Philanthropy in the History of American Higher Education Jesse Brundage Sears, 2023-04-14 A work that can truly be described as an underground masterpiece Sears Philanthropy in the History of American Higher Education was written as a dissertation seventy years ago and subsequently published as a Bulletin by the United States Bureau of Education in 1922 It has been much spoken of and little read since then As Roger L Geiger points out in his new opening essay this volume can still be read with wide interest and great profit This is a tribute to the quality of mind and diligence of its author The special quality of this volume is its close connection of educational philosophies of the past linked firmly to the educational philanthropies of the nineteenth and twentieth centuries The scope of coverage is broad ranging from the great universities to the manual labor colleges But it is more than quantitative research that the reader will find For Sears from start to finish while appreciating the benefits which foundations bestow fully appreciated the continuing risks of such outside support For Sears the overwhelming impulse of philanthropy has been the encouragement of the public good or at least the support of a healthy notoriety for the donors and recipients alike But he also notes that a democratic society must never be expected to take massive gifts on faith He urged that even a grain of danger should be weeded out if it carries with it the potential for the bias and special interest This edition is graced by a fine essay that gives a deep background to the life and work of Jesse Brundage Sears It covers his origins in rural Missouri his move to Stanford University and work for Ellwood P Cubberly and his later work on the history of philanthropy For
