Literature Rhetoric Metaphysics:

Literature, Rhetoric, Metaphysics James Kirwan, 1990-01-01 *Metaphysics as Rhetoric* Joshua Parens, 2016-02-24 The most widely accepted view in the West today particularly among postmodernists is that Plato attempted to ground politics on a rational metaphysics and initiated the tradition of foundationalism that has given rise to systems of oppression ranging from racism sexism and ethnocentrism to the technological mastery of the earth Metaphysics as Rhetoric controverts this view arguing that Plato was not the originator of this metaphysical tradition Using as a basis the tenth century Muslim philosopher Alfarabi s interpretation of Plato especially his Summary of Plato s Laws Parens shows that what appears to be Plato s metaphysics was intended as a rhetorical defense of his politics Parens demonstrates that rather than seek to establish politics on the definitive metaphysical ground Alfarabi s Plato analyzes politics on its own terms phenomenologically

From Physics to Metaphysics: Philosophy and Allegory in the Critical Writings of T. S. Eliot Fabio L.

Vericat, Fabio L. Vericat Pérez-Mínguez, 2004 Antes de dedicarse por completo a la literatura T S Eliot fue un serio estudiante de filosofía Este estudio pretende determinar la importancia de este hecho en su desarrollo como crítico literario La intención es argumentar que el cambio que Eliot hizo de la filosofía a la literatura fue instigado con la esperanza de encontrar en el campo literario un estilo que había vencido durante sus estudios filosóficos

Rhetoric, Sophistry, Pragmatism Steven Mailloux, 1995-05-18 The anti sceptical relativism and self conscious rhetoric of the pragmatist tradition which began with the Older Sophists of Ancient Greece and developed through an American tradition including William James and John Dewey has attracted new attention in the context of late twentieth century postmodernist thought At the same time there has been a more general renewal of interest across a wide range of humanistic and social science disciplines in rhetoric itself language use writing and speaking persuasion figurative language and the effect of texts This book written by leading scholars explores the various ways in which rhetoric sophistry and pragmatism overlap in their current theoretical and political implications and demonstrates how they contribute both to a rethinking of the human sciences within the academy and to larger debates over cultural politics

Reading Iris Murdoch's Metaphysics as a Guide to Morals Nora Hämäläinen, Gillian Dooley, 2019-06-01 Metaphysics as a Guide to Morals was Iris Murdoch s major philosophical testament and a highly original and ambitious attempt to talk about our time Yet in the scholarship on her philosophical work thus far it has often been left in the shade of her earlier work This volume brings together 16 scholars who offer accessible readings of chapters and themes in the book connecting them to Murdoch s larger oeuvre as well as to central themes in 20th century and contemporary thought The essays bring forth the strength originality and continuing relevance of Murdoch s late thought addressing among other matters her thinking about the Good the role and nature of metaphysics in the contemporary world the roles of art in human understanding questions of unity and plurality in thinking the possibilities of spiritual life without God and questions of style and sensibility in intellectual work

From Metaphysics to Rhetoric Michel Meyer, 2012-12-06 by the

question in its being an answer if only in a circumstantial i.e. inessential manner One indeed must question oneself in order to remember says Plato but the dialectic which would be scientific must be something else even if it remains a play of question and answer This contradiction did not escape Aristotle he split the scientific from the dialectic and logic from argumentation whose respective theories he was led to conceive in order to clearly define their boundaries and specificities As for Plato he found in the famous theory of Ideas what he sought in order to justify knowledge as that which is supposed to hold its truth only from itself What do Ideas mean within the framework of our approach In what consists the passage from rhetoric to ontology which leads to the denaturation of argumentation When Socrates asked for example What is virtue he thought one could not answer such a question because the answer refers to a single proposition a single truth whereas the formulation of the question itself does not indicate this unicity For any answer another can be given and thus continuously if necessary until eventually one will come across an incompatibility Now to a question as to what X Y or Z is one can answer in many ways and nothing in the question itself prohibits multiplicity Virtue is courage is justice and so on

The Direction of Literary Theory S. Earnshaw, 1996-10-25 An initial proposition is made that literary theory is divided into two broad antithetical camps one where the focus is purely textual the other where the focus is on context Section One is devoted to resolving this central dichotomy by examining issues that are highly contentious within literary theory the author intention value postmodernism and history Section Two critiques theory as a whole within the arts and discusses its possible existence in this non rational environment It articulates a number of possible responses with consequences for future research and education

God and the Universe Arthur Gibson, 2013-10-11 Ambitious controversial and absorbing God and the Universe tackles the highly charged issue of God's relevance in the light of new scientific thinking on cosmology Engaging with poststructuralism ethics mathematics and philosophy through the ages this persuasively argued book reinvigorates religious debate for the new millennium

Deconstruction Christopher Norris, 2003-12-16 Deconstruction Theory and Practice has been acclaimed as by far the most readable concise and authoritative guide to this topic Without oversimplifying or glossing over the challenges Norris makes deconstruction more accessible to the reader The volume focuses on the works of Jacques Derrida which caused this seismic shift in critical thought as well as the work of North American critics Paul de Man Geoffrey Hartman J Hillis Miller and Harold Bloom In this third revised edition Norris builds on his 1991 Afterword with an entirely new Postscript reflecting upon recent critical debate The Postscript includes an extensive list of recommended reading complementing what was already one of the most useful bibliographies available

The Aesthetic in Kant James Kirwan, 2006-03-24 Kant's Critique of the Power of Judgment is widely held to be the seminal work of modern aesthetics In recent years it has been the focus of intense interest and debate not only in philosophy but also in literary theory and all disciplines concerned with the aesthetic The Aesthetic in Kant is a new reading of Kant's problematic text It draws upon the great volume of recent philosophical work on this classic text and

on the context of eighteenth century aesthetics Kant's work is used as a basis on which to construct a radical alternative to the antinomy of taste the basic problem of the aesthetic In Kant's account is a theory of the aesthetic that far from establishing its disinterested nature instead makes it symptomatic of what Kant himself describes as the ineradicable human tendency to entertain fantastic desires From Virgin Land to Disney World ,2016-08-22 With the publication in English in 1930 of *Civilization and its Discontents* and its thesis that instinct and ultimately nature had been and must be forever subordinated in order that civilization might thrive and endure Freud contributed what some contemporaries saw to the central debate of his era a debate which had long preoccupied both official American pundits and the American populace at large At the beginning of the new Millennium evidence abounds that an American debate still rages over the meaning of nature the rightful weight of instinct and the status of civilization The Millennium itself has appeared in popular and official discourses as an appropriate marker of an age in which nature is close to the edge of radical extinction and has also become more and more unreliable as a paradigm for representation and debate At the same time the contemporary tailoring of nature to postmodern needs and expectations inevitably reveals the conceptual difficulty of any possible simple opposition between nature and culture as if they were clearly distinguishable domains If nature then can clearly be seen as a discursive concept it may also be a timeless concept insofar that it has been shaped created and used at all times Every epoch age and era had its own nature with myth history and ideology as its dominant shaping forces From the Frontier to Cyberia nature has been suffering the agony of the real resurfacing in discursive strategies and demonstrating a powerful impact on American society culture and self definition The essays in this collection speak critically of the natural and examine the American debate in the many guises it has assumed over the last century within the context of major critical approaches psychoanalytical concepts and postmodern theorizing Imperfectionist Aesthetics in Art and Everyday Life Peter Cheyne,2022-12-30 This book presents interdisciplinary research on the aesthetics of perfection and imperfection Broadening this growing field it connects the aesthetics of imperfection with issues in areas including philosophy music literature urban environment architecture art theory and cultural studies The contributors to this volume argue that imperfection has value in being open and inclusive The aesthetics of imperfection is typified by organic unpolished production and the avoidance of perfect finish instead representing living and natural change and opposing the consumerist concern with the flawless and pristine The chapters are divided into seven thematic sections After the first section on imperfection across the arts and culture the next three parts are on imperfection in the arts of music visual and theatrical arts and literature The second half of this book then moves to categories in everyday life and branches this further into body self and the person and urban environments Together the chapters promote a positive ethos of imperfection that furthers individual and social engagement and supports creativity over mere passivity *Imperfectionist Aesthetics in Art and Everyday Life* will appeal to a broad range of scholars and advanced students working in philosophical aesthetics literature music

urban environment architecture art theory and cultural studies *Keywords in Western Literary Criticism and Contemporary China* Yamin Hu, 2020-07-16 Since the reform and opening up of China in 1978 Western literary criticism has begun to flourish and gain in popularity within the country's academic literature community These two volumes meticulously select and examine nine of the most influential keywords from Western literary theory while identifying the intricate historical sources of these terms and analyzing their relevance to other disciplines and ideas The result shows how these words function as heterogeneous cultural contexts in the complexity of experience but also how they function within the context of Chinese culture as well as Chinese literature and criticism In this volume the editors focus on metaphor the other ideology and the body from the perspectives of etymology documentation meanings and other core factors Students of literature and languages and especially Chinese literature will benefit from this two volume set The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Beauty James Kirwan, 1999 This is a pathbreaking comparative and trans national study of the neglected influences of nation empire and race upon the development and electoral fortunes of the Labour Party in Britain and the Australian Labor Party from their formative years of the 1900s to the elections of 2010 Based upon extensive primary and secondary source based research in Britain and Australia over several years it makes a new and original contribution to the fields of labour imperial and British world history The book offers the challenging conclusion that the forces of nation empire and race exerted much greater influence upon Labour politics in both countries than suggested by traditionalists and revisionists alike The book will appeal to undergraduates postgraduates scholars in history and politics and all those interested in and concerned with the past present and future of Labour politics in Britain Australia and more generally

A History of Higher Education in Canada 1663-1960 Robin S. Harris, 1976-12-15 This book traces the development of higher education in Canada through a detailed description and analysis of what was being taught and of the research opportunities available to professors in the years from 1860 to 1960 Background is provided in the opening chapters of Part I which outline the origins of post secondary education in both French and English Canada from 1635 to 1860 and in the parallel chapters of Parts II to V which describe the establishment of new and the growth of existing institutions during the period 1861-90 1891-1920 1921-40 and 1941-60 The remaining chapters of each of the book's main divisions present an examination of the curricula in arts and science professional education and graduate studies in 1860 1890 1920 1940 and 1960 as well as the conditions pertaining to scholarship and research in these years The concluding chapter identifies the characteristics which differentiate Canadian higher education from that of other countries The book includes a full bibliography an extensive index and statistical appendices providing data on enrolment and degrees granted A History of Higher Education in Canada 1663-1960 will be the definitive work in its field valuable both for the wealth of information and the historical insights it contains

Rhetoric's Pragmatism Steven Mailloux, 2017-04-27 For over thirty

years Steven Mailloux has championed and advanced the field of rhetorical hermeneutics a historically and theoretically informed approach to textual interpretation This volume collects fourteen of his most recent influential essays on the methodology plus an interview Following from the proposition that rhetorical hermeneutics uses rhetoric to practice theory by doing history this book examines a diverse range of texts from literature history law religion and cultural studies Through four sections Mailloux explores the theoretical writings of Heidegger Burke and Rorty among others Jesuit educational treatises and products of popular culture such as Azar Nafisi's Reading Lolita in Tehran and Star Trek The Next Generation In doing so he shows how rhetorical perspectives and pragmatist traditions work together as two mutually supportive modes of understanding and he demonstrates how the combination of rhetoric and interpretation works both in theory and in practice Theoretically rhetorical hermeneutics can be understood as a form of neopragmatism Practically it focuses on the production circulation and reception of written and performed communication A thought provoking collection from a preeminent literary critic and rhetorician Rhetoric's Pragmatism assesses the practice and value of rhetorical hermeneutics today and the directions in which it might head Scholars and students of rhetoric and communication studies critical theory literature law religion and American studies will find Mailloux's arguments enlightening and essential

Rhetorical Stance in Modern Literature Lynette Hunter, 1984-06-18 **The Futility of Philosophical Ethics** James

Kirwan, 2022-02-24 The Futility of Philosophical Ethics puts forward a novel account of the grounds of moral feeling with fundamental implications for philosophical ethics It examines the grounds of moral feeling by both the phenomenology of that feeling and the facts of moral feeling in operation particularly in forms such as moral luck vicious virtues and moral disgust that appear paradoxical from the point of view of systematic ethics Using an analytic approach James Kirwan engages in the ongoing debates among contemporary philosophers within metaethics and normative ethics Instead of trying to erase the variety of moral responses that exist in philosophical analysis under one totalizing system Kirwan argues that such moral theorizing is futile His analysis counters currently prevalent arguments that seek to render the origins of moral experience unproblematic by finding substitutes for realism in various forms of noncognitivism In reasserting the problematic nature of moral experience and offering a theory of the origins of that experience in unavoidable individual desires Kirwan accounts for the diverse manifestations of moral feeling and demonstrates why so many arguments in metaethics and normative ethics are necessarily irresolvable

Coping With the Gods Henk Versnel, 2011-05-10 Inspired by a critical reconsideration of current monolithic approaches to the study of Greek religion this book argues that ancient Greeks displayed a disquieting capacity to validate two or more dissonant if not contradictory representations of the divine world in a complementary rather than mutually exclusive manner From this perspective the six chapters explore problems inherent in order vs variety chaos in polytheism arbitrariness vs justice in theodicy the peaceful co existence of mono and polytheistic theologies human traits in divine imagery divine omnipotence vs limitation of power and ruler cult Based on an intimate knowledge of ancient realia and

literary testimonia the book stands out for its extensive application of relevant perceptions drawn from cultural anthropology theology cognitive science psychology and linguistics
