study to adopting three bear cubs left orphaned when their mother was killed by a hunter and teaching these cubs how to survive in the wild to raising environmental awareness through art Through a combination of careful study and personal dedication Russell and Enns are persuading people to reconsider the age old image of the grizzly bear as a ferocious man eater and perpetual threat Through their actions they demonstrate that it is possible to forge a mutually respectful relationship with these majestic giants and provide compelling reasons for altering our culture We have been able to live beautifully with these animals with no serious threat because of what we ve learned Hopefully sharing what we learn will help people and be a big help to our bears too
