **Failing Our Veterans**

Mark Boulton,2014-08 Returning Vietnam veterans had every reason to expect that the government would take care of their readjustment needs in the same way it had done for veterans of both World War II and Korea But the Vietnam generation soon discovered that their G I Bills fell well short of what many of them believed they had earned Mark Boulton s groundbreaking study provides the first analysis of the legislative debates surrounding the education benefits offered under the Vietnam era G I Bills Specifically the book explores why legislators from both ends of the political spectrum failed to provide Vietnam veterans the same generous compensation offered to veterans of previous wars Failing Our Veterans should be essential reading to scholars of the Vietnam War political history or of social policy Contemporary lawmakers should heed its historical lessons on how we ought to treat our returning veterans Indeed veterans wishing to fully understand their own homecoming experience will find great interest in the book s conclusions     *Your Kids Are Your Own Fault* Larry Winget,2009-12-24 Read Larry Winget s posts on the Penguin Blog Straight talking bestselling Pitbull of Parenting Larry Winget says This is not a fix your kid book It s a fix the way you parent book You owe it to your kids to parent with a plan Being a parent is the toughest job in the world especially with the increasing number of negative influences and pitfalls facing our kids today from childhood obesity and out of control celebrity culture to the dangers of the internet and credit card debt Larry Winget has never been one to shy away from tough truths and what he says here may well be difficult for some parents to swallow we are in the midst of a crisis with our kids Kids today are over indulged over entertained under achieving and under disciplined with a sense of entitlement that is crippling society And the real problem is that parents aren t paying attention to what s going on If they were they would realize that most kids today barely read and

write except with their thumbs on their cell phones Well behaved respectful kids are the exception not the rule and for the most part parents are to blame Responsible parenting is about beginning with the end in mind and parenting with a plan But most parents have never stopped to consider what kind of adult they want to raise They have all this fun creating a baby but they don't have a plan for the end product Larry's message to parents Teach your kids to become the best adults they can be But don't expect your kids to improve until you improve Your Kids Are Your Own Fault covers familiar lessons and principles that have led Larry's readers to greater success with money career and goal setting this time at a level where they can be taught to children This book shows parents how to design the adult they want their kid to become and work backwards to make sure it happens Kids don't come with an instruction manual but finally being a parent does Watch a Video

**Cheating Our Kids** Joe Williams, 2014-12-09 Journalist Joe Williams shows how parents can use consumer power to put children first shining light on the special interests controlling our schools where politics and pork infuse everything and our children's education is compromised He argues that increased accountability and choice are necessary and shows how the people can take back the education system enhancing responsibility inherent in democracy The solution is a new brand of hardball politics that demands competence from school leaders and shifts the power away from bureaucrats and union leaders to the people who have the greatest reason to put kids first concerned parents With practical steps and uplifting examples of success Cheating Our Kids How Politics and Greed Ruin Education is a manifesto to action **My Vagina Doesn't Do the Dishes** Suzanne Arden, 2022-01-27 An honest look at the misuse of power in our Patriarchal society and the complete disconnection we have with our feminine essence **Sexualized Media Messages and Our Children** Jennifer W. Shewmaker, 2015-02-24 This provocative book takes a look at children's consumption of sexualized media messages while providing parents teachers and professionals with strategies for abating their influence In this eye opening book experienced child psychologist Jennifer W Shewmaker contends that the manner in which a child is raised influences how they respond to media messages particularly those shaded by sexual overtones This text takes a hard look at the impact of advertisements products and entertainment on a child's psyche and offers strategies for helping kids become critical active media consumers Drawing from research in a wide variety of disciplines this book explores the interpersonal factors within children's lives that impact how they learn to process sexualized media messages The book argues that an increase in marketing to children along with media based fabrications of beauty masculinity and femininity impact the confidence and character of young children who are often greatly affected by what they see and hear The author shares invaluable tips for promoting strengths in children and adolescents of both genders and presents the protective influence of communities to help children dismiss distorted media images **Adult Report Card** Don Dilmore, 2009-06-23 In the next twenty four hours 1 439 teens in the U S will commit suicide and 2 795 teenage girls will get pregnant There will be 4 109 new cases of sexually transmitted diseases and 2 000 teens will drop out of school Who's to blame Is it the schools our churches parents the times we live in In

Adult Report Card author Don Dilmore bluntly tells it like it is and how we can fix it This is a book every parent grandparent educator and church staff member needs to read Don Dilmore addresses wrong role models for kids churches that entertain rather than educate schools teaching political correctness rather than reading and history A discussion of how liberal courts vanishing patriotism a lack of manners the sexualization of our children by the media and parents forgetting they are parents all contribute to alarming trends among our greatest resource our children can all be found in Adult Report Card We Are Failing Our Children

**The Kids are Smart Enough, So What's the Problem?** Richard W. Garrett, 2017-12-06 There is a national crisis in education and it's not the highly debated philosophical discussions or heated political arguments we are used to hearing Survey data establishes the fact that classrooms throughout the nation suffer from the presence of a small percentage of misbehaving students Teachers are ill equipped to deal with these disruptive students resulting in lost classroom time and demoralized educators who are perpetually blamed for the student's bad performance The root cause of these misbehaving children is not a lack of intellectual ability but a lack of character and grit the important noncognitive skills required for success in life The Kids are Smart Enough is a book of hope with surprisingly practical solutions revealed by listening to teachers learning from data and looking for the root cause This book will help you to discover how struggling students can be reached and teachers encouraged

**Oops! The 9 Ways We Screw Up Our Toddlers** Michelle Smith MS SLP, 2015-02-17 Becoming a parent is a scary thing Even more scary when we see how some of the kids around us act We are determined that our babies will not grow up and display those same ugly behaviors But the first time we're fending off a nasty tantrum in the bookstore we begin to doubt our resolve Oops takes you through the top nine reasons that kids act rotten It all begins with the parents From spoiling to hovering not allowing kids to gain independence and learn how to work through problems makes them whiny dependent and disrespectful As young adults this leads to an inability to navigate school build healthy relationships and become responsible wage earners Live at home until you're 35 no big deal Oops teaches you what parental behaviors to avoid and how to raise a happy well adjusted little person

**How to Maximize Your Child's Learning Ability** Lauren Bradway, Barbara Albers Hill, 2012-05-25 Over twenty years ago Dr Lauren Bradway discovered that all children use one of three distinct ways to grasp and remember information Some learn best through sound and language others through visual stimulation and others through touch In this unique book Dr Bradway first shows you how to determine your child's inherent style She then aids you in carefully selecting the toys activities and educational strategies that will help reinforce the talents your child was born with and encourage those skills that come less easily

**How to Make Black America Better**, 2009-04-02 Issuing a powerful call for constructive social action the popular radio and television commentator Tavis Smiley has assembled the voices of leading African American artists intellectuals and politicians from Chuck D to Cornel West to Maxine Waters How to Make Black America Better takes a pragmatic solutions oriented approach that includes Smiley's own ten challenges to the African American community Smiley and his contributors

stress the family tie the power of community networks the promise of education and the leverage of black economic and political strength in shaping a new vision of America Encouraging African Americans to realize the potential of their own leadership and to work collectively from the bottom up the selections offer new ideas for addressing vital issues facing black communities Featuring original essays by some of our most important thinkers How to Make Black America Better is an essential book for anyone concerned with the status of African Americans today Creating Tomorrow's Schools Today Richard Gerver, 2014-10-25 It's time to focus on the needs of our children not the whims of our politicians to provide a way forward for a new landscape in education Is our education system working What future are we preparing our children for What future do we NEED to prepare our children for Are we at risk of failing a generation In this updated edition of renowned education speaker Richard Gerver's book we are faced with these worrying questions and many more regarding the schools our children are attending the curriculum they are following and the testing system used to categorise them In this rousing call for educational revolution Richard argues passionately that we must fight harder for our children's futures and we must do it today Richard describes the strategies he used when he was brought in as head teacher to turn around Grange Primary school It was there that he implemented his vision for a school system that caters for every child a system that helps nurture self confidence self worth creativity innovative thinking team working and communication skills all key employability skills that children will need in the fast moving world of technology and information they are growing up in Richard is now the second most successful education speaker in the world behind Sir Ken Robinson who describes Richard as one of the clearest and most passionate voices for radical change in education and wrote the foreword for this book Richard has updated Creating Tomorrow's Schools Today based on his visits to schools on every continent his conversations on education with teachers and industry leading visionaries such as Steve Wozniak and in the context of an education system that he fears is forgetting the future we need to prepare our children for Reforms tweaks and new policies are not enough a radical transformation is needed If you read only one Education manifesto in the next year this is it Join the conversation Edvision **Drugging Our Children** Sharna Olfman, Brent Dean Robbins, 2012-02-27 This book exposes the skyrocketing rate of antipsychotic drug prescriptions for children identifies grave dangers when children's mental health care is driven by market forces describes effective therapeutic care for children typically prescribed antipsychotics and explains how to navigate a drug fueled mental health system Since 2001 there has been a dramatic increase in the use of antipsychotics to treat children for an ever expanding list of symptoms The prescription rate for toddlers preschoolers and middle class children has doubled while the prescribing rate for low income children covered by Medicaid has quadrupled In a majority of cases these drugs are neither FDA approved nor justified by research for the children's conditions This book examines the reasons behind the explosion of antipsychotic drug prescriptions for children spotlighting the historical and cultural factors as well as the role of the pharmaceutical industry in this trend and discusses the ethical and legal responsibilities and

ramifications for non MDs psychologists in particular who work with children treated with antipsychotics Contributors explain how the pharmaceutical industry has inserted itself into every step of medical education rendering objectivity in the scientific understanding use and approvals of such drugs impossible The text describes the relentless marketing behind the drug sales even going as far as to provide coloring and picture books for children related to the drug at issue Valuable information about legal recourse that families and therapists can take when their children or patients have been harmed by antipsychotic drugs and alternative approaches to working with children with emotional and behavioral challenges is also provided
