into sin instilled with guilt and punished severely With the invention of sin came the construction of women as subordinate beings to men Despite the birth of romance in the late middle ages Renaissance churches held inquisitions to seek out and destroy sex sinners all of whom it saw as heretics The Age of Reason saw the demise of these inquisitions But it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime degeneracy and sickness The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists such as Alfred Kinsey and Margaret Sanger sought to carve out a place for sexual freedom in society However strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence Volume I of this two part publication traces the history of sex from the Stone Age to the Enlightenment Interspersed with personal hauntings from his own life and the lives of friends and relatives Knowles reveals how historical discourses of sex continue to haunt us today This book is a page turner in simple and plain language about how sex got screwed up for millennia For Knowles if we know the history of sex we can get over it

**The Ghosts of Iraq's Marshes** Steve Lonergan, Jassim Al-Asadi, Keith Holmes, 2024-04-23 A FOREIGN AFFAIRS BEST BOOK OF 2024 The gripping history of the devastation and resurrection of the Marshes of Iraq an environmental treasure of the Middle East now a protected site The Mesopotamian Marshes in southern Iraq once the largest wetland system on the planet have been inhabited for thousands of years by the Ma dan or Marsh Arabs but they remain remote isolated and virtually unknown In the early 1990s the Saddam Hussein regime drained the Marshes and set out to destroy not only a critical ecosystem but a

unique way of life as well. It stands as one of the greatest environmental and humanitarian disasters of the twentieth century. In the wake of the 2003 US invasion of Iraq, local residents destroyed the earthen dams built to divert water from the wetlands, and the Marshes were reflooded. Their future, however, is in peril. *The Ghosts of Iraq's Marshes* tells the history of the creation, destruction, and revitalization of the Marshes and their inhabitants against the backdrop of the dramatic events that have convulsed Iraq in the past fifty years. It follows the life of Jassim al Asadi, an irrigation engineer who was jailed and tortured under Saddam Hussein and who subsequently dedicated his life to the reflooding and restoration of the Marshes. He eventually contributed to the Marshes being declared a UNESCO World Heritage site. Jassim is eminently relatable, and the stories of his life and other marsh dwellers are infused with pathos, tragedy, humor, and passion.
