focuses on cultural hegemony in the United Kingdom and explores how literary culture aimed at young adults reproduces and perpetuates racial and ethnic cultural hierarchies Diversity is described by the We Need Diverse Books project as all diverse experiences including but not limited to LGBTQIA Native people of color gender diversity people with disabilities and ethnic cultural and religious minorities This study focuses on people of colour While previous studies have looked at the representation of ethnic minorities in books for children and young adults this book examines the experiences of own voice cultural producers that create a counter narrative Specifically this book will investigate the output and experiences of British young adult fiction authors of colour BAME authors published in the UK during the period 2006 2016 drawing upon semi structured interviews with a sample of authors *The Cambridge Companion to British Fiction: 1980-2018* Peter Boxall, 2019-06-27 Gives a comprehensive critical picture of the development of British fiction from the election of Thatcher to the present *The Re-Attribution of the British Renaissance Corpus* Anna Faktorovich, 2023-05-02 The first accurate quantitative re attribution of all central texts of the British Renaissance Describes and applies the first unbiased and accurate method of computational linguistics authorial attribution Covers 303 texts with 8 106 059 words 123 authorial bylines a range of genres and a timespan between 1510 and 1662 Includes helpful diagrams that visually show the quantitative matches and the identical most frequent phrases between the texts in each linguistic signature group Detailed chronologies for each of the six ghostwriters and the bylines they wrote under including their dates of birth death publications and other biographical markers that explain why each of them was the only logical attribution A full bibliography of the 303 tested texts All of the raw and processed data not only in summary tables inside of the book but also in full on a publicly accessible website <https://github.com/faktorovich/Attribution> One table includes all of the data from the first edition title pages byline printer bookseller date proverbs and the first performance date troupe A table on structural elements across all Shakespeare bylined texts summarizes their plot movements character types settings slang usage primary sources and poetic design percentage of rhyme and hendiadys To explain why these are the first truly accurate re attributions numerous reasons for discrediting previous attribution claims are provided throughout Re Attribution of the British Renaissance Corpus describes a newly invented for this study computational linguistics authorial attribution method and applies it and several other approaches to the central texts of the British Renaissance All of the attribution steps are described precisely to give readers replicable instructions on how they can apply them to any text from any period that they are interested in determining an attribution for This method can be applied to solving criminal linguistic mysteries such as who wrote the Unabomber Manifesto or theological mysteries such as if any of the Dead Sea Scrolls might have been forged by a modern author This method is uniquely accurate because it uses 27 different quantitative tests that measure a text s dimensions and its similarity or divergence to other texts automatically without the statisticians being able to skew the outcome by altering the experiment s analytical design Re Attribution guides researchers not only on how to perform the basic calculations but also

how to perform the biographical and documentary research to derive who among the potential bylines in a single signature group is the ghostwriter while the others are merely ghostwriter contractors or pseudonyms Reliable accuracy is achieved by also performing other types of attribution tests to check if these alternative approaches validate or contradict the 27 tests findings Non quantitative tests discussed include deciphering the hidden implications of contemporary pufferies as well as comparing structural elements such as characters plot and element borrowings Part II presents a revised version of the history of the birth of the theater in Britain by reviewing forensic accounting evidence in Philip Henslowe's Diary and the documented history of homicidal lending practices and government corruption connected with troupes and theaters Parts III VIII explain precisely how this series derived that the British Renaissance was ghostwritten by only six linguistic signatures Richard Verstegan Josuah Sylvester Gabriel Harvey Benjamin Jonson William Byrd and William Percy The parts on each of these ghostwriters not only explain how their biographies fit with the timelines of the texts being attributed to them but also provide various types of evidence that explains their motives for ghostwriting And Part IX returns for an intricate analysis of a few pseudonyms or ghostwriting contractors who were uniquely difficult to exclude as potential ghostwriters in parallel these chapters question the reasons these individuals would have needed to purchase ghostwriting services The complete series on British Renaissance Re Attribution and Modernization by Anna Faktorovich is a remarkable accomplishment Based on her own unbiased method of computational linguistic authorial attribution she has critically examined an entire collection of texts many previously inaccessible and untranslated to modern English From a variety of distinct factors that have been ignored or unnoticed in the past she identifies a group of ghost writers behind many miss attributed Renaissance works Of particular interest are works traditionally attributed to William Shakespeare Dr Faktorovich is a prolific writer very well informed in English literature philology and literary criticism and she is clearly thorough and detail oriented Her re attribution and modernization series demonstrates solid scholarship fresh perspective and willingness to challenge conventional thought and methodology Midwest Book Review Lesly F Massey December 2021 I have long had an interest in linguistics and enjoy reading the frequent Who really wrote Shakespeare's works Therefore this book was extremely interesting to me So my recommendation is that if you have an interest in linguistics and scholarly research you will love this book Very interesting and well laid out book LibraryThing Early Reviewers February 2022 Anna Faktorovich PhD is an English professor who previously published *Rebellion as Genre and Formulas of Popular Fiction* She is also the Director and Founder of Anaphora Literary Press [Kardashians](#) Meredith Jones, Kath Burton, Donna Lee Brien, 2024-07-24 This interdisciplinary volume introduces the field of Kardashian Studies through collections of essays based in sociology media studies cultural studies critical race theory and fashion theory The Kardashian empire and dynasty is intertwined with some of the most important movements of the early twenty first century Celebrity cultural appropriation new forms of feminism social media ideal bodies evolving notions of physical beauty and the global fashion system have all been affected by the

*Literary Representations of Japan: At the Intersection of David Mitchell and Haruki Murakami's Worlds* Eugenia Prasol, 2023-09-12 This book will focus on analyzing the different aspects of Japan's representation in the novels of Haruki Murakami and David Mitchell It is proven that Murakami creates and recreates Japan without implementing any orientalist features or exotic imagery In the works of

both authors the intent to depict a new world of Japan stripped of traditional stereotypical traits becomes clear. The difference between Murakami and Mitchell's representation of Japan lies in the difference between Japan as seen by the Japanese and Japan as seen by modern Westerners but both are correct images of Japan. It is a recreation of the global image of Japan. In that sense the texts of Murakami and Mitchell are complementary representations of Japan through East West cultural dialogue. Studying the representations of Japan and Japanese national character helps to understand the role of Murakami and Mitchell in the formation of a new image of Japan, the de-stereotyping of anachronistic ideas about Japanese national exclusivity enriching by doing so the world literature with new visions of the country and its culture. The purpose of the comparative analysis of English and Japanese literary works performed in this work is to reveal both deep analogies and differences in the representation of the image of Japan, actualizing the national specificity of the texts. This research advances the understanding of how both general and specific components of literary representations of Japan and Japaneseness are manifested in the East West cultural dialogue.
