The Modern British Horror Film Steven

Gerrard,2018-02-05 When you think of British horror films you might picture the classic Hammer Horror movies with Christopher Lee Peter Cushing and blood in lurid technicolor Yet British horror has undergone an astonishing change and resurgence in the twenty first century with films that capture instead the anxieties of post Millennial viewers Tracking the revitalization of the British horror film industry over the past two decades media expert Steven Gerrard also investigates why audiences have flocked to these movies To answer that question he focuses on three major trends hoodie horror movies responding to fears about Britain s urban youth culture great outdoors films where Britain s forests caves and coasts comprise a terrifying psychogeography and psychological horror movies in which the monster already lurks within us Offering in depth analysis of numerous films including *The Descent* *Outpost* and *The Woman in Black* this book takes readers on a lively tour of the genre s highlights while provocatively exploring how these films reflect viewers gravest fears about the state of the nation Whether you are a horror buff an Anglophile or an Anglophobe *The Modern British Horror Film* is sure to be a thrilling read

The Shifting Definitions of Genre Lincoln Geraghty,Mark Jancovich,2008-04-07

Histories of science fiction often discuss Fritz Lang s *Metropolis* as a classic work within the genre yet the term science fiction had not been invented at the time of the film s release If the genre did not have a name did it exist Does retroactive assignment to a genre change our understanding of a film Do films shift in meaning and status as the name of a genre changes meaning over time These provocative questions are at the heart of this book whose thirteen essays examine the varying constructions of genre within film television and other entertainment media Collectively the authors argue that generic labels are largely irrelevant or even detrimental to the works to which they are applied Part One examines the meanings of genre and reveals how the media is involved in the production and dissemination of generic definitions Part Two considers specific films or groups of films and their relationships within various categorizations Part Three focuses on the

closely tied concepts of history and memory as they relate to the perceptions of genre The Turn to Gruesomeness in American Horror Films, 1931-1936 Jon Towlson, 2016-09-27 Critics have traditionally characterized classic horror by its use of shadow and suggestion Yet the graphic nature of early 1930s films only came to light in the home video DVD era Along with gangster movies and sex pictures horror films drew audiences during the Great Depression with sensational content Exploiting a loophole in the Hays Code which made no provision for on screen gruesomeness studios produced remarkably explicit films that were recut when the Code was more rigidly enforced from 1934 This led to a modern misperception that classic horror was intended to be safe and reassuring to audiences The author examines the 1931 to 1936 happy ending horror in relation to industry practices and censorship Early works like Murders in the Rue Morgue 1932 and The Raven 1935 may be more akin to The Texas Chain Saw Massacre 1974 and Hostel 2005 than many critics believe **The New Historical Dictionary of the American Film Industry** Anthony Slide, 2014-02-25 The New Historical Dictionary of the American Film Industry is a completely revised and updated edition of Anthony Slide s The American Film Industry originally published in 1986 and recipient of the American Library Association s Outstanding Reference Book award for that year More than 200 new entries have been added and all original entries have been updated each entry is followed by a short bibliography As its predecessor the new dictionary is unique in that it is not a who s who of the industry but rather a what s what a dictionary of producing and releasing companies technical innovations industry terms studios genres color systems institutions and organizations etc More than 800 entries include everything from Academy of Motion Pictures Arts and Sciences to Zoom Lens from Astoria Studios to Zoetrope Outstanding Reference Source American Library Association
