Hamlet Paralell Text:

The Three-text Hamlet William Shakespeare, Bernice W. Kliman, Paul Benjamin Bertram, 2003 Hamlet is unique among Shakespeare's plays in that it exists in three versions. The complex relationship among the three early texts has challenged the ingenuity of generations of Shakespearean scholars. Eric Rasmussen's engaging introductory essay offers a comprehensive overview of these texts, the multifarious theories of their origins and their fascinating reception history.

Hamlet William Shakespeare, 1891 Hamlet Parallel Text William Shakespeare, 1998-12 Provides two complete versions of the play. Line by line prose paraphrase printed beside the original text to assist readers with the understanding of the English language during this era. **Shakespeare's Hamlet in the Original and Modern English**, *The First Quarto of Hamlet* William Shakespeare, 1998 The first quarto of Hamlet is radically different from the second quarto and Folio versions of the play and about half their length. But despite its uneven verbal texture and simpler characterisation, the first quarto presents its own workable alternatives to the longer texts, reordering and combining key plot elements and even including a unique scene between Horatio and the Queen. This new critical edition is designed for students, scholars and actors who are intrigued by the first printed text of Shakespeare's Hamlet. Although the first quarto has been reprinted many times, there is no other modernised edition in print. Irace's introduction outlines views of its origins, its special features and its surprisingly rich performance history. Her textual notes point out differences between the first quarto and the longer second quarto and Folio versions and offer alternatives which actors or directors might choose for specific productions. **Hamlet** Wilhelm Vietor, 2015-06-25 Excerpt from Hamlet Parallel Texts of the First and Second Quartos and the First Folio. The aim of the present volume is simply to place before the reader exact reprint of the two earliest Quartos and the first Folio text of Hamlet arranged in parallel columns for ready reference. Collations of other editions would of course also have been desirable but these would have inconveniently swelled the bulk of the volume and are easily accessible in the Cambridge Edition or in Furness's Variorum Shakespeare they have been dispensed with. The First Quarto Q1 of 1603 is here reprinted from the facsimile in photo lithography by W. Griggs reproduced from the Duke of Devonshire's copy, the last leaf which is wanting in the Duke's copy being supplied from that in the British Museum. Its title is as follows: The Tragicall Historie of Hamlet Prince of Denmarke By William Shakespeare As it hath beene diuerse times acted by his Highnesse her uante in the Cittie of London as also in the two Vniuersities of Cambridge and Oxford and else where Vignette At London printed for N. L. and Iohn Trundell 1603. Our reprint of the Second Quarto Q2 of 1604 is likewise made from Mr Griggs's facsimile in photo lithography of the Duke of Devonshire's copy of the original with the following title page: The Tragicall Historie of Hamlet Prince of Denmarke By William Shakespeare Newly imprinted and enlarged to almost as much againe as it was according to the true and perfect Copie Vignette At London Printed by I. R. for N. L. and are to be sold at his shoppe vnder Saint Dunstons Church in Fleetstreet 1604. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books.

A Synoptic Hamlet: a Critical-Synoptic Edition of the Second Quarto and First Folio Texts of Hamlet Jesús Tronch-Pérez, Jesús Tronch, 2002 A Synoptic Hamlet is an alternative response to the editorial problems of this multiple text play Like most critical editions it presents the early texts in a manner helpful to the general reader by modernizing spelling and punctuation and emending non-sensical readings However it does not hide the text's diversity by exclusively selecting readings from either the Second Quarto or the First Folio in order to reconstruct a single reading version corresponding to the authentic Hamlet Rather it makes their significant variants immediately available in the line itself offering alternative editorial interpretations of identical or similar readings at certain points Thus the reader can have a direct appreciation of the divergence and similarity between these early texts from which the Hamlet of today is known
