Ghosts of Archive Verne Harris, 2020-12-21 *Ghosts of Archive* draws on the discourses of deconstruction intersectionality and archetypal psychology to mount an argument that archive is fundamentally and structurally spectral and that the work of archive is justice Drawing on more than 20 years of the author s research on deconstruction and archive the book posits archive as an essential resource for social justice activism and as a source or location of soul for individuals and communities Through explorations of what Jacques Derrida termed hauntology Harris invites a listening to the call for justice in conceptual spaces that are non disciplinary He argues that archive is both constructed in relation to and beset by ghosts ghosts of the living of the dead and of those not yet born and that attention should be paid to them Establishing a unique nexus between a deconstructive intersectionality and traditions of memory for justice in struggles against oppression from South Africa and elsewhere the book makes a case for a deconstructive praxis in today s archive Offering new ideas about spectrality banditry and archival activism *Ghosts of Archive* should appeal to those working in the disciplines of archival science information studies and psychology It should also be essential reading for those with an interest in social justice issues transitional justice history philosophy memory studies and postcolonial studies

The Haunting Fetus Marc L. Moskowitz, 2001-05-01 The Haunting Fetus focuses on the belief in modern Taiwan that an aborted fetus can return to haunt its family Although the topic has been researched in Japan and commented on in the Taiwanese press it has not been studied systematically in relation to Taiwan in either English or Chinese This fascinating study looks at a range of topics pertaining to the belief in haunting fetuses including abortion sexuality the changing nature of familial power structures the economy and traditional and modern views of the spirit world in Taiwan and in traditional Chinese thought It addresses the mental moral and psychological aspects of abortion within the context of modernization processes and how these ramify through historical epistemologies and folk traditions The author illustrates how images of fetus ghosts are often used to manipulate women either through fear or guilt into paying exorbitant sums of money for appeasement He argues at the same time however that although appeasement can be expensive it provides important psychological comfort to women who have had abortions as well as a much needed means to project personal and familial feelings of transgression onto a safely displaced object In addition to bringing to the surface underlying tensions within a family appeasing fetus ghosts like other dealings with supernatural beings in Chinese religions allows for atonement through economic avenues The paradox in which fetus ghost appeasement simultaneously exploits and assists evinces the true complexity of the issue and of religious and gender studies as a whole
