Faith and Ministry in Light of the Double Brain James B. Ashbrook, 1989 **The Other Half of Church** Jim Wilder, Michel Hendricks, 2020-08-04 Could brain science be the key to spiritual formation Why does true Christian transformation seem fleeting And why does church often feel lonely Christian community shallow and leaders untrustworthy For many Christians the delight of encountering Christ eventually dwindles and disappointment sets in Is lasting joy possible These are some of the questions Michel Hendricks has considered both in his experience as a spiritual formation pastor and in his lifetime as a Christian He began to find answers when he met Jim Wilder a neurotheologian Using brain science Wilder identified that there are two halves of the church the rational half and the relational half And when Christians only embrace the rational half churches become unhealthy places where transformation doesn't last and narcissistic leaders flourish In *The Other Half of Church* join Michel and Jim's journey as they couple brain science with the Bible to identify how to overcome spiritual stagnation by living a full brained faith You'll also learn the four ingredients necessary to develop and maintain a vibrant transformational community where spiritual formation occurs relationships flourish and the toxic spread of narcissism is eradicated
