fiction explores how Earth's development has been intertwined with that of a distant planet called Orbsey. It all begins in the year 1 and races to its conclusion in the twenty-fourth century. As the people of Earth looked to the heavens in search of others, the people of Orbsey were doing more than just looking; they were planning. In this first book of the series, the adventure begins when two cultures, two peoples, two worlds meet at long last. Thanks to their mastery of fourth-dimensional travel, explorers from Orbsey reach Earth, and neither planet will ever be the same. Humanity is still a young and developing race in the year 1. To the visitors, humanity is a barbaric and wild race. What must humanity think of their new guests? In rural China, a bright, ambitious young girl by the name of Sun Li dreams of a life of fulfillment and even love. But when she begins to dream of a long life of 285 years on a distant planet, she could never have imagined that what appeared to be a dream was actually memories of a real life lived on Orbsey. Sun Li is not alone. She is one of countless humans who would be integrated into Orbsien society over the centuries, while many chose to stay, some did return to Earth. This is their story, and the first installment of The Star Series.
