*Deconstructing Undecidability* Michael Oliver, 2020-02-06 Advancing current readings of the deconstructive work of Jacques Derrida *Deconstructing Undecidability* critically explores the problematic nature of decision including the inherent exclusivity that accompanies any decision In discourses where a pursuit of justice or liberation from systemic oppression is a primary concern Michael Oliver argues for an appreciation of the inescapability of making limited difficult decisions for particular forms of justice Oliver highlights a similarly precarious predicament in the context of philosophical and religious negotiations of divine decision pointing to the impossibility of safely navigating this issue While wholeheartedly affirming the problem of exclusivity that inevitably accompanies decision this book offers a renewed sense of undecidability that highlights a mistaken illusory position of indecision as a reflection of power and privilege Ultimately this book aims to gain a greater appreciation for the complexity of the problem of decision in order to be more rigorous and transparent in our continued engagement with it

**The Oxford Handbook of Systematic Theology** John Webster, Kathryn Tanner, Iain Torrance, 2009-09-11 The Oxford

Handbook of Systematic Theology brings together a set of original and authoritative accounts of all the major areas of current research in Christian systematic theology offering a thorough survey of the state of the discipline and of its prospects for those undertaking research and teaching in the field The Handbook engages in a comprehensive examination of themes and approaches guiding the reader through current debates and literatures in the context of the historical development of systematic theological reflection Organized thematically it treats in detail the full array of topics in systematic theology as well as questions of its sources and norms its relation to other theological and non theological fields of enquiry and some major trends in current work Each chapter provides an analysis of research and debate on its topic The focus is on doctrinal rather than historical questions and on major rather than ephemeral debates The aim is to stimulate readers to reach theological judgements on the basis of consideration of the range of opinion Drawn from Europe the UK and North America the authors are all leading practitioners of the discipline Readers will find expert guidance as well as creative suggestions about the future direction of the study of Christian doctrine     The Community of the Weak Hans-Peter Geiser, 2013-03-28 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of theological method on a global scale Both in the academy and in the public square as well as in the manifold local and pastoral moments of ministry and community social activism the social the postmodern and the theological intermingle in engaging and border crossing ways The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch using jazz as a metaphor writing ethnographically messy texts out of the personal windows of lived experiences combining fragments of autobiography with theological reconstruction A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts The author proposes a systematic and fundamental theology that is more jazzy global and narrative deeply embedded in pastoral ministry to tell its postmodern story     *Reconciliation, Nations and Churches in Latin America* Iain S. Maclean, 2016-04-22 This book examines the recent phenomenon in Latin America of national Truth and Reconciliation commissions Few studies have examined the role of Churches or religion in political processes that proclaim valued theological terms as their agenda truth forgiveness and reconciliation This book questions the role of religion specifically of established Churches The impact of such reconciliation commissions on Indigenous Native Americans is also examined as is the role of women and how both commissions and Churches or religions were challenged by their experiences The contributors offer differing perspectives on one or more national truth and reconciliation processes and thus offer a collection that serves as valuable source for the disciplines of Religious Studies Ethics Theology Political Science Social Sciences and Women s Studies     White Theology J. Perkinson, 2017-03-15 White Theology re examines white race privilege throughout history and its relationship to black theology James W Perkinson articulates a white theology of responsibility responding to the claims of James Cone and other black scholars that serious engagement with history and

*The Divine Image* Ian Alexander McFarland, Theologian Ian McFarland claims that Christians have mainly misappropriated the image of God language for 2000 years and thereby missed a rich resource for our knowledge of God What then does it mean to say that we are made in God's image or that Christ is the very image or prototype of God Rather than referring to some germinal divine element in humans such as reason McFarland claims that the image of God in us tells us something about God and how we know God It tells us that God though not identical with us communicates Godself to us in creative love in a way that offers precious clues about God's transcendence immanence triune life self disclosure incarnation and intentions for human life Too we learn from Jesus something new about God Gathered as Christ's body the church too images God and sets us on a quest to discern the image of God in Christ's incarnate body McFarland's careful and exacting work builds from this kernel a powerful Christian vision of God's life and our own destiny in Christ

Christianity in the Global South In The Oxford Handbook of Latin American Christianity an interdisciplinary contingent of scholars examines Latin American Christianity in all of its manifestations from the colonial to the contemporary period The essays here provide an accessible background to understanding Christianity in Latin America Spanning the era from indigenous and African descendant people s conversion to and transformation of Catholicism during the colonial period through the advent of Liberation Theology in the 1960s and conversion to Pentecostalism and Charismatic Catholicism The Oxford Handbook of Latin American Christianity is the most complete introduction to the history and trajectory of this important area of modern Christianity

**From Strength to Strength** Robert London Smith, 2007 Drawing on his experience as a member of the clergy and the questions and concerns that arose in the course of ministering to congregants Robert London Smith Jr explores exactly what function the black church performs and importantly why In this provocative work he argues that much black church praxis is less authentic relevant and constructive today because it continues to be implicated by certain values and meanings that are themselves rooted in a historical black thematic universe that is fading and being replaced by a new set of values and meanings located within a contemporary black thematic universe Using a practical theology method Smith develops a theological framework context praxis to create an approach to understanding and creating an informed praxis for the black church He then sets forth a bold project that calls for the critical engagement of black church praxis and what he calls the black thematic universe in its historical and contemporary manifestations The goal is to transform this praxis so that it remains authentic to the Gospel and the religious traditions and history of those who come to interpret and live out its message in the world while being relevant to the issues and challenges of the present historical context in which the black church lives out its meaning and purpose and constructive for the building up and equipping of the Body of Christ Smith s creation of a black existential and theological hermeneutic is an approach that moves toward the realization of this ambitious goal This book challenges many traditional views of black church praxis including pastoral care worship and fellowship and creates a space for a renewed and much needed dialogue about the acts of the black church within contemporary America As such it is an important text for students of practical theology and African American religion as well as those interested in developing a critical understanding of the implications of the intersection of faith and culture

**The Churches and Democracy in Brazil** Rudolf von Sinner, 2012-05-04 Brazil is a rapidly emerging country Brazilian theology namely the Theology of Liberation has become well known in the 1970s and 1980s The politically active Base Ecclesial Communities and the progressive posture of the Roman Catholic Church contrasted with a steadily growing number of evangelicals mostly aligned with the military regime but attractive precisely to the poor After democratic transition in the mid 1980s the context changed considerably Democracy growing religious pluralism and mobility a vibrant civil society the political ascension of the Worker s Party and growing wealth albeit within a continuously wide social gap are some of the elements that show the need of a new approach to theology It must be a theology that is both critical and

constructive resisting and cooperative a theology that is able to give orientation to the churches valuing and encouraging their contribution in society while avoiding attempts of imposition The Churches and Democracy in Brazil the fruit of years of interdisciplinary study of the Brazilian context and its main churches and theology makes its case for an ecumenically articulated public theology It seeks inspiration mainly in Luther and Lutheran theology emphasizing human dignity freedom trust the disposition to serve and the ability to endure the ambiguities of reality as well as a fresh interpretation of the doctrine of the two regiments These are the fundamental elements of what makes human beings full members of the body politic citizenship their right to have rights and to be able to effectively live them together with their corresponding duties in a move of growing political participation conscious of their religious motivation in view of the commonweal

**Deconstructing Sport History** Murray G. Phillips, 2006-01-01 Presents a broad spectrum of critical approaches that question traditional sport history Religion and Sexuality Michael A. Hayes, Wendy Porter, David Tombs, 2016-10-06 This volume on a provocative set of topics presents papers from the 1997 conference on Religion and Sexuality at Roehampton Institute London The papers do not confine themselves to contemporary discussion of the topics concerned but range widely in their discourse and discuss this relationship in social theological and political contexts *Prophetic Liturgy* Tercio Junker, 2014-02-07 The primary purpose of Prophetic Liturgy is to inquire into the prophetic dimension of the liturgy Some questions addressed in the book are How can a liturgy be prophetic How can liturgy form and transform individuals and communities In which sense does the liturgy facilitate a living participation in socio political economic life How does the sacramental practice challenge the church to mediate God s gifts of grace love justice and mercy to the world Possible answers for these questions begin to emerge as we develop an understanding of religious praxis as an active and dynamic prophetic action in which the community of faith claims its identity promotes an engaged faithful Christian life and affirms the sacramental life of the church as a source of formation and inspiration for prophetic praxis mediating God s gift for the life of the world There is risk in presenting an option for prophetic praxis in that it may go beyond the comfort zone of a community and engender spiritual and political alienation The most challenging ethical hope of this book is to provide the worshipping community with prophetic awareness of socio economic injustice while at the same time preserving the community s historical cultural identity its religious values and its sacramental spirituality **Theology and the Religions** Viggo Mortensen, 2003 The academic study of religion is undergoing great changes in response to globalization Just as sociologists now find it necessary to think in terms of multiculturalism so religion scholars and theologians today must work in the context of multireligiosity Globalization is leading not only to multiethnic societies but also to plurality in religions and worldviews Theology and the Religions A Dialogue offers the first sustained analysis of the trend toward multireligiosity and its implications for the study of religion Drawing on the resources of cultural analysis religious studies and theology an international slate of scholars explores the relation of multiculturalism and multireligiosity the need for interreligious dialogue

and the possibilities for a theology of religions This groundbreaking work is supported by case studies of various religious traditions in diverse cultures from around the world Special attention is paid to Christian theological reflection however since as a global religion Christianity is particularly challenged by multireligiosity Offering an engaging wide angle view of religion worldwide Theology and the Religions makes a vital contribution to our understanding of the forces shaping the future of religious and social life Contributors Kajsa Ahlstrand Theodor Ahrens Jan Martin Berentsen Ulrich Dehn Helene Egnell Marianne C Qvortrup Fibiger Patrik Friedlund Virginia Garrard Burnett Geomon K George Elisabeth Gerle Friedrich Wilhelm Graf Hans Hauge Ulf Hedetoft S Mark Heim Chris Hewer Klaus Hock Michael Ipgrave Andrew J Kirk Lene K hle Volker Kster Aasulv Lande Oddbjorn Leirvik Ole Skjerb k Madsen Hiromasa Mase Mogens S Mogensen Viggo Mortensen Johannes Nissen Klaus N rnberger Caleb Oladipo Tinu Ruparell Risto Saarinen Lamin Sanneh Olaf Schumann Notto R Thelle Joachim Track V tor Westhelle H S Wilson      *Public Theology in the Secular State* Rudolf von Sinner, 2023-07-04 This book gives a persuasive answer to the need for public theology today Rudolf von Sinner can draw from a rich basis of scholarship and experience related to the topic of public theology His clear awareness of the contextuality of public theology is the reason for his repeated assurance in this book that we cannot speak about public theology but always only of a public theology At the same time it is very clear for him that there is also an intercontextuality One of the great strengths of this book is its embeddedness into an international discourse on public theology with a special emphasis on the South South exchange It is a contribution to public theology scholarship in its best sense I proudly welcome its publication in our series Bishop Prof Dr Heinrich Bedford Strohm Evangelical Church in Germany
