Arnold,2009-06-11 Distinguished scholars of bioethics and business ethics discuss justice in relation to business friendly strategies in the delivery of health care *The Narcissism of Minor Differences* Peter Baldwin,2009-11-05 There is much heated rhetoric about the widening gulf between Europe and America But are the US and Europe so different Peter Baldwin one of the world s leading historians of comparative social policy thinks not and in this bracingly argued but remarkably informed polemic he lays out how similar

the two continents really are Drawing on the latest evidence from sources such as the United Nations the World Bank IMF and other international organizations Baldwin offers a fascinating comparison of the United States and Europe looking at the latest statistics on the economy crime health care education and culture religion the environment and much more It is a book filled with surprising revelations For most categories of crime for instance America is safe and peaceful by European standards But the biggest surprise is that though there are many differences between America and Europe in almost all cases these differences are no greater than the differences among European nations Europe and the US are in fact part of a common big tent grouping America is not Sweden for sure But nor is Italy Sweden nor France nor even Germany And who says that Sweden is Europe Anymore than Vermont is America Meticulous insistent and elegant John Lloyd Financial Times A must read filled with intriguing facts that add nuance to what can often be a black and white debate Foreign Affairs An exhaustive and enthralling catalogue of our commonalities that begs a reconsideration of just what it means to be European or American Publishers Weekly
