Talk So They Can Hear Joanne Norman, 2010-12-28. On many occasions parents seem to forget about the children. Communicating divorce to children is essential for stability. Some parents may decide not to tell the children they are divorcing. Through extensive research, the decision not to tell children about divorce is a bad idea. The focus here is not only about telling children about divorce. It is how divorce is communicated to children before, during, and after the divorce. Both parents should sit down with the children and help them understand that life for them will not be the same. There will be issues centered on child custody and residency among other things. None of these issues will be comfortable for children. A great deal of research has been done. There is much more that can be done on the subject of communicating divorce to children. My hope is that future research would include children of color.

Unmasking Male Depression Archibald D. Hart, 2000-12-31. Depression is a secret pain at the core of many men's lives and one that goes largely undiagnosed and untreated. The consequences of not treating male depression are extremely serious. Studies show that suicide is more common in men than women and that the male suicide rate is three times higher at midlife than at any other life stage. In *Unmasking Male Depression*, Dr Archibald Hart explores the many forms of depression and gives tools for coping with and healing depression in men. Hart also examines the lives of Christian leaders who struggled with depression, such as Charles Spurgeon, Martin Luther, and John Calvin, to reveal the myths surrounding this illness.
