Literature And Negation:

Literature and Negation Maire Jaanus, Maire J. Kurrik, 1988-05-16 Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940 President Franklin Roosevelt ominously warned that we know of other methods new methods of attack The Trojan horse The fifth column that betrays a nation unprepared for treachery Spies saboteurs and traitors are the actors in this new strategy Having identified a new type of war a shadow war being perpetrated by Hitler's Germany FDR decided to fight fire with fire authorizing the formation of the Office of Strategic Services OSS to organize and oversee covert operations Based on an extensive analysis of OSS records including the vast trove of records released by the CIA in the 1980s and 90s as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997 The Shadow War Against Hitler is the full story of America's far flung secret intelligence apparatus during World War II In addition to its responsibilities generating processing and interpreting intelligence information the OSS orchestrated all manner of dark operations including extending feelers to anti Hitler elements infiltrating spies and sabotage agents behind enemy lines and implementing propaganda programs Planned and directed from Washington the anti Hitler campaign was largely conducted in Europe especially through the OSS's foreign outposts in Bern and London A fascinating cast of characters made the OSS run William J Donovan one of the most decorated individuals in the American military who became the driving force behind the OSS's genesis Allen Dulles the future CIA chief who ran the Bern office which he called the big window onto the fascist world a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services and not least Roosevelt himself A major contribution of the book is the story of how FDR employed Hitler's former propaganda chief Ernst Putzi Hanfstaengl as a private spy More than a record of dramatic incidents and daring personalities this book adds significantly to our understanding of how the United States fought World War II It demonstrates that the extent and limitations of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows Negation, Text Worlds, and Discourse

Laura Hidalgo-Downing, 2000-05 This work originates from the need to develop an integrated dynamic model of negation in discourse that is adequate for understanding the role of negation in an extensive and complex piece of discourse Most work on negation is strongly influenced by traditional philosophical problems but little work has been carried out in the area of discourse Approaches to negation within the functional cognitive tradition tend to focus on specific agents of negation its function as a speech act or its cognitive model Few attempts have been made to propose an integrated discourse model studies of negation with few exceptions tend to be limited to brief selections or isolated sentences This book fills the gap in studies of negation in discourse by providing an up to date critical review of the state of the art in negation and by proposing a model that brings together the semantic cognitive and pragmatic features of negation which are crucial for an understanding of its role in discourse **Negation and Polarity** Laurence R. Horn, Yasuhiko Kato, 2000-08-03 Negation is a

central feature of language and cognition interacting with all areas of grammar as well as with the philosophy of language Whereas there is a cross linguistic uniformity in logical and semantic aspects of negation there is a diversity of syntactic and morphological forms and rules This asymmetry in function and form poses problems for syntactic and universal grammar theory and for the study of the interface between syntax and discourse It is particularly evident in negative polarity words and phrases which can appear only in negative sentences The exploration of negation and negative polarity phenomena and their implications for linguistic theory are the main themes of this book

The Morphosyntax of Negative Markers

Karen De Clercq, 2020-06-08 This book applies the tools of nanosyntax to the natural language phenomenon of negation Most work on negation is concerned with the study of sentence negation while low scope negation or constituent negation is hardly ever systematically discussed in the literature The present book aims to fill that gap by investigating scopally different negative markers in a sample of 23 typologically diverse languages A four way classification of negative markers is argued for and it is shown how meaningful syncretism patterns arise across those four groups of negative markers in the language sample investigated The syncretisms are meaningful in that they track the natural semantic scope of negation and provide support to the idea that morphology is not arbitrary but points to submorphemic structure Consequently this study leads to a decomposition of the negative morpheme into five privative features Tense Focus Classification Quantity and Negation proper Finally the book argues that sentence constituent and lexical negation can all be treated in the same module of the grammar i e syntax

The systemic and empirical approach to literature and culture as theory and application

Steven Tötösy de Zepetnek, Irene Sywenky, University of Alberta. Research Institute for Comparative Literature and Cross-Cultural Studies, 1997

Literature, Philosophy, Nihilism Shane Weller, 2008-09-11 This book charts the history of the concept of nihilism in some of the most important philosophers and literary theorists of the modern and postmodern periods including Heidegger Adorno Blanchot Derrida and Vattimo Weller offers the first in depth analysis of nihilism s key role in the thinking of the aesthetic since Nietzsche

Modern German Literature Michael Minden, 2011-03-28 Beginning with the emergence of German language literature on the international stage in the mid eighteenth century the book plays down conventional labels and periodization of German literary history in favour of the explanatory force of international cultural impact It explains for instance how specifically German and Austrian conditions shaped major contributions to European literary culture such as Romanticism and the language scepticism of the early twentieth century

Amputation in Literature and Film Erik Grayson, Maren Scheurer, 2021-08-10 Amputation in Literature and Film Artificial Limbs Prosthetic Relations and the Semiotics of Loss explores the many ways in which literature and film have engaged with the subject of amputation The scholars featured in this volume draw upon a wide variety of texts both lesser known and canonical across historical periods and language traditions to interrogate the intersections of disability studies with social political cultural and philosophical concerns Whether focusing on ancient texts by Zhuangzi or Ovid renaissance drama folktales collected by the

Brothers Grimm novels or silent film the chapters in this volume highlight the dialectics of loss and gain in narratives of amputation to encourage critical dialogue and forge an integrated embodied understanding of experiences of impairment in which mind and body metaphor and materiality theory and politics are considered as interrelated and interacting aspects of disability and ability *Library of Congress Subject Headings* Library of Congress, Library of Congress. The Aesthetics of Failure Marcin Tereszewski, 2014-01-03 Although Beckett scholarship has in recent decades experienced a renaissance as a result of various poststructuralist approaches that tend to emphasize destabilization and inexpressibility as the defining features of Beckett's output relatively little attention has been paid to the ethical aspects of his aesthetics of failure This book fits into that renaissance but draws on a distinct though rarely addressed connection that Samuel Beckett's work shares with that of Maurice Blanchot and Emmanuel Levinas It is within this philosophical context that the significance of Beckett's aesthetics of failure becomes most visible Beckett's work can be described as one of gradual reduction and disintegration of language a stripping away of the tools rendering expression at all possible for the sake of approaching the inexpressible Traditional representation yields to silence and linguistic aporia language yields to images of absence and emptiness The primary purpose of this study is to trace this movement of unwording and analyze the role inexpressibility plays in Beckett's prose in its visual linguistic and ethical manifestations as the aesthetics of inexpressibility is intrinsically bound with the ethical responsibility of literature understood as maintaining a relation with alterity

Death and Responsibility Dennis King Keenan, 1999-02-25 The work of Levinas has for the most part been too easily read Levinas's use of words like responsibility and God gives some readers reason to dismiss his work as insufficiently attentive to the whispered suspicions of our times while giving others reason to accept his work as a clarion call guiding them out of this wilderness of disorienting whispers Richly informed by readings of Heidegger Derrida and Blanchot Keenan argues that the notion of responsibility at the heart of Levinas's notion of ethics is intimately dependent upon his account of death

Blanchot Leslie Hill, 2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought Although Blanchot's work is characterised by a fragmentary and complex style Leslie Hill introduces clearly and accessibly the key themes in his work He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot's later work and considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work Placing Blanchot at the centre stage of writing in the twentieth century Blanchot also sheds new light on Blanchot's political activities before and after the Second World War This accessible introduction to Blanchot's thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years *Blanchot, Extreme Contemporary* Leslie

Hill,1997 Placing Blanchot at the centre stage of writing in the twentieth century Maurice Blanchot *Extreme Contemporary* sheds new light on Blanchot's political activities before and after the Second World War Negation, Critical Theory, and Postmodern Textuality D. Fischlin,2013-06-29 *Negation Critical Theory and Postmodern Textuality* features 14 new essays by leading specialists in critical theory comparative literature philosophy and English literature The essays which present wide ranging historical considerations of negation in light of recent developments in poststructuralism and postmodernism range over many of the significant texts in which negation figures prominently The book includes a wide ranging introductory chapter that examines how attention to negation the inescapable nescience that is posited in any and every linguistic expression enhances the hermeneutic possibilities present in language In addition the four sections of the book bring together major critical interventions on among others negative meaning unrecognizability elenctic negation apocalypse nihilism negation and gender and denegation All the essays involve close attention to key texts by major authors including William Shakespeare Henry James Federico Garc a Lorca Samuel Beckett Thomas Bernhard Walt Whitman E M Forster Mary Shelley Margaret Atwood Roland Barthes Douglas Barbour Paul de Man bp Nichol Jacques Derrida and Dogen Kigen The volume opens up new areas in critical theory comparative literature and the philosophy of language and defines a major new area of inquiry in relation to notions of postmodern textuality Critical theorists students of comparative literature English literature and the history of ideas and those interested in the hermeneutic implications of postmodernism will find this volume of substantial interest Its extensive bibliographical apparatus and index make the collection a valuable reference tool for upper level undergraduate and graduate students as well as for those seeking a variety of interpretive approaches to the problem of negation in literature **Anna Karenin** graf Leo Tolstoy,1901 **Anna Karenina** graf Leo Tolstoy,1901
