Grey Gardens Gimme Shelter and Showman filmmakers and brothers David and Albert Maysles used an approach to documentary film that involved spontaneous observation of naturally occurring events With no rehearsed footage and no preconceived plots their revolutionary work eschewed the authoritative voice over narrator didactic scripts and the traditional problem and solution format used by the majority of their predecessors in the genre and duly influenced subsequent directors in both fiction and nonfiction film Their collaboration from 1962 until David s death in 1987 wrought thirteen major works in which the brothers critiqued the concept of celebrity with unglamorous footage of iconic figures explored how commercialism hinders communication and questioned the possibility of seeing anything clearly in a world abounding with both real and constructed images Jonathan B Vogels outlines how the Maysles brothers blended a unique amalgam of direct cinema characteristics a modern humanist aesthetic and a collaborative working process that included other directors and editors Looking at the films as both shapers and reflections of American culture he points out that the works offer insights into a wide range of contemporary topics including materialism celebrity modern art and the American family In addition to describing the changes in technology that made direct cinema possible Vogels provides careful scene by scene analyses that allow for a consideration of the Maysles brothers films as films a tactic not frequently employed in nonfiction film studies

**Art of Return** James Meyer, More than any other decade the sixties capture our collective cultural imagination And while many Americans can immediately imagine the sound of Martin Luther King Jr declaring I have a dream or envision hippies placing flowers in gun barrels the revolutionary sixties resonates around the world China s communist government inaugurated a new cultural era African nations won independence from colonial rule and students across Europe took to the streets calling for an end to capitalism imperialism and the Vietnam War In this innovative work James Meyer turns to art criticism theory memoir and fiction to examine the fascination with the long sixties and contemporary expressions of these cultural memories across the globe Meyer draws on a diverse range of cultural objects that reimagine this revolutionary era stretching from the 1950s to the 1970s including reenactments of civil rights antiwar and feminist marches paintings sculptures photographs novels and films Many of these works were created by artists and writers born during the long Sixties who were driven to understand a monumental era that they missed These cases show us that the past becomes significant only in relation to our present and our remembered history never perfectly replicates time past This Meyer argues is precisely what makes our contemporary attachment to the past so important it provides us a critical opportunity to examine our own relationship to history memory and nostalgia
