Daily Writing Prompts

Roses and juicy tomatoes
smell red.

Red always stands out like
cherries on whipped cream.

Red is....

cold and hot,

love and hate,

fast and slow.

I?U. Grosberg, A. R. Khokhlov, Pierre-Gilles de Gennes, 2011 Giant molecules are important in our everyday life But as pointed out by the authors they are also associated with a culture What Bach did with the harpsichord Kuhn and Flory did with polymers We owe a lot of thanks to those who now make this music accessible Pierre Gilles de Gennes Nobel Prize laureate in Physics Foreword for the 1st Edition March 1996 This book describes the basic facts concepts and ideas of polymer physics in simple yet scientifically accurate terms In both scientific and historic contexts the book shows how the subject of polymers is fascinating as it is behind most of the wonders of living cell machinery as well as most of the newly developed materials No mathematics is used in the book beyond modest high school algebra and a bit of freshman calculus yet very sophisticated concepts are introduced and explained ranging from scaling and reptations to protein folding and evolution The new edition includes an extended section on polymer preparation methods discusses knots formed by molecular filaments and presents new and updated materials on such contemporary topics as single molecule experiments with DNA or polymer properties of proteins and their roles in biological evolution **The Giant's Captive** Lidiya Foxglove, 2021-08-31 Did you come here to seduce me little mite I think you leave me no choice but to teach you a lesson I m the tallest unmarried girl in my village and also taller than all the boys This did nothing for my prospects of finding love So instead I went off to seek my fortune It led me to a circus by the sea and rumors of the last living giant Apparently he doesn t much care for people but the ringmaster offers me riches beyond my dreams if I can entice him to come down from his home in the forest Well it was fortune I was seeking and fortune I m determined to find so I climb the magic beanstalk to his hidden home but the giant is not amused by my plan At all And it turns out his home is one big trap of faery vines I m snared by an antisocial but surprisingly handsome giant and for the first

time in my life I've met a man who makes me feel delicate. He might want to punish me for trespassing but it feels more like passion. Only the world isn't safe for the last giant and maybe it's not safe for a woman who loves him either. The Giant's Captive is an adult fairy tale retelling of Jack and the Beanstalk for those who like an adorable happily ever after fantasy romance with a side of serious steaminess. *The Great Giant Arithmos* Mary Steadman Aldis, 1882 **The Giant** Ranko Pavlovic, Novel. The Giant is a satirical tale about a leader and his followers, people who blindly follow him for their own positions. The main character is the Committee Secretary in a small town. Thanks to his sycophantic behavior, the reader encounters numerous hilarious scenes in the novel. The Committee Secretary wants to give the leader's name to all kindergartens, schools, and other institutions. Of course, the leader deserves to have even the main street in the city named after him, but there are no streets long enough, so neighboring villages are annexed to the city. Many buildings are demolished to make way for this street. He wants to erect a huge monument to the living leader in the center of the city, so he orders the demolition of museum buildings and other cultural and historical sites. When the sculptor finished the monument, news arrived that the leader's hand had been amputated, causing panic. The sculptor found a solution: he also amputated the hand of the monument. They invited the leader to unveil the monument himself. That's when they saw that he had been fitted with an artificial hand. They wanted to return the hand to the monument, but it ended up in the trash and was swept away by the river in a big flood. When they realized they couldn't add a hand to the monument, they decided to bury it. The burial took place at night in secret. Representatives of the city authorities believed that the leader's monument could not be buried without appropriate speeches and a funeral march, so the burial turned into a real comedy. These are just the most striking scenes from the novel. Creating Your Giant Self Robert Rose, 2001-06-05. A critical reason this is well maybe not THE best a useful book is that YOU do the work. The more you apply what you learn and understand, the greater your growth. This is not a quick fix book but one to assist you in a lifelong journey of self-discovery. It is difficult to understand what another person really thinks or feels because it is dangerous to your career, your relationships, and even your existence. You can learn to know who you really are. As you travel, you will find things about yourself you dislike and like. The more honest you are, the more you will like yourself and, amazingly enough, like and be liked more easily by others. By using the metaphors of Giant and diminished self, you have a means to constantly evaluate what you are experiencing. As you do this, you are getting more in tune with what you're thinking and feeling. Most people are not congruent; that is, what they think and what they feel are not in synch. In psychology, when this happens, it is called inappropriate affect. The face you show does not reflect what you feel or think. Yet in many situations, you cannot because the repercussions are too great, express or even show what you're thinking and feeling, so what you say does not reflect your internal experience. As the years pass, you move further away from congruency and often can no longer even recognize what you are feeling and thinking. You believe that what you're supposed to feel or think in that setting is what you're actually feeling and thinking. I will try to help you discover who you are or could

have become or still could become In metaphor it is creating your GIANT SELF which is the realization of your inherent potentials plus hard work This self is a marked contrast to your diminished self This self is the brainwashed depressed frightened rigid self that those with greater power have made you believe is who you are Without even knowing you I can say that you can become a person who can look yourself in the mirror and honestly like who you see It means opening up to ideas and concepts that may be confusing unnerving and may mean that your world as you know it now will never be the same Many of the ideas seem to be so simple and logical that you will say I knew that You may know it but have you had the courage to apply it I think one reason Dr Wilson believes in this book is that I send an honest searchlight into my mind body and soul Some of the things I discovered I did not like still do not like However I found that by challenging EVERYTHING I believed I was able to free myself from many of the errors of my past Besides my dark sides I found a rather decent intelligent person who was worthy of being loved and appreciated One thing I had to admit and face was the number and constancy of errors I made on a regular basis Humans are error making machines There are so many things that cause us to make mistakes that each of us could talk for hours about the stupid things we've done How many times have you pulled instead of pushed even though the sign on the door was very clear I know I have I shake my head and laugh most of the time Other times my inattention or stupidity creates errors of judgement that could have caused a serious accident I misjudge how far away a car is before I shoot out into the intersection Or I'm in a rush and I take a chance knowing full well that I'm acting like a fool Take our senses Each information bit that stimulates one of our sensory nerves is affected by our attention toward it its magnitude its intensity its uniqueness and the number and sensitivity of the nerve endings that receive it It then travels through that sensory system with countless chances for the message to be garbled or misinterpreted

Giant Write Every Day Introduction

In today's digital age, the availability of Giant Write Every Day books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Giant Write Every Day books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Giant Write Every Day books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Giant Write Every Day versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Giant Write Every Day books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Giant Write Every Day books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Giant Write Every Day books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited

period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Giant Write Every Day books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Giant Write Every Day books and manuals for download and embark on your journey of knowledge?
