Helping African American Men Succeed In College:

Helping African American Men Succeed in College Michael J. Cuyjet, 1997-12-14 Although the actual number of African American men enrolled in the nation's colleges and universities has been increasing slightly during the 1990s both the percentage and the number are disturbingly low and small enough to be perceived as fragile. Given that frailty, higher education administrators concerned about this issue are seeking ways to nurture and retain those African American men who are successful in coming to the campus. This volume offers a look at the status of black men in the college environment and provides a number of important suggestions of ways in which higher education administrators and faculty can work together to enhance the probability that more African American men will successfully matriculate. *African American Men in College* Michael J. Cuyjet, 2006-03-17 Publisher description *Engaging African American Males in Community Colleges* Ted N. Ingram, James Coaxum, 2018-05-01 This volume dedicated to the engagement of African American males in community colleges furthers the research agenda focused on improving the educational outcomes of African American males. The theme engagement also supports the anti-deficit approach to research on African American males developed by renowned research scholars. The true success of African American males in community colleges rests on how well these institutions engage young men into their institutions. This will require community colleges to examine policies, pedagogical strategies, and institutional practices that alienate African American males and foster a culture of underachievement. The authors who have contributed to this volume all speak from the same script which proves that when African American males are properly engaged in an education that is culturally relevant, they will succeed. Therefore, this book will benefit ALL who support the education of African American males. It is our intent that this book will contribute to the growing body of knowledge that exists in this area as well as foster more inquiry into the achievement of African American males. The book offers three approaches to understanding the engagement of African American males in community college which includes empirical research, policy perspectives, and programmatic initiatives. **Advancing Black Male Student Success From Preschool Through Ph.D.** J. Luke Wood, Shaun R. Harper, 2023-07-03 *Advancing Black Male Student Success* presents a comprehensive portrait of Black male students at every stage in the U.S. education system: preschool and kindergarten, elementary, middle, and high schools, community colleges, and four-year postsecondary institutions, and master's and doctoral programs. Each chapter is a synthesis of existing research on experience, educational outcomes, and persistent inequities at each pipeline point. Throughout the book, data are included to provide statistical portraits of the status of Black boys and men. Authors include in each chapter forward-thinking recommendations for education policy, research, and practice. Minority Student Retention Alan Seidman, 2019-05-23 Student retention continues to be a vexing problem for all colleges and universities In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals and graduate the figures have not improved over time This is particularly true for minority students who have a greater attrition rate than majority students Demographic information shows that the minority population in the United States is growing at a faster rate than the majority It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students Retention rates should not differ appreciably among different racial ethnic groups *The Journal of College Student Retention Research Theory and Practice* is the only scholarly peer reviewed journal devoted solely to college student retention It has published many articles on minority student retention and this topic continues to garner much attention This book is a compilation of the very best of these articles selected on the basis of reviews by a cadre of experts in the education field The articles discuss African

Retaining African Americans in Higher Education Lee Jones, 2023-07-21 Retention of African Americans on campus is a burning issue for the black community and a moral and financial one for predominantly white institutions of higher education This book offers fresh insights and new strategies developed by fifteen scholars concerned by the new climate in which affirmative action is being challenged and eliminated This is the first book devoted specifically to retention of African Americans in higher education and is unique in addressing the distinct but inter related concerns of all three affected constituencies students faculty and administrators Each is considered in a separate section The student section shifts attention from to paraphrase McNairy fixing the student to focussing on higher education s need to examine and where appropriate revise policies curriculum support services and campus climate Responding to the new agenda shaped by the opponents of affirmative action but rejecting the defensive x percent solutions espoused by its proponents this book puts forward new solutions that will provoke debate Section II begins with a survey of the literature on African American administrators and presents a Delphi study of twelve administrators to provide an understanding of pathways and barriers to success The contributors then consider the importance of developing community support and creating alliances the role of mentoring and the setting of clear expectations between the individual and the institution Starting with the recognition that African Americans represent less than five percent of full time faculty the chapters in the final section examine the effects of the dismantling of affirmative action the consequences of faculty salaries trailing more lucrative non academic employment the declining enrollment of students of color the politics of promotion and tenure and

issues of identity and culture The book concludes by stressing the roles that parents faculty and administrators must play to empower African American students to take responsibility for their own academic performance This is a compelling controversial and constructive contribution to an issue of national importance
