Faith And Praxis In A Postmodern Age:

Faith and Praxis in a Postmodern Age Ursula King,1998 We live in a culture which has broadly rejected the possibility of absolute belief in one overriding truth And yet we are surrounded by people who do believe who indeed are often intensely religious but believe in different things This fragmentation of culture is a challenge to all major religions Given that we have to live together and given that many of our starting points are the same even if our interpretations are different how do we cope with the practical day to day task of living and thriving in the same socio political environment This key postmodern dilemma is addressed in this valuable collection of essays by all international team of writers In a postmodern age can we believe at all If we accept that we are no longer unique where does that leave Christian spirituality British South African and Jewish writers explore ways in which the question of religion impacts on political life in Britain South Africa and Israel

The Cambridge Companion to Postmodernism Steven Connor,2004-07-15 The Cambridge Companion to Postmodernism offers a comprehensive introduction to postmodernism The Companion examines the different aspects of postmodernist thought and culture that have had a significant impact on contemporary cultural production and thinking Topics discussed by experts in the field include postmodernism s relation to modernity and its significance and relevance to literature film law philosophy architecture religion and modern cultural studies The volume also includes a useful guide to further reading and a chronology This is an essential aid for students and teachers from a range of disciplines interested in postmodernism in all its incarnations Accessible and comprehensive this Companion addresses the many issues surrounding this elusive enigmatic and often controversial topic ThirdWay ,1998-12 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture *Foucault, Christianity and Interfaith Dialogue* Henrique Pinto,2020-11-25 Foucault Christianity and Interfaith Dialogue develops a new model for interfaith dialogue using the work of the French historian of ideas Michel Foucault The author argues that it is the injustice done to the Other by Roman Catholic Protestant and other centred and unitary models of religious pluralism that allows the introduction of Foucault s de centring of transcendence and human reason as an alternative model for understanding religious diversity and the role it ought to play in the constitution of the self and the making of society This Foucaultian approach provides a new direction for interfaith dialogue in the modern world and leads to an ethical rather than a nihilistic position while fostering a non unitary theology of religious pluralism and an open textured process of self transformation The author s original and imaginative application and expansion of Foucault s concept of the More from The Archaeology of Knowledge 1969 makes important and original contributions to academic work on Foucault and contemporary theology International Handbook of the Religious, Moral and Spiritual Dimensions in Education Marian de Souza,Gloria Durka,Kathleen Engebretson,Robert Jackson,Andrew McGrady,2007-06-04 In today s pluralistic world many cultures feel a shift in the relationship of people with religious traditions A corresponding movement is a resurgence of interest in human spirituality This Handbook presents the

views of education scholars who engage these concepts every day in a collection of essays reflecting the international state of the discipline Out of these rises a vision for the emergence of a just and peaceful world **Mapping Religion and Spirituality in a Postsecular World** Giuseppe Giordan, Enzo Pace, 2012-07-05 This volume offers 11 case studies of contemporary movements from around the world where religious secular and spiritual dynamics interplay in the postmodern condition of the 21st century as traditional and contemporary sources are combined in new and dynamic ways **Salvation for All** Gerald O'Collins, 2008-03-20 Gerald O Collins examines in depth and at length what the Old Testament and the New Testament hold about the salvation of God's other peoples a strong and lasting theme in the Bible Concluding with chapters on the role of Jesus for the salvation of the whole world Salvation for All complements the author's recent Jesus Our Redeemer **The Politics of Postmodernism** Linda Hutcheon, 2003-12-16 This classic text remains one of the clearest and most incisive introductions to postmodernism Perhaps more importantly it is a compelling discussion of why postmodernism matters Working through the issue of representation in art forms from fiction to photography Linda Hutcheon sets out postmodernism's highly political challenge to the dominant ideologies of the western world A new epilogue traces the fate of the postmodern over the last ten years and into the future responding to claims that it has once and for all failed Together with the new epilogue this edition contains revised notes on further reading and a fully updated bibliography This revised edition of The Politics of Postmodernism continues its position as essential reading Theology in the Public Square Gavin D'Costa, 2013-04-10 This imaginative study rethinks the nature of theology and its role in universities The author sketches out a fascinating project using examples from US and UK institutions whereby theology becomes a transformative force within universities Imagines what a Christian university in which all disciplines have been theologized would look like Feeds into discussions about the religious identity of denominationally linked colleges and universities Forms part of a wider attempt to imagine a vital public role for theology that enables it to serve both the Church and the wider community *Honest To Goodness* Martin Prozesky, 2019-03-12 Honest to Goodness proposes a new Christian presence that is free of dogmatism exclusivism and biblicism It charts a way back to the spiritual and ethical revolution begun by Jesus of Nazareth one that can make a vital difference to needless evils such as bigotry environmental destruction poverty and violence The book reveals the author's experience of living under against and after apartheid insisting that a faith that does not confront this world's evils is no faith at all but a dangerous betrayal of all that is good beautiful and true Honest to Goodness unflinchingly identifies the grave moral shortcomings that are embedded in traditional Christian beliefs and practices and proposes ways of transforming them into harmony with the divine goodness that the author discerns everywhere Embracing a world of religious diversity science and creative philosophy the book describes a new way of experiencing and expressing the divine It defends faith by moving beyond both theism and atheism **Sacred Gaia** Anne Primavesi, 2002-09-11 Gaia the scientific theory founded by James Lovelock in 1979 embraces the earth as a whole dynamic entity whose sum is always larger than its

parts While science and theology are often seen as contraries which negate or dilute one another Gaia theory harmonizes both systems of thought Sacred Gaia cogently describes Gaia theory's analysis of human and earthly evolution Anne Primavesi's remarkably effortlessly coherent book helps us to recognize the sacredness of our origins and our responsibility for the future

Ways of Meeting and the Theology of Religions David Cheetham, 2016-02-24 Exploring the different points of view and tones of voice adopted in theology for the meeting of religions this book presents a contemporary philosophical and theological engagement with key issues of how different faiths might meet of comparative philosophy of religion of the use of aesthetics of inter religious ethics and issues relating to the self Providing a critical evaluation of contemporary liberal post liberal and conservative voices and an engagement with movements such as Radical Orthodoxy and Scriptural Reasoning to mention a few this book highlights the use of the creative imagination and explores new ideas for the meeting of religions

Secular Buddhism Stephen Batchelor, 2017-02-21 An essential collection of Stephen Batchelor's most probing and important work on secular Buddhism As the practice of mindfulness permeates mainstream Western culture more and more people are engaging in a traditional form of Buddhist meditation However many of these people have little interest in the religious aspects of Buddhism and the practice occurs within secular contexts such as hospitals schools and the workplace Is it possible to recover from the Buddhist teachings a vision of human flourishing that is secular rather than religious without compromising the integrity of the tradition Is there an ethical framework that can underpin and contextualize these practices in a rapidly changing world In this collected volume of Stephen Batchelor's writings on these themes he explores the complex implications of Buddhism's secularization Ranging widely from reincarnation religious belief and agnosticism to the role of the arts in Buddhist practice he offers a detailed picture of contemporary Buddhism and its attempt to find a voice in the modern world

David Mitchell's Post-Secular World Rose Harris-Birtill, 2019-01-10 Since the publication of *Ghostwritten* 1999 David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century In this landmark study Rose Harris Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing Covering Mitchell's complete fictions from bestselling novels such as *Cloud Atlas* 2004 *The Bone Clocks* 2014 and *number9dream* 2001 to his short stories and his libretti for the operas *Sunken Garden* and *Wake* this book examines how Buddhist influences inform the ethical worldview that permeates his writing Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world Harris Birtill positions Mitchell as central to a new generation of post secular writers who re-examine the vital role of belief in galvanizing action amidst contemporary ecological political and humanitarian crises David Mitchell's *Post Secular World* features two substantial new interviews with the author a chronology of his fictions and a selected bibliography of important critical writings on his work

Michel Foucault and Theology James Bernauer, 2017-03-02 Whilst Foucault's work has become a major strand of postmodern theology the wider relevance of his work for theology still remains

largely unexamined Foucault both engages the Christian tradition and critically challenges its disciplinary regime Michel Foucault and Theology brings together a selection of essays by leading Foucault scholars on a variety of themes within the history thought and practice of theology Revealing the diverse ways that the work of Michel Foucault 1926 1984 has been employed to rethink theology in terms of power discourse sexuality and the politics of knowledge the authors examine power and sexuality in the church in late antiquity Castelli Clark Schuld raise questions about the relationship between theology and politics Bernauer Leezenberg Caputo consider new challenges to the nature of theological knowledge in terms of Foucault s critical project Flynn Cutrofello Beadoin Pinto and rethink theology in terms of Foucault s work on the history of sexuality Carrette Jordan Mahon This book demonstrates for the first time the influence and growing importance of Foucault s work for contemporary theology *Civilizing Peace Building* Wendy M. Sargent, 2016-05-23 Highlighting the high price paid by the United Nations and international peace builders that under utilize the reflexive new paradigm approach to international relations IR this study develops an overview of IR theory relied on by governmental and diplomatic communities as a guide to peace building Especially significant is the development of IR theory in relation to religious extremism and tendencies towards barbarism with modernities It discusses outcomes such as the exponential growth of international enmity between diverse populations and public demonization of the religious or ethnic other expressed most recently through the War on Terror Central to this research is the emerging debate on the impact of religious and cultural identity on IR and peace building While many IR books continue to research positivist approaches Sargent looks at the concept of structural violence as identified using post positive approaches This book rethinks peace building outside the limits of ideological difference No Faith in Religion John Saxbee, 2009 If religion is characterised by the recruitment of God to serve our agendas and faith is about putting our agendas at the service of God then clearly there is too much religion in the world and not enough faith The first eight chapters of this book apply this religion faith dichotomy to some crucial areas of interest to those exploring what it might mean to be people of faith in a world saturated with religion The Routledge Handbook of Contemporary Philosophy of Religion Graham Oppy, 2015-04-17 Philosophy of religion has experienced a renaissance in recent times paralleling the resurgence in public debate about the place and value of religion in contemporary Western societies The Routledge Handbook of Contemporary Philosophy of Religion is an outstanding reference source to the key topics problems and debates in this exciting subject Comprising over thirty chapters by a team of international contributors the Handbook is divided into seven parts theoretical orientations conceptions of divinity epistemology of religious belief metaphysics and religious language religion and politics religion and ethics religion and scientific scrutiny Within these sections central issues debates and problems are examined including religious experience religion and superstition realism and anti realism scientific interpretation of religious texts feminist approaches to religion religion in the public square tolerance religion and meta ethics religion and cognitive science and the meaning of life Together they offer readers an

informed understanding of the current state of play in the liveliest areas of contemporary philosophy of religion The Routledge Handbook of Contemporary Philosophy of Religion is essential reading for students and researchers of philosophy of religion from across the Humanities and Social Sciences

Personal Being Andrew T. Grosso, 2007 Personal Being Polanyi Ontology and Christian Theology contributes to Michael Polanyi studies to the conversation between philosophy and theology and to the contemporary renaissance in trinitarian theology The author begins by elaborating the ontology implied by Polanyi's theory of personal knowledge and argues that personhood is a fundamental category for understanding reality He then explores the reception of Polanyi's philosophy in theological studies and outlines a method responsive to interdisciplinary dialogue Finally he employs a Polanyian model of personhood to examine the doctrine of the Trinity and suggests that this effort anticipates the development of a personalistic Christian cosmology
