Firekeepers of the Twenty-First Century Cora Voyageur, 2008-03-28 A quiet revolution is occurring in Canada's First Nations communities with changes taking place on social political and economic fronts and a significant redistribution of power Changes to the Indian Act in 1951 paved the way for women to become officially involved in reserve politics and with governments responding to the demand of First Nations for self government positions once held exclusively by men are now being filled by women

Images of Justice Dorothy Eber, 1997-09-26 In a display case at the entrance to the Yellowknife courthouse are a collection of fourteen Inuit carvings that represent landmark cases in the legal history of the Northwest Territories These cases which came to trial between 1955 and 1970 and the carvings that represent them illuminate a pivotal period of social change when the Inuit camp system was eroding and age old practices and traditions were being called into question Dorothy Harley Eber tells the stories behind the carvings and provides fascinating insights into the unique situations that developed as the Inuit came in contact with Canada's justice system

while providing insights into Indigenous learning and teaching **Cold Comfort** Graham W. Rowley,1996-06-11 Rowley documents an era of arctic exploration of which little has been written and which is fast passing from living memory He captures the traditional way of life in the North before the dramatic changes of the last half century A member of the last expedition in the Canadian North to depend on traditional techniques Rowley recounts how they lived as the Inuit did and travelled by dogsled over unexplored land He describes the isolation the extraordinary vicissitudes of travel in a sometimes savage environment and the generosity and kindness of the Inuit Apart from completing the map of Baffin Island s coastline and finding new islands Rowley excavated the first pure Dorset site near Igloolik establishing the Dorset culture beyond doubt The carvings and artifacts found there illustrations of which are included in this book remain among the best and most beautiful that have been recovered Based on his own diary and the diaries of other members of the expedition Rowley s captivating story presents the perceptions of a young man faced with a completely alien yet fascinating environment and culture A true and often exciting tale of discovery Cold Comfort will appeal to a wide audience as well as to those concerned with the Arctic in general It is an invaluable source for those who specialize in the archaeology anthropology geography and history of northern Canada **Cold Comfort, Second Edition** Graham Rowley,2007-10-10 In 1936 Graham Rowley went to the still unexplored west coast of Baffin Island as the archaeologist for a small British expedition the last in the Canadian North that depended on traditional techniques Cold Comfort his acclaimed memoir of this period captures the way of life in the North before World War II including the experience of travelling by dogsled over unexplored land This new edition includes the beginning of Rowley s planned sequel covering his post war experiences in the Arctic The additional three chapters describe Operation Musk Ox the first military exercise to show that it was feasible to manoeuvre in the Arctic even in winter and Rowley s work for the Canadian Defense Research Board An afterword by Susan Rowley and John Bennett expands on Rowley s ongoing involvement in the rapid change that took place from the Cold War to the establishment of Nunavut *Return of Caribou to Ungava* A. T. Bergerud,Stuart N. Luttich,Lodewijk Camps,2007-12-19 The George River caribou herd increased from 15 000 animals in 1958 to 700 000 in 1988 the largest herd in the world at the time The authors trace the fluctuations in this caribou population back to the 1700s detail how the herd escaped extinction in the 1950s and consider current environmental threats to its survival In an examination of the life history and population biology of the herd The Return of Caribou to Ungava offers a synthesis of the basic biological traits of the caribou a new hypothesis about why they migrate and a comparison to herd populations in North America Scandinavia and Russia The authors conclude that the old maxim Nobody knows the way of the caribou is no longer valid Based on a study in which the caribou were tracked by satellite across Ungava they find that caribou are able to navigate even in unfamiliar habitats and to return to their calving ground movement that is central to the caribou s cyclical migration The Return of Caribou to Ungava also examines whether the herd can adapt to global warming and other changing environmental realities [Aki-wayn-zih](#) Eli Baxter,2021-09-15

Winner 2022 Governor General's Literary Award for English Language Nonfiction Members of Eli Baxter's generation are the last of the hunting and gathering societies living on Turtle Island. They are also among the last fluent speakers of the Anishinaabay language known as Anishinaabaymowin. *Aki wayn zih* is a story about the land and its spiritual relationship with the Anishinaabayg from the beginning of their life on Mississauga to the present day. Baxter writes about Anishinaabay life before European contact, his childhood memories of trapping, hunting, and fishing with his family on traditional lands in Treaty 9 territory, and his personal experience surviving the residential school system. Examining how Anishinaabay Kih kayn daa soh win knowledge is an elemental concept embedded in the Anishinaabay language, *Aki wayn zih* explores history, science, math, education, philosophy, law, and spiritual teachings, outlining the cultural significance of language to Anishinaabay identity. Recounting traditional Ojibway legends in their original language, fables in which moral virtues double as survival techniques, and detailed guidelines for expertly trapping or ensnaring animals, Baxter reveals how the residential school system shaped him as an individual, transformed his family, and forever disrupted his reserve community and those like it. Through spiritual teachings, historical accounts, and autobiographical anecdotes, *Aki wayn zih* offers a new form of storytelling from the Anishinaabay point of view. **Plants, People, and Places** Nancy J. Turner, 2020-08-20 For millennia, plants and their habitats have been fundamental to the lives of Indigenous Peoples as sources of food and nutrition, medicines, and technological materials, and central to ceremonial traditions, spiritual beliefs, narratives, and language. While the First Peoples of Canada and other parts of the world have developed deep cultural understandings of plants and their environments, this knowledge is often underrecognized in debates about land rights and title, reconciliation, treaty negotiations, and traditional territories. *Plants, People, and Places* argues that the time is long past due to recognize and accommodate Indigenous Peoples' relationships with plants and their ecosystems. Essays in this volume by leading voices in philosophy, Indigenous law, and environmental sustainability consider the critical importance of botanical and ecological knowledge to land rights and related legal and government policy planning and decision making in Canada, the United States, Sweden, and New Zealand. Analyzing specific cases in which Indigenous Peoples' inherent rights to the environment have been denied or restricted, this collection promotes future prosperity through more effective and just recognition of the historical use of and care for plants in Indigenous cultures. A timely book featuring Indigenous perspectives on reconciliation, environmental sustainability, and pathways toward ethnoecological restoration, *Plants, People, and Places* reveals how much there is to learn from the history of human relationships with nature. *Rediscovered Self* Ronald Niezen, 2009-05-18 Indigenous peoples' struggle for justice and selfhood in an integrating world *Talking in Context* Anne Marie Goodfellow, 2005-07-20 *Talking in Context* demonstrates the importance of cultural contact on the structure of languages and addresses the socio-cultural aspects of indigenous language use in the modern world. Goodfellow's analysis of linguistic data from three generations of Kwakwaka'wakw speakers shows that English has greatly influenced grammar and phonology. Even

though Kwak wala is being replaced by English as the language of communication Goodfellow found that speakers with varying degrees of fluency use the native language tactically to signal Kwak wala identity and for ceremony *Youth Literature for Peace Education* C. Carter, L. Pickett, 2014-10-16 Carter and Pickett explore how educators and families can teach peace education through youth literature and literacy development Showing how to assess choose and make use of literature that can be used to teach both literacy and peace education they walk through individual methods recognizing and teaching different portrayals of conflict in youth literature analyzing characterization and examining the role of illustrations Educators who want to incorporate peace education within a broader literacy focused curriculum and peace educators looking for age appropriate materials and methodologies will find *Youth Literature for Peace Education* a rich and interdisciplinary resource

Fighting for a Hand to Hold Samir Shaheen-Hussain, 2020-09-23 Launched by healthcare providers in January 2018 the aHand2Hold campaign confronted the Quebec government's practice of separating children from their families during medical evacuation airlifts which disproportionately affected remote and northern Indigenous communities Pediatric emergency physician Samir Shaheen Hussain's captivating narrative of this successful campaign which garnered unprecedented public attention and media coverage seeks to answer lingering questions about why such a cruel practice remained in place for so long In doing so it serves as an indispensable case study of contemporary medical colonialism in Quebec *Fighting for a Hand to Hold* exposes the medical establishment's role in the displacement colonization and genocide of Indigenous peoples in Canada Through meticulously gathered government documentation historical scholarship media reports public inquiries and personal testimonies Shaheen Hussain connects the draconian medevac practice with often disregarded crimes and medical violence inflicted specifically on Indigenous children This devastating history and ongoing medical colonialism prevent Indigenous

communities from attaining internationally recognized measures of health and social well being because of the pervasive systemic anti Indigenous racism that persists in the Canadian public health care system and in settler society at large Shaheen Hussain s unique perspective combines his experience as a frontline pediatrician with his long standing involvement in anti authoritarian social justice movements Sparked by the indifference and callousness of those in power this book draws on the innovative work of Indigenous scholars and activists to conclude that a broader decolonization struggle calling for reparations land reclamation and self determination for Indigenous peoples is critical to achieve reconciliation in Canada
