Campbell Bunk Jerry White,2013-01-31 From the 1880s to the Second World War Campbell Road Finsbury Park known as Campbell Bunk had a notorious reputation for violence for breeding thieves and prostitutes and for an enthusiastic disregard for law and order It was the object of reform by church magistrates local authorities and social scientists who left many traces of their attempts to improve what became known as the worst street in North London Jerry White offers insight into the realities of life in a slum community showing how it changed over a 90 year period Using extensive oral history to describe in detail the years between the wars White reveals the complex tensions between the new world opening up and the street s traditional culture of economic individualism crime street theatre and domestic violence      **Routledge Library**

**Editions: The Labour Movement** Various,2021-07-28 This set of 44 volumes originally published between 1924 and 1995 amalgamates a wide breadth of research on the Labour Movement including labour union history the early stages and development of the Labour Party and studies on the working classes This collection of books from some of the leading scholars in the field provides a comprehensive overview of the subject how it has evolved over time and will be of particular interest to students of political history      **Cultural Approaches to the History of Medicine** C. Usborne,W.

Blécourt,2003-12-18 A pioneering contribution to the cultural history of medicine exploring issues as diverse as dissection of the heart childbirth masturbation animal care hermaphrodites orthopaedics miracle drugs smallpox and sex advice in different European cultures from the 1600s to the present day Each case study illustrates various roles of mediation reconciling conflicting ideas in the medical encounter as an instrument of domination or conversely of resistance Roy Porter s brilliant foreword conveys the methodological significance as well as the pleasure of these essays      *Housewives and citizens* Caitriona Beaumont,2016-05-16 After an extremely successful debut in hardback *Housewives and citizens* is now available in paperback for the first time This book explores the contribution that five conservative voluntary and popular women s organisations made to women s lives and to the campaign for women s rights throughout the period 1928 64 The book challenges existing histories of the women s movement that suggest the movement went into decline during the inter war period only to be revived by the emergence of the Women s Liberation Movement in the late 1960s It is argued that the term women s movement must be revised to allow a broader understanding of female agency encompassing feminist political religious and conservative women s groups who campaigned to improve the status of women throughout the twentieth century The book provides a radical re assessment of this period of women s history and in doing so makes a significant contribution to ongoing debates about the shape and impact of the women s movement in twentieth century Britain

**Families in Transition** Peter Gossage,1999-09-01 Gossage uses a family reconstitution method drawing on local parish registers and manuscript census schedules to focus on marriage household organization and family size in this context of

social and economic change Family formation was profoundly affected as couples adjusted to the new urban industrial setting Gossage demonstrates that demographic behaviour was increasingly differentiated by social class with distinct marriage and fertility patterns emerging among bourgeois and proletarian families Bourgeois women who married in the 1860s for example were already limiting family size a crucial shift that did not occur in working class families until almost a generation later Families in Transition demonstrates the extent to which stereotypes about family life in Quebec before the Quiet Revolution need to be revisited Far from being passive static uniformly prolific and constrained by religious and cultural perspectives Saint Hyacinthe families responded quickly to the changing realities of the day reinventing marriage patterns and domestic arrangements to fit the new industrial capitalism of the nineteenth century In this sense they were truly families in transition

**Theorizing the Sexual Child in Modernity** R. Egan, Gail Hawkes, 2015-12-30 This ground breaking work provides the first history of ideas about the sexual child in modernity Beginning with twenty first century panics about sexualization the authors address why the sexual child excites such powerful emotions in the Anglophone west

**remarkable woman in England** John Carter Wood,2017-10-03 This book offers the first in depth study of one of the most gripping trials of inter war Britain that of farmer s wife Beatrice Pace for the arsenic murder of her husband A riveting tale from the golden age of press sensationalism the book offers insights into the era s justice system gender debates and celebrity culture Based on extensive research it locates the Pace saga in the vibrant world of 1920s press reporting and illuminates a forgotten chapter in the history of civil liberties by considering the debates the case raised about police powers and the legal system Spanning settings from the Pace s lonely cottage in the Forest of Dean to the House of Commons and using sources ranging from meticulous detective reports to heartfelt admirers letters **The most remarkable woman in England** combines serious scholarship with vivid storytelling to bring to life the extraordinary lives of ordinary people between the wars

**The Making of the Modern British Home** Peter Scott,2013-08-29 **The Making of the Modern British Home** explores the impact of the modern suburban semi detached house on British family life during the 1920s and 1930s focusing primarily on working class households who moved from cramped inner urban accommodation to new suburban council or owner occupied housing estates Migration to suburbia is shown to have initiated a dramatic transformation in lifestyles from a traditional working class mode of living based around long established tightly knit urban communities to a recognisably modern mode centred around the home the nuclear family and building a better future for the next generation This process had far reaching impacts on family life entailing a change in household priorities to meet the higher costs of suburban living which in turn impacted on many aspects of household behaviour including family size This volume also constitutes a general history of the development of both owner occupied and municipal suburban housing estates in interwar Britain including the evolution of housing policy the housing development process housing and estate design lay outs and architectural features marketing owner occupation and consumer durables to a mass market furnishing the new suburban home making ends meet suburban gardens social filtering and conflict on the new estates and problems of mis selling and

Jerry building Peter Scott integrates the social history of the interwar suburbs with their economic business marketing and architectural planning histories demonstrating how these elements interacted to produce a new model of working class lifestyles and respectability which marked a fundamental break with pre 1914 working class urban communities **A Child for Keeps** J. Keating, 2008-12-11 The history of adoption from 1918 1945 detailing the rise of adoption the growth of adoption societies and considering the increasing emphasis on secrecy in adoption Analyses adoption law from legalization in 1926 to regulation and reform in the 1930s with regulations finally being enforced in 1943 amid concern about casual wartime adoptions **The Market Makers** Peter Scott, 2017-09-15 During the twentieth century affluence both at the level of the individual household and that of society as a whole became intimately linked with access to a range of prestige consumer durables The Market Makers charts the inter war origins of a process that would eventually transform these features of modern life from being luxuries to necessities for most British families Peter Scott examines how producers and retailers succeeded in creating mass though not universal market for new suites of furniture radios modern housing and some electrical and gas appliances while also exploring why some other goods such as refrigerators telephones and automobiles failed to reach the mass market in Britain before the 1950s Creating mass markets presented a formidable challenge for manufacturers and retailers Consumer durables required large markets Most involved significant research and development costs Some such as the telephone radio and car were dependent on complementary investments in infrastructure All required intensive marketing usually including expensive advertising in national newspapers and magazines while some also needed mass production methods and output volumes to make them affordable to a mass market This study charts the pioneering efforts of entrepreneurs many of whom though once household names are now largely forgotten to provide consumer durables at a price affordable to a mass market and to persuade a sometimes reluctant public to embrace the new products and the consumer credit that their purchase required In doing so Scott shows that contrary to much received wisdom there was a consumer durables revolution in inter war Britain at least for certain highly prioritised goods **This Working-Day World** Sybil Oldfield, 2022-08-24 Originally published in 1994 This Working Day World is lively collection of essays presenting a social political and cultural view of British women s lives in the period 1914 45 The volume describes women s activities in many different areas ranging from the weekly wash to the rescue of child refugees Each essay from an international list of contributors is based on new research which will complement existing studies in a range of disciplines by adding information on among other topics women s teacher training colleges and women in the BBC in medical laboratories and in Art schools The book does not however idealise women the militarism and racism of the period infected women too and this is revealed in the account of women in the British Union of Fascists and the analysis of the Pankhursts merging of patriotism and gender issues Through studies and personal accounts This Working Day World reveals past issues that are still pertinent to debates in today s society As we read the chapter on the recently discovered Diary of Doreen Bates

which outlines possibly the first female civil servant campaign for rights as a single mother we hear echoes of issues being discussed today Indeed as we approach the end of the century it is a good moment to look back and re evaluate areas and degrees of progress or the reverse in society and in British women s lives in particular With its unusual photographs this accessible and informative collection provides a rich resource for students in twentieth century social and cultural history and women s studies courses and an enlightening volume for general readers

**Nationalising Femininity** Christine Gledhill, Gillian Swanson, 1996 What was the relation between gender and nation when the waiting woman was displaced by the mobile woman and homes were flattened by bombs What happened to notions of femininity sexual difference and class as women moved into the workplace and donned dungarees military uniforms and utility clothing
