the crypt **The Living Age**, 1857 *The Fabulous Imagination* Lawrence D. Kritzman, 2009-08-22 More than three hundred years before the advent of psychoanalysis Michel de Montaigne 1533 1592 embarked on a remarkable quest to see and imagine the self from a variety of vantages He explored the significance of monsters nightmares and traumas the fear of impotence the fragility of gender and the anticipation of death For Montaigne imagination lies at the core of an internal universe influencing both the body and the mind The fabulous imagination can be curative enabling the mind s I to sustain itself in the face of hardship Tracing Montaigne s development of the Western concept of the self Lawrence D Kritzman begins with his study of the fragility of gender and its relationship to the peripatetic movement of a fabulous imagination He then follows with the essayist s examination of the act of mourning and the power of the imagination to overcome the fear of death and Montaigne s views on philosophy experience and the connection between self portraiture ethics and oblivion

An Impossible Inheritance Katie Kilroy-Marac, 2019-05-14 Weaving sound historical research with rich ethnographic insight *An Impossible Inheritance* tells the story of the emergence disavowal and afterlife of a distinctive project in transcultural psychiatry initiated at the Fann Psychiatric Clinic in Dakar Senegal during the 1960s and 1970s Today s clinic remains haunted by its past and Katie Kilroy Marac brilliantly examines the complex forms of memory work undertaken by its affiliates over a sixty year period Through stories such as that of the the ghost said to roam the clinic s halls the mysterious death of a young doctor sometimes attributed to witchcraft and the spirit possession ceremonies that may have taken place in Fann s courtyard Kilroy Marac argues that memory work is always an act of the imagination and a moral practice with unexpected temporal affective and political dimensions By exploring how accounts about the Fann Psychiatric Clinic and its past speak to larger narratives of postcolonial and neoliberal transformation *An Impossible Inheritance* examines the complex relationship between memory history and power within the institution and beyond *Difficult Mothers:*

Understanding and Overcoming Their Power Terri Apter, 2012-05-07 An essential work for readers seeking compassionate wise guidance about the powerful relationship between mothers and their sons and daughters Mother love is often seen as sacred but for many children the relationship is a painful struggle Using the newest research on human attachment and brain development Terri Apter an internationally acclaimed psychologist and writer unlocks the mysteries of this complicated bond She showcases the five different types of difficult mother the angry mother the controlling mother the narcissistic mother the envious mother and the emotionally neglectful mother and explains the patterns of behavior seen in each type Apter also explores the dilemma at the heart of a difficult relationship why a mother has such a powerful impact on us and why we continue to care about her responses long after we have outgrown our dependence She then shows how we can conduct an emotional audit on ourselves to overcome the power of the complex feelings a difficult mother inflicts In the end this book celebrates the great resilience of sons and daughters of difficult mothers as well as acknowledging their special challenges

The Late Victorian Gothic Hilary Grimes, 2016-03-03 Examining the automatic writing of the spiritualist s ances

discursive technologies like the telegraph and the photograph various genres and late nineteenth century mental science this book shows the failure of writers attempts to use technology as a way of translating the supernatural at the fin de si cle Hilary Grimes shows that both new technology and explorations into the ghostly aspects of the mind made agency problematic When notions of agency are suspended Grimes argues authorship itself becomes uncanny Grimes s study is distinct in both recognizing and crossing strict boundaries to suggest that Gothic literature itself resists categorization not only between literary periods but also between genres Treating a wide range of authors Henry James Rudyard Kipling Arthur Conan Doyle George Du Maurier Vernon Lee Mary Louisa Molesworth Sarah Grand and George Paston Grimes shows how fin de si cle works negotiate themes associated with the Victorian and Modernist periods such as psychical research mass marketing and new technologies With particular attention to texts that are not placed within the Gothic genre but which nevertheless conceal Gothic themes The Late Victorian Gothic demonstrates that the end of the nineteenth century produced a Gothicism specific to the period

Creativity, Madness and Civilisation Richard Pine,2021-04-16 What is creativity And what is madness How far can we interpret an artist s work through our knowledge of his or her mental state and how far can we infer a mental state from a work of art When does a work of art cease to be a personal statement by the artist and become a matter of public concern The contributions to this book attempt to answer some of these questions They come from a wide range of disciplines and experiences a practising psychiatrist a practising artist suffering from reactive depression and critics working in literature film music and the visual arts The essays include discussions of the myth of creativity the music of Robert Schumann the borders of sanity in the writing of Lawrence Durrell the insane truth of Virginia Woolf the meeting of doctor and patient in the poetry of Anne Sexton mood disorders in the fiction of David Foster Wallace love and madness in the poetry of Hafiz of Shiraz and the paintings of Adolf W lfl Central to this discussion of creativity madness and civilisation is the difficulty of establishing an appropriate and effective vocabulary and mindset between critics and clinical psychiatrists which would enable them to work together in understanding mental disturbance in creative artists

Female Gothic Histories Diana Wallace, 2013-03-15 *Female Gothic Histories* Gender History and the Gothic is an innovative new study of the ways in which women writers have used Gothic historical fiction to symbolise and counter their exclusion from traditional historical narratives

The Panorama of Life and Literature, 1857

Gothic Hauntings Christine Berthin, 2010-04-09 What is buried in the crypts of the Gothic Building on psychoanalytic research on haunting cryptonymy and melancholy as well as on French philosophies of language this book explores how haunting is not just a Gothic narrative device but the symptom of an impossibility of representation and of an irreparable loss at the heart of language

Hebrew Gothic Karen Grumberg, 2019-09-01 Makes a persuasive argument that gothic ideas play a vital role in how Hebrew writers have confronted history culture and politics Robert Alter author of *Hebrew and Modernity* Sinister tales written since the early twentieth century by the foremost Hebrew authors including S Y Agnon Leah Goldberg and Amos Oz reveal a darkness at the foundation of Hebrew culture The ghosts of a murdered Talmud scholar and his kidnapped bride rise from their graves for a nocturnal dance of death a girl hidden by a count in a secret chamber of an Eastern European castle emerges to find that unbeknownst to her World War II ended years earlier a man recounts the act of incest that would shape a trajectory of personal and national history Reading these works together with central British and American gothic texts Karen Grumberg illustrates that modern Hebrew literature has regularly appropriated key gothic ideas to help conceptualize the Jewish relationship to the past and more broadly to time She explores why these authors were drawn to the gothic originally a European mode associated with antisemitism and how they use it to challenge assumptions about power and powerlessness vulnerability and violence and to shape modern Hebrew culture Grumberg provides an original perspective on Hebrew literary engagement with history and sheds new light on the tensions that continue to characterize contemporary Israeli cultural and political rhetoric

Gothic Metaphysics Jodey Castricano, 2021-11-15 We live in the time of the Anthropocene which calls for a paradigm shift in our relation to this planet One of the themes of this book is to call attention to the shift This book is a challenge to Literary Gothic and Cultural Studies The case for rethinking approaches to gothic fiction is built on an extended critique of Freudian assumptions and antinomies of the occult associated with mechanism materialism and classical physics a critique informed by Jung and an engaging re evaluation of mystical animist and alchemical modes of

thought linked to quantum physics new materialism along with curiously but effectively Derridean deconstruction and cryptonymy Readers will benefit from the depth and breadth of the research in this book that draws upon philosophical anthropological psychoanalytic and scientific thought to engage with a literary genre in a way that changes how we think about Gothic Studies Subversive Property Sarah Keenan, 2014-08-13 This book explores the relationship between space subjectivity and property in order to invert conventional socio legal understandings of property Sarah Keenan demonstrates that new political possibilities for property may be unveiled by thinking about property in terms of space and belonging rather than exclusion Drawing on feminist and critical race theory this book shifts focus away from the propertied subject and on to the broader spaces in and through which the propertied subject is located Using case studies such as analyses of compulsory leases under Australia's Northern Territory Intervention and lesbian asylum cases from a range of jurisdictions Keenan argues that these spaces consist of networks of relations that revolve around belonging not just belonging between subject and object as property is traditionally understood but also the less explored relation of belonging between the part and the whole This book therefore offers a conceptually useful way of analysing a wide range of socio legal issues It will be of relevance to those working in the area of property and legal geography but also to those with more general interests in socio legal studies social and political theory postcolonial studies critical race studies and gender and sexuality studies **Ghost Trails of Yorkshire** Clive Kristen, 2014-06-10 Tried and tested ghosthunting trails mainly in the rural areas of Yorkshire Discerning ghosthunters will enjoy following the trails many published for the first time in any form and enjoying Yorkshire at its spooktacular best
