Treating Endocrine and Metabolic Disorders With Herbal Medicines Hussain, Arif, Behl, Shalini, 2020-12-11 The utilization of herbal medicine to treat endocrine and metabolic disorders has garnered much attention within the past few decades Specifically the popularity of using dietary supplements for the management of chronic disorders has drastically increased with a wide variety of these products available over the counter They represent an attractive adjuvant to traditional therapy for their lower toxicity and their easy accessibility The identification of such dietary compounds has prompted researchers to explore the vast array of their beneficial effects However despite their widespread use there is still limited data on the safety and efficacy of the products currently on the market Current research on the side effects and safe usage of herbal medicines is necessary for providing optimal care and counseling for patients Treating Endocrine and Metabolic Disorders With Herbal Medicines is a comprehensive reference book focused on spreading awareness on the safety potential harmful effects and rational use of herbal medicines The chapters within explore and provide insight on the effectiveness versatility and side effects of various herbal medicines across a range of different diseases and conditions While highlighting herbal medicine in areas such as diabetes cancer infertility and endocrine disorders this publication is ideally intended for clinical practitioners pharmaceutical scientists doctors practitioners stakeholders researchers academicians and students interested in enhancing their knowledge and awareness in the field of complementary medicine

Herbal Medicine Phytochemistry Sylvester Chibueze Izah, Matthew Chidozie Ogwu, Muhammad Akram, 2024-07-09 This book offers a comprehensive perspective of herbal medicine phytochemistry and explores the application of plant extracts as bioactive compounds in disease prevention and treatment in modern or traditional medicine The book starts with an introduction to the history and value of herbal medicine followed by 3 parts covering the main phytochemical components and metabolites in herbal medicine different uses and practices in herbal medicine including a region wise analysis of methods and practices and an overview of regulations and policies for herbal medicinal practitioners and the advances and challenges in quality assessment of herbal medicine Plants generally have the tendency to

bioaccumulate trace metals from the environment and they are easily contaminated by microorganisms from water sources and poor hygiene practices of the herbalist. Quality assessment and assurance is thus a pertinent challenge in herbal medicine practice i.e. in remedy formulation and application and this book offers an authoritative perspective on this topic covering aspects such as quality control strategies, preparation techniques, chemical quantification in phytomedicine and the efficacy and safety of herbal remedies. Moreover, in this book, readers will find valuable insights into the latest trends and developments in the field and a critical review of the application of medicinal plants to treat cardiovascular, digestive, respiratory, neurological and reproductive diseases. Particular attention is given to the advances and trends in the field and readers will learn about the latest biotechnological approaches, the use of nanotechnology in herbal medicine, metabolomic analysis of medicinal plants, big data application in herbal medicine and the value of herbal medicine towards sustainability. Given its breadth, this book is aimed at researchers, academics, practitioners and professionals working in the fields of natural life health, clinical and biomedical sciences and interested in herbal remedies, pharmacology, pharmacognosy, human nutrition and dietetics, plant biology and biotechnology, microbiology.
