**Black Gods of the Metropolis** Arthur Huff Fauset,2014-03-26 Stemming from his anthropological field work among black religious groups in Philadelphia in the early 1940s Arthur Huff Fauset believed it was possible to determine the likely direction that mainstream black religious leadership would take in the future a direction that later indeed manifested itself in the civil rights movement The American black church according to Fauset and other contemporary researchers provided the one place where blacks could experiment without hindrance in activities such as business politics social reform and social expression With detailed primary accounts of these early spiritual movements and their beliefs and practices *Black Gods of the Metropolis* reveals the fascinating origins of such significant modern African American religious groups as the Nation of Islam as well as the role of lesser known and even forgotten churches in the history of the black community In her new foreword historian Barbara Dianne Savage discusses the relationship between black intellectuals and black religion in particular the relationship between black social scientists and black religious practices during Fauset s time She then explores the complexities of that relationship and its impact on the intellectual and political history of African American religion in general *Encyclopedia of Anthropology* H. **Between Dancing and Writing** Kimerer L. LaMothe, 2004 This book provides philosophical grounds for an emerging area of scholarship the study of religion and dance In the first part LaMothe investigates why scholars in religious studies have tended to overlook dance or rhythmic bodily movement in favor of textual expressions of religious life In close readings of Descartes Kant Schleiermacher Hegel and Kierkegaard LaMothe traces this attitude to formative moments of the field in which philosophers relied upon the practice of writing to mediate between the study of religion on the one hand and theology on the other In the second part LaMothe revives the work of theologian phenomenologist and historian of religion Gerardus van der Leeuw for help in interpreting how dancing can serve as a medium of religious experience and expression In so doing LaMothe opens new perspectives on the role of bodily being in religious life and on the place of theology in the study of religion **The Chicago Theological Seminary Register** Chicago Theological Seminary, 1928 Alumni directory issue 1859

1951 v 44 no 4 v 45 no 1      **Payback** G. W. Trompf, 1994-07-14 In this ambitious study the first monograph on religion and the logic of retribution Professor Trompf shows how various aspects of payback both negative and positive provide the best indices to an understanding of Melanesian views of life The book explores the reasons why people pay back and opens up a whole new dimension in the cross cultural study of human consciousness The author conducts his readers through the most complex anthropological pageant on earth illustrating his arguments from western New Guinea to Fiji      **A History of Oxford Anthropology** Peter Rivière, 2009-10 Informative as well as entertaining this volume offers many interesting facets of the first hundred years of anthropology at Oxford University      The Philosophy of Enchantment R. G. Collingwood, 2005 This is the long awaited publication of a set of writings by the British philosopher historian and archaeologist R G Collingwood on critical anthropological and cultural themes only hinted at in his previously available work At the centre of the book are six chapters of a study of folktale and magic composed by Collingwood in the mid 1930s and intended for development into a book Here Collingwood applies the principles of his philosophy of history to problems in the long term evolution of human society and culture This is preceded in Part I by a range of contextualizing material on such topics as the relations between music and poetry the nature of language the value of Jane Austen's novels the philosophy of art and the relations between aesthetic theory and artistic practice Part III of the volume consists of two essays one on the relationship between art and mechanized civilization and the second written in 1931 on the collapse of human values and civilization leading up to the catastrophe of armed conflict These offer a devastating analysis of the consequences that attend the desertion of liberal principles indeed of all politics as such in the ultimate self annihilation of military conquest The volume opens with three substantial introductory essays by the editors authorities in the fields of critical and literary history social and cultural anthropology and the philosophy of history and the history of ideas they provide their explanatory and contextual notes to guide the reader through the texts The Philosophy of Enchantment brings hitherto unrecognized areas of Collingwood's achievement to light and demonstrates the broad range of Collingwood's intellectual engagements their integration and their relevance to current areas of debate in the fields of philosophy cultural studies social and literary history and anthropology      **Social Anthropology and Human Origins** Alan Barnard, 2011-03-17 The study of human origins is one of the most fascinating branches of anthropology Yet it has rarely been considered by social or cultural anthropologists who represent the largest subfield of the discipline In this powerful study Alan Barnard aims to bridge this gap Barnard argues that social anthropological theory has much to contribute to our understanding of human evolution including changes in technology subsistence and exchange family and kinship as well as to the study of language art ritual and belief This book places social anthropology in the context of a widely conceived constellation of anthropological sciences It incorporates recent findings in many fields including primate studies archaeology linguistics and human genetics In clear accessible style Barnard addresses the fundamental questions surrounding the evolution of human society and the prehistory

of culture suggesting a new direction for social anthropology that will open up debate across the discipline as a whole
