ABOUT THE ORIGINAL BOOK The attitude that people have when they face failure is one of the traits that determine success in their lives and projects What makes a winner triumph is to know how to turn failure into an opportunity to learn and develop a path towards identified goals These are the central ideas developed by John C Maxwell in this book He presents a series of extremely educational and descriptive steps that will allow changing perspectives in the face of a failure and then redirecting these efforts towards success The fundamental thing in life is to learn to learn from obstacles and then to overcome them The characteristic style of the author and his practical content make this work a best seller in sales Criticism is normal and taking it well helps leaders and businessmen as well as for anyone who aspires to a successful life

ABOUT SAPIENS EDITORIAL Books are mentors Books can guide what we do and our lives Many of us love books while reading them and maybe they will echo with us a few weeks after but 2 years later we cant remember if we have read it or not And thats a shame We remember that at that time the book meant a lot to us Why is it that 2 years later we have forgotten everything Thats not good This summary is taken from the most important themes of the original book Most people dont like books People just want to know what the book says they have to do If you trust the source you dont need the arguments So much of a book is arguing its points but often you dont need the argument if you trust the source you can just get the point This summary takes the effort to distill the blahs into themes for the people who are just not going to read the whole book All this information is in the original book

**Failing Forward** John C. Maxwell, 2007-04-01 How you respond to failure makes all the difference Are some people born to achieve anything they want while others struggle What is the real reason for their success John C Maxwell has the answer The difference between average people and achieving people is their perception of and response to failure Most people are never prepared to deal with failure Bestselling author John C Maxwell says that if you are like him you feared it misunderstood it and ran away from it However he has learned to make failure his friend and he can teach you to do the same Maxwell takes a closer look at failure and reveals that the secret of moving beyond failure is to use it as a lesson and a stepping stone In *Failing Forward* Maxwell will show you the key main reasons people fail how to master fear instead of being mastered by it and positive benefits can accompany negative experiences Filled with action suggestions and real life stories *Failing Forward* is a strategic guide that will help you move beyond mistakes to fulfill your potential and achieve success Discover how to confidently look the prospect of failure in the eye and move forward anyway In life the question is not if you will have problems but how you are going to deal with them Stop failing backward and start failing forward
