Faith And Speculation:

Faith and speculation Austin Farrer, 1964 **Faith and Speculation** Austin Farrer, 1967 **Faith and Speculation** Austin Farrer, 1967 **Speculation** Gayle Rogers, 2021-07-06 In the modern world why do we still resort to speculation Advances in scientific and statistical reasoning are supposed to have provided greater certainty in making claims about the future Yet we constantly spin out scenarios about tomorrow for ourselves or for entire societies with flimsy or no evidence Insubstantial speculations from utopian thinking to high risk stock gambles often provoke fierce backlash even when they prove prophetic for the world we come to inhabit Why does this hypothetical way of thinking generate such controversy In this cultural literary and intellectual history Gayle Rogers traces debates over speculation from antiquity to the present Celebrated by Boethius as the height of humanity's mental powers but denigrated as sinful by John Calvin speculation eventually became central to the scientific revolution's new methods of seeing the natural world In the nineteenth century writers such as Jane Austen used the concept to diagnose the marriage market redefining speculation for the purpose of social critique Speculation fueled the development of modern capitalism spurring booms busts and bubbles and recently artificial intelligence has automated the speculation previously done by humans with uncertain and troubling consequences Unraveling these histories and many other disputes Rogers argues that what has always been at stake in arguments over speculation and why it so often appears so threatening is the authority to produce and control knowledge about the future Recasting centuries of contests over the power to anticipate tomorrow this book reveals the crucial role speculation has played in how we create and potentially destroy the future **The Philosophical Theology of Austin Farrer** Brian Hebblethwaite, 2007 Thirty years of reflection on the philosophical theology of Austin Farrer lie behind the nine chapters of this book in which Farrer's seminal work on faith and reason providence and evil finite and infinite freedom evolution and creation and the doctrines of the Incarnation and the Trinity is discussed and developed Austin Farrer Fellow and Chaplain of Trinity College Oxford for twenty years then Warden of Keble College till his death in 1968 is widely regarded as the most significant Anglican philosophical theologian of the twentieth century His unparalleled combination of philosophical acuity theological insight and spiritual profundity have earned him lasting admiration and influence wherever the mainstream Christian tradition is valued and thought worthy of further exploration and fresh interpretation These studies are offered in the hope that a new generation of philosophical theologians will find inspiration and encouragement in Farrer's work *Faith and Speculation* Reverend Farrer, 1967 **Questioning Back** Joseph S. O'Leary, 2016-08-31 This is the first of three essays in fundamental theology along with Religious Pluralism and Christian Truth 1996 and Conventional and Absolute Truth 2015 which attempt to reassess the status of Christian doctrinal language within the contemporary regime of truth In light of Heidegger's overcoming of metaphysics it revisits the age old tension between Athens and Jerusalem between the metaphysical structures of the Greek mind and the texture of the biblical events of revelation and salvation A

deconstructive reading that traces this tension in classical Christian texts continued in later studies including *Christianisme et philosophie chez Origene* Editions du Cerf 2011 clears the ground for a step back to biblical realities as they are apprehended in contemporary consciousness

Tolerance and Intolerance in Religion and Beyond Anne Sarah Matviyets, Giuseppe Veltri, Jörg Rüpke, 2023-10-09 This book focuses on religious tolerance and intolerance in terms of practices institutions and intellectual habits It brings together an array of historical and anthropological studies and philosophical cognitive and psychological explorations by established scholars from a range of disciplines The contributions feature modern and historic instances of tolerance and intolerance across a variety of geographies societies and religious traditions They help readers to gain an understanding of the notion of tolerance and the historical consequences of intolerance from the perspective of different cultures religions and philosophies The volume highlights tolerance s potential to be a means to build bridges and at the same time determine limits Whilst the challenge of promoting tolerance has mostly been treated as a value or practice of demographic or religious majorities this book offers a broader take and pays attention to minority perspectives It is a valuable reference for scholars of religious studies the sociology of religion and the history of religion

A Light in a Burning-Glass Robert Boak Slocum, 2019-09-27 A Light in a Burning Glass introduces readers to the distinctive synthesis of theological reflection and everyday faith that characterizes the life and theology of Austin Farrer 1904 1968 a man widely considered to be the most important Anglican theologian of the twentieth century Often quoted for isolated insights but rarely appreciated for his depth and coherency Farrer is a theologian who according to Robert Boak Slocum is fascinating to consider but difficult to master In this survey and explanation of the Anglican leader s prodigious output and complexity of thought Slocum sorts through Farrer s many writings to articulate his theological vision Slocum delves into Farrer s treatises essays lectures correspondence and reviews in an exploration of his three primary areas of theological concern pastoral biblical and philosophical Noting that few theologians have published so many significant works in such varied areas of theological study Slocum maps the connectedness of thought that unites Farrer s works Slocum moves from a basic study of Farrer s background and methodology to a consideration of his major themes Christian hope the problem of evil the role of image and imagination in Christian faith the use of literary methods in the interpretation of theology and the interplay of divine action and human freedom in the Christian life

Kierkegaard and His Contemporaries Jon Stewart, 2008-08-22 Interpreting Kierkegaard in the general context of Golden Age Denmark this interdisciplinary anthology features articles which treat his various relations to his most famous Danish contemporaries It aims to see them not as minor figures laboring in Kierkegaard s shadow but rather as significant thinkers and artists in their own right The articles illuminate both Kierkegaard s influence on his contemporaries and their varied influences on him By means of the analyses of these various relations aspects of Kierkegaard s authorship are brought into new and insightful perspectives The featured essays treat some of the most important figures from the time representing

the fields of philosophy theology literature criticism and art *Brownson's Quarterly Review* Orestes Augustus Brownson,1849 **Philosophical Theology and Christian Doctrine** Brian Hebblethwaite,2008-04-15 Philosophical Theology and Christian Doctrine surveys and comments on recent work by philosophers of religion in the analytic tradition on the doctrines of the Christian creed Topics covered include creation Incarnation Trinity salvation and eschatology and the ultimate future of creation Comprehensive survey of core Christian doctrines Faith and Speculation Austin Farrer,1967-01-01 **Between Speech and Revelation** Joshua Ryan Kira,2019-11-14 Evangelicalism in spite of its size and relationship to various historic movements in Christian history has never been known to be a perspective that interacts widely in its theological development Its insular nature emphasis on inspiration and its highly doctrinal concerns have caused it to frequently be an outlier in larger dialogues concerning Scripture This book attempts to remedy this lack of interaction by bringing an evangelical view of the Bible into contact with various twentieth century traditions that have attempted to delve into the relationship between divine speech and revelation Specifically the works of Calvinist philosopher Nicholas Wolterstorff hermeneutical theologian Eberhard Jungel and Anglican philosopher theologian Austin Farrer will be mined for the resources necessary to affirm and defend a belief in an evangelical view of Scripture This would include the belief that the Bible can rightly be called God s word the adherence to verbal plenary inspiration and a reluctance to use higher criticism in analyzing Scripture Through criticism and appropriation this work will set the guidelines for the construction of a more comprehensive perspective of revelation divine speech and the Bible as well as showing how Evangelicalism can contribute to the larger ecumenical dialogue concerning theological methodology **Theological Tracts for the Times** Theological tracts,1861 *The Branch Exposition of the Bible, Volume 1* Michael A. Eaton,2020-08-31 If you picture the Bible to be a mighty tree and every word a little branch I have shaken every one of these branches because I wanted to know what it was and what it meant MARTIN LUTHER A great deal of biblical scholarship is written for academics and fails to edify readers or strengthen their Christian ministry Yet Christians need to be nourished by the word of God so they can mature in faith and righteousness Filling this gap The Branch Exposition of the Bible is a resource for preachers scholars and everyday Christians alike to help open God s word and shed its light into life ministry and teaching Inspired by the words of the great reformer Martin Luther about shaking every branch of Scripture and with experience in ministering across Africa India and the West Michael A Eaton helps us understand the meaning of the Bible and taste its fruit With an Old Testament volume to follow this exposition of the New Testament accessibly engages with the biblical languages gives application for our lives and leads us through each book of the New Testament so that we can meet the resurrected Jesus Christ in the pages of Scripture **Controversy** Orestes Augustus Brownson,1884 *The Religious Thought of Hasidism* Norman Lamm,1999 It provides a detailed sketch of the historical background of the early Hasidic movement and charts its central ideas within the wider intellectual and historical context of Jewish religious and mystical thought BOOK JACKET **The Christian**
