At the Service of the Church Henri de Lubac, 1993 This book includes essays notes and reviews reflecting the fundamental ideas and key writings of Henri de Lubac one of the greatest theologians of the twentieth century In these pages Cardinal de Lubac explains the origin meaning and fate of his works in the context of his life studies personal relationships as well as his legendary exiles and his later vindication At the Service of the Church provides crucial insights into the work of a man who profoundly shaped the Church including the teaching of the Second Vatican Council No student of contemporary theology can afford to neglect de Lubac's work and this book gives readers a unique perspective on that work This volume is also an important source for understanding the renewed theological debates regarding nature and grace the natural desire for God and the authentic interpretation of St Thomas Aquinas *Henri de Lubac* Henri de Lubac, 1972 *Henri de Lubac*, S.J. Henri de Lubac, 1972 **Corpus Mysticum** Henri Cardinal de Lubac S.J., 2007-09-01 One of the major figures of twentieth century Catholic theology Henri Cardinal de Lubac was known for his attention to the doctrine of the church and its life within the contemporary world In *Corpus Mysticum* de Lubac investigates a particular understanding of the relation of the church to the eucharist He sets out the nature of the church as communion a doctrine that influenced the thinking of the Second Vatican Council With the publication of *Corpus Mysticum* this important text of contemporary Catholic ecclesiology and sacramental theology is available for the first time in an English translation Its publication fills a significant gap in the range of de Lubac's works available to English speaking scholars It will be an important resource in the widespread and ongoing ecumenical discussions among Catholic Protestant and Orthodox theologians *The Church* Henri De Lubac, 2022-02-21 The Church a body so diverse so manifold often so divided that one struggles to define her to see her face If I seek a glimpse of her where will I find her asks theologian Henri de Lubac S.J. In these reflections written at the end of Vatican II de Lubac who played a key role at the Council yet was leery of rapid reform searches out the wrinkled mysterious beauty of the Church he loves as his mother The Catholic Church is such a paradox a unity of opposites that many are scandalized a fact from which de Lubac does not shrink I am told that she is holy yet I see her full of sinners I am assured that she is universal yet so often I note that her members as if by fate huddle timidly together in closed enclaves just like human beings everywhere But her distinctive beauty when he beholds it leaves him floored this beauty most rare most improbable most disconcerting not the complete achievement of human perfection but a strange and supernatural beauty opening unknown vistas to me These seven brief studies on the mystery of Christ's Church illuminate the documents of Vatican II and offer nourishment and clarity to those confused by turbulence or hypocrisy among Christians De Lubac who was made a Cardinal by Pope John Paul II before his death in 1991 reflects deeply on the nature of authentic holiness in the modern world and argues that sainthood is not only possible but already through the work of the Holy Spirit quite alive amidst all the storms whether in his time or in ours Theology in History Henri de Lubac, 1996-01-01 The unique insight

and impressive scholarship of the eminent French theologian Cardinal Henri de Lubac are clearly evident in this volume of collected articles and essays. An article of great timeliness on the priesthood according to St John Chrysostom as well as an important study of the long debate over the salvation of Origen are among the texts included in the first section devoted to patristics and Christian humanism. The second section comprised entirely of an unpublished work on tripartite anthropology tracing the body-soul-spirit distinction from St Paul, the patristic tradition, St Augustine and St Thomas Aquinas up to the modern period will prove an invaluable guide for further study and reflection. The section concludes with a beautiful text entitled *The Light of Christ*, a prayerful meditation written during the dark hours of Nazi domination. Section three deals with disputed theological questions such as the internal causes of the disappearance of the sense of the sacred, the mystery of the supernatural and the development of dogma. He also has a section on Christian resistance to Nazism and anti-Semitism as well as two sections on the thought and writings of several important modern spiritual writers.

The Splendor of the Church Henri De Lubac, 2013-03-25. Considered by many the bright jewel among the many enriching books of Cardinal Henri de Lubac, this work is a hymn to the beauty of the Church under some of whose leaders for a time he unjustly suffered. *The Splendor of the Church* is in a sense a personal testimony of the great theologian's humility and love of the Church of Christ. It is also a classic work in the theology of the Church. Indeed, de Lubac's profound insights significantly contributed to Vatican II's Dogmatic Constitution on the Church, *Lumen Gentium*, especially in its treatment on the Church as mystery and as the Sacrament of Christ. Chapters: I The Church as Mystery II The Dimensions of the Mystery III The Two Aspects of the Church IV The Heart of the Church V The Church in the World VI The Sacrament of Christ VII *Ecclesia Mater* VIII Our Temptations concerning the Church IX The Church and Our Lady.

Paradoxes of Faith Henri de Lubac, 1987. A collection of aphorisms and reflections that are the fruit of de Lubac's study over the course of his life on the themes of Christianity. They are spiritual aphorisms and meditative reflections that express the freshness and tensions of the spiritual life.

Vatican Council Notebooks Henri de Lubac, 2015-05-05. Surprising news! With these words Fr Henri de Lubac S.J., whose orthodoxy had been so vigorously attacked, responded to the announcement of his selection to participate in the 2nd Vatican Council. His participation as a theologian and expert would make a lasting impact on the Council and his insights and comments are recorded in this long-awaited volume. These Notebooks trace the two years of preparation, the four conciliar sessions and the three periods between sessions. They give us the opportunity to assist at the discussion of the schemas, initial drafts of conciliar texts but also during the meetings of the theological commission and the sub-commissions at the elaboration and correction of the texts submitted to the Council fathers. The eminent theologian de Lubac is a sure guide for the reader, introducing us to the theological ferment of the Council and helping us to grasp what was at stake in the often animated debates. De Lubac does not hesitate to express clearly what he thinks of the theologians around him, of the new concepts appearing because of the Council or of the

problems he judges to be most serious for the Christian faith These Notebooks invite us to a greater historical and theological understanding of the Council Besides information about the numerous aspects of the conciliar assembly what makes the testimony of these notebooks so captivating is the strongly rendered presence of men and their psychology De Lubac excels in sketching the portrait of the participants with only a few words Among the many interesting encounters he tells of deepening his acquaintance with Josef Ratzinger whom he describes as a theologian as peaceable and kindly as he is competent In the same way during the long discussion over the drafting of the constitution *Gaudium et Spes* he observed the assertiveness of Karol Wojtya whose interventions struck him because of the seriousness the rigor and the solidity of his faith which created in him a lively sense of spiritual friendship which was reciprocated

Medieval Exegesis, Vol. 3 Henri de Lubac, 1998 Originally published in French as *Exegese medievale* Henri de Lubac's monumental multivolume study of medieval exegesis and theology has remained one of the most significant works of modern biblical studies Examining the prominent commentators of the Middle Ages and their texts de Lubac elucidates the medieval approach to biblical interpretation that sought the four senses of Scripture especially the dominant practice of attempting to uncover Scripture's allegorical meaning

Theologians Today, 1972 *The Motherhood of the Church* Henri de Lubac, 1982 Priests are called Father and the Church is called Mother Our Holy Mother the Church is a traditional way of speaking among Catholics But are these outdated sentimental expressions Or do they express a deep insight into the nature of the Church as a whole and of ordained ministry in relation to the Church Is there a genuine theological meaning to the traditional reference to the Church as she Henri de Lubac addresses such questions with his usual profound erudition He deeply mines the Christian tradition in examining the Motherhood of the Church Focusing on the Church's Motherhood allows this great theologian to unite two profound truths the Church is the Bride of Christ and the Church is Christ's Mystical Body As de Lubac shows the Church cannot be rightly considered apart from Christ and his saving work both of which should be understood in light of the mystery of the Church's maternity

A Brief Catechesis on Nature and Grace Henri de Lubac, 1984 The great twentieth century theologian Henri de Lubac sought in this work to clarify the relationship between nature and grace a relationship he thought had been greatly misunderstood by certain theologians De Lubac's insights revolutionized the modern discussion of nature and grace and they influenced thinkers such as John Paul II and Benedict XVI as well as Hans Urs von Balthasar This book written after the Second Vatican Council and toward the end of de Lubac's long life summarizes and extends key ideas he sought to recover from the classical sources of early and medieval Christianity Confronted with distortions of Christian teaching de Lubac repudiates on the one hand the extreme of radically opposing nature and grace as if grace were entirely alien to nature and on the other hand the extreme of radically confusing them A Brief Catechesis on Nature and Grace also contains appendices including de Lubac's famous *The Council and the Parachurch* in which he examines widespread misinterpretations of the Second Vatican Council

 are regarded by Thomas Aquinas as the culmination of philosophy natural theology the highest knowledge of God that is
 possible on philosophical grounds alone The natural home for such considerations is the *Metaphysics* of Aristotle and Thomas
 s commentary on that work Yet Thomas s view has been cast into doubt with philosophers and theologians alike attempting
 to drive a wedge between Aquinas and Aristotle In this book renowned philosopher Ralph McInerny sets out to review what
 Thomas meant by the phrase and to defend a robust understanding of Thomas s teaching on the subject After setting forth
 different attitudes toward proofs of God s existence and outlining the difference between belief and knowledge McInerny
 examines the texts in which Thomas uses and explains the phrase preambles of faith He then turns his attention to the work
 of eminent twentieth century Thomists and chronicles their abandonment of the preambles He draws a contrast between this
 form of Thomism and that of the classical Dominican commentators notably Cajetan arguing that part of the abandonment of
 the notion of the preambles as philosophical involves a misreading and misrepresentation of Cajetan McInerny concludes
 with a positive rereading of Aristotle s *Metaphysics* and Aquinas s use thereof In the end the book argues for a return to the
 notion of Aristotelico Thomism Thomistic philosophy as the organic development of the thought of Aristotle Publisher s

An Introduction to Vatican II as an Ongoing Theological Event Matthew Levering, 2017 Contemporary scholars often refer to the event of Vatican II but what kind of an event was it In this first book of the new CUA Press series *Sacra Doctrina* Matthew Levering leads his readers to see the Council as a theological event a period of confirming and continuing God's self revelation in Christ into a new historical era for the Church This is an introduction to Vatican II with a detailed summary of each of its four central documents the dogmatic constitutions followed by explanations of how to interpret them In contrast to other introductions which pay little attention to the theological soil in which the documents of Vatican II germinated Levering offers a reading of each conciliar Constitution in light of a key theological author from the era Ren Latourelle SJ for *Dei Verbum* persons and propositions Louis Bouyer CO for *Sacrosanctum Concilium* active participation Yves Congar OP for *Lumen Gentium* true and false reform and Henri de Lubac SJ for *Gaudium et Spes* nature and grace This theological event is ongoing Levering demonstrates by tracing in each chapter the theological debates that have stretched from the close of the council till the present and the difficulties the Church continues to encounter in encouraging an ever deeper participation in Jesus Christ on the part of all believers In this light the book's final chapter compares the historicist Massimo Faggioli and Christological Robert Imbelli interpretations of Vatican II arguing that historicism can undermine the Council's fundamental desire for a reform and renewal rooted in Christ The conclusion addresses the concerns about secularization and loss of faith raised after the Council by Henri de Lubac Joseph Ratzinger and Yves Congar arguing that contemporary Vatican II scholarship needs to take these concerns more seriously

The Splendor of the Church in Mary Theresa Marie Chau Nguyen (Sr.), 2023 Henri de Lubac SJ 1896 1991 is one of the most renowned theologians of the twentieth century Numerous studies have been undertaken to examine his many contributions to theology but little attention

has been paid to the specific topic of the relationship of the Blessed Virgin Mary and the Church in his writings. This was a topic that gave rise to contentious discussion at the Second Vatican Council and although the Council fathers approved the integration of Marian doctrine into the Dogmatic Constitution on the Church, this synthesis of Mariology and ecclesiology has been largely neglected in theology today. *The Splendor of the Church in Mary* retrieves de Lubac's Marian ecclesiology and revives an understanding and appreciation of its enduring influence at the Vatican Council and beyond. The first part examines de Lubac's pre-conciliar works which evince a steady biblical and patristic ressourcement of Marian themes. It also explores his writings on Teilhard de Chardin's Eternal Feminine, Christian mysticism and Amida Buddhism and discovers in them the essential building blocks of his Marian thought. The second part turns to the Second Vatican Council and post-conciliar developments. Rereading the debates and texts of *Lumen Gentium* through a Marian lens brings to light the extent of de Lubac's influence. *Méditation sur l'Eglise* (1953) his principal work on Mary and the Church anticipated the structure and content of *Lumen Gentium* a decade before the Council. De Lubac's writings provided a theological compass for the Council fathers and they continue to provide direction and orientation for ecclesiological discourse today. *The Splendor of the Church in Mary* culminates in a constructive analysis of one of the most pressing pastoral and ecclesiological questions of our times: the question of the relationship of the universal and particular churches. Directly engaging the crucial debate between then Cardinal Ratzinger and Cardinal Kasper, it proposes that de Lubac's Mariology effectively offers a new perspective and a refreshing path forward. Attentive to the mystical identification of Mary and the Church, de Lubac's ressourcement has the potential to re-enchant and advance contemporary theology in new and significant ways.
