Hawks Nest Incident:

The Hawk's Nest Incident Martin Cherniack,1986 Documents Union Carbide's construction in the 1930's of the Hawk's Nest Tunnel that allegedly caused the deaths of hundreds of workers through unsafe practices **Appalachian Ghost** Raymond Thompson Jr.,2024-03-13 In the early days of the Great Depression the search for steady work drove thousands of migrant laborers many of whom were African American from all over Appalachia to a rural area near Fayetteville West Virginia Union Carbide Corporation had begun construction on a three mile tunnel to divert the New River and many hands were needed Toiling for five years in confined spaces with poor ventilation no means of dust control and limited use of personal breathing protection the workers were repeatedly exposed to pure silica dust Many developed silicosis an incurable and debilitating lung disease that is estimated to have caused the deaths of nearly eight hundred workers two thirds of whom were Black Soon after the US House of Representatives Committee on Labor classified silicosis as an occupational hazard Despite the disaster's impact information about its severity was largely suppressed a decision that ensured the event faded quickly from public memory Aside from a small plaque at Hawk's Nest State Park which inaccurately admits to only 109 victims there is little to mark the site of the worst industrial accident to date in the United States In **Appalachian Ghost A Photographic Reimagining of the Hawk's Nest Tunnel Disaster** author Raymond Thompson Jr explores the possibilities of that tragedy by reviving the faces and spaces of Hawk's Nest Using primary source materials to re create the workers experiences in photographs Thompson recontextualizes archival images to present a counter archive that positions the Black experience at Hawk's Nest within the larger story of the American labor landscape His photographs and poetry give voice to the silenced resisting revisionist narratives that often ignore the sacrifices of African Americans and erase their instrumental role in the development of America's infrastructure **The Hawks Nest Tunnel** Patricia Spangler,2008-02 **Hawks Nest** William Crandall,Parnell, John Alan Parnell,John E. Spillan,2016 This case looks at serious safety violations in the workplace focussing on the example of a tunnel built by the engineering company Rinehart and Dennis in West Virginia By cutting safety costs they saved money at the expense of their worker's lives and health **Hawks Nest** Juneus Kendall,2012-07-01 During the Great Depression Union Carbide constructed a tunnel on the New River in WV In the process an unknown number of men died Because they were mostly poor itinerant Negroes without advocates their plight was largely ignored No one knows how many died and the government was of little help There were a few whose lives rose above their circumstances This is the story of one of those couples **Gasping for Air** Kevin Glynn,2017-08-03 Breathing is a continuous battle between our need for oxygen and forces in nature that attack our lungs Three hundred thousand Americans will die of respiratory diseases this year **Gasping for Air** is the dramatic story of how infections toxins carcinogens and air pollution strike against one of our basic body functions The book also describes how we come into the struggle with diseases like asthma cystic fibrosis and sleep apnea which make us vulnerable to assaults on breathing from without and within We

have powerful weapons to defend breathing Medical science public health engineering and business all play important roles in the effort to support breathing Yet Gasping for Air also reminds readers how breathing support has been at the eye of the storm in many ethical dilemmas of modern healthcare Here Kevin Glynn an experienced pulmonologist and lifelong asthma sufferer tells stories about the third most common cause of premature deaths in the developed world describes lethal forces in Nature infections genetic predispositions and from human activities dusty occupations tobacco smoking chemical toxins drug overdoses that threaten to suffocate us and offers sage advice for how to prevent and address those threats and the damage they cause
