live This concise resource is a perfect complement to any course that seeks to examine both classic and contemporary sociological theory Founders, Classics, Canons Peter Baehr, 2017-07-05 Founders classics and canons have been vitally important in helping to frame sociology's identity Within the academy today a number of positions feminist postmodernist postcolonial question the status of tradition In Founders Classics Canons Peter Baehr defends the continuing importance of sociology's classics and traditions in a university education Baehr offers arguments against interpreting defending and attacking sociology's great texts and authors in terms of founders and canons He demonstrates why in logical and historical terms discourses and traditions cannot actually be founded and why the term founder has little explanatory content Equally he takes issue with the notion of canon and argues that the analogy between the theological canon and sociological classic texts though seductive is mistaken Although he questions the uses to which the concepts of founder classic and canon have been put Baehr is not dismissive On the contrary he seeks to understand the value and meaning these concepts have for the people who employ them in the cultural battle to affirm or attack the liberal university tradition The Dilemmas of Social Democracies Howard Richards, Joanna Swanger, 2008-01-01 The Dilemmas of Social Democracies seeks to advance the eradication of poverty and the ethical construction of social democracy and sustainable peace Howard Richards and Joanna Swanger argue that the reason that capitalism resists transformation and that social democracy is so hard to achieve is because of the philosophical and institutional underpinnings _the constitutive rules_ of capitalism the book therefore explores the historical origins of these rules their implications for blocking progress toward social justice and how they can be improved **Learning and Teaching in Physical Education** Colin Hardy, Mick Mawer, 2012-10-02 Designed to fill the space of a course book for BA PGCE and ITT courses in PE This book brings together for the first time current thinking in Physical Education together with research findings and examples of best practice It caters for the growing pedagogical component of the many new PE and Sports Science courses and will benefit students and teachers alike providing content structure and direction to their studies **Writing in Knowledge Societies** Doreen Starke-Meyerring, Anthony Paré, 2011-11-15 The editors of WRITING IN KNOWLEDGE SOCIETIES provide a thoughtful carefully constructed collection that addresses the vital roles rhetoric and writing play as knowledge making practices in diverse knowledge intensive settings The essays in this book examine the multiple subtle yet consequential ways in which writing is epistemic articulating the central role of writing in creating shaping sharing and contesting knowledge in a range of human activities in workplaces civic settings and higher education *Going to the Countryside* Yu Zhang, 2020-03-03 Since the beginning of the twentieth century modern Chinese intellectuals reformers revolutionaries leftist journalists and idealistic youth had often crossed the increasing gap between the city and the countryside which made the act of going to the countryside a distinctively modern experience and a continuous practice in China Such a spatial crossing eventually culminated in the socialist state program of down to the villages movements during the 1960s and 1970s What then was the special significance of going to the

countryside before that era *Going to the Countryside* deals with the cultural representations and practices of this practice between 1915 and 1965 focusing on individual homecoming rural reconstruction revolutionary journeys to Yan an the revolutionary going down to the people as well as going to the frontiers and rural hometowns for socialist construction As part of the larger discourses of enlightenment revolution and socialist industrialization going to the countryside entailed new ways of looking at the world and ordinary people brought about new experiences of space and time initiated new means of human communication and interaction generated new forms of cultural production revealed a fundamental epistemic shift in modern China and ultimately created a new aesthetic social and political landscape As a critical response to the urban turn in the past few decades this book brings the rural back to the central concern of Chinese cultural studies and aims to bridge the city and the countryside as two types of important geographical entities which have often remained as disparate scholarly subjects of inquiry in the current state of China studies Chinese modernity has been characterized by a dual process that created problems from the vast gap between the city and the countryside but simultaneously initiated constant efforts to cope with the gap personally collectively and institutionally The process of crossing two distinct geographical spaces was often presented as continuous explorations of various ways of establishing the connectivity interaction and relationship of these two imagined geographical entities *Going to the Countryside* argues that this new body of cultural productions did not merely turn the rural into a constantly changing representational space most importantly the rural has been constructed as a distinct modern experiential and aesthetic realm characterized by revolutionary changes in human conceptions and sentiments
